The attacks were repulsed but south of the railway, on a front of two thousand yards, the British troops were forced back for a short distance. Other counter attacks were made by the enemy northeast of Broodseinde during yesterday's fighting, which were repulsed with very heavy losses to the attackers.

We carried out several successful raids south of the Scarpe river. Heavy rain is falling today all along the line.

FURTHER PLOT REVELATIONS BY STATE DEPT.

Sabotage Proposed by the German General Staff Disclosed—German Millions Lost by Speculation.

(Special to The Daily News.)
Washington, Oct. 11.—In January, 1916, the German General Staff proposed that the Canadian Pacific Railway be destroyed at several points, and other sabotage was also proposed at several important points in the United States. It was Count von Bernstorff's idea to get a majority in both houses of Congress favorable to Germany in September, 1916, according to fresh revelations of the plotters, made by the State Department here yesterday.

Millions Lost.
New York, Oct. 11.—The millions entrusted to Dr. Heinrich Albert for the payment of German spies and other propagandists in the United States were lost in speculation in New York and Chicago. Dr. Albert, working with Bernstorff, directed Germany's spy system in North America and had the handling of between sixty and seventy-five million dollars. With this fund he was to place spies, buy newspapers and lecturers, and also to prevent the shipment of munitions to the Allies.

A PERPETUAL WARNING TO THE GREEK KINGS

Athens, Oct. 9.—In his speech in the House here, Venizelos issued a warning to the present and the future kings of Greece. "In the Palace of Westminster," he said, "there exists a tablet placed in a conspicuous position, which says to the people: 'Here was beheaded Charles, King of England, for having usurped the liberties of the English people.' Every time the British Sovereigns proceed to the Palace of Westminster, to proclaim the opening or closing of Parliament, they pass in front of this inscription. It is my intention to propose to the forthcoming National Assembly that a marble tablet be set up in this hall, in such a position that the King coming here shall see it, and that on it be inscribed, 'King Constantine, having dissolved for the second time the Chamber of 1915 in order to impose a personal policy, lost the Throne, while the dissolved Chamber, again convoked, continued to perform its constitutional duties.'"

THE LATEST GERMAN IDEA

(Special to The Daily News.)
Amsterdam, Oct. 11.—Another Prussian scheme has been disclosed for the domination of the world by Germany. The Cologne Zeitung dwells upon the necessity of a German, Japanese, Russian alliance to ensure the downfall of the British Empire, and to divide the world between them.

HUN MONARCHS TO MAKE OTHER PEACE OFFERS

Emperor William and Emperor Karl to Meet Soon—Definite Peace Offer Expected Within a Month.

(Special to The Daily News.)
London, Oct. 11.—Despatches received here indicate that a meeting of the Emperors Wilhelm and Karl of the Central Empires has been arranged for the immediate future. The object of their meeting is to talk peace, and a definite peace offer is said to be coming from them to the Allied Governments within a month.

The ruling classes in Germany are reported to be fighting now for their lives. The common people are at last beginning to learn the truth and are now in no mood for swallowing any more stories of further German victories, which exist only in the imagination of the Government. The Junkers are realizing that their privileged position is very precarious. Germany's allies are said to be holding a gun to the Kaiser's head, and relations between Turkey, Bulgaria, Austria and Germany are not nearly so cordial as they once were.

WILL STOP ALL SUPPLIES FROM REACHING GERMANY

Washington, Oct. 9.—Officials here see in the action taken by Great Britain in announcing the complete embargo on shipments to the northern neutrals of Europe one of the most important developments since the United States entered the world war, and one which shuts the doors of its commerce to the Central powers and nations like Holland, Sweden, Denmark and Norway, which have been accused of helping to feed and arm the Germans.

It is understood here that the United States had for some time urged upon Great Britain the necessity for taking this step, and that negotiations have been carried on by this Government with France, Italy and other countries in the alliance against Germany to induce them to take a similar course.

Great Britain, according to the understanding in official circles, has consented to abrogate all of its trade agreements with the northern neutrals, thus probably forfeiting the share of their products, which it has heretofore obtained. This share, in almost every instance, was far below the amount received from the same neutrals by Germany, and whereas Germany has to depend almost entirely upon these neutrals for the essentials involved, Great Britain and the other allies of the United States will be able to obtain them from other fields.

The United States Government has agreed to bend every effort to aid its allies in obtaining these supplies, which may be cut off by the abrogation of the agreement with the neutrals of Europe. Shipping will be directed and the commerce of the United States regulated with this point always in view.

MUTINY AMONG CREW OF GERMAN BATTLESHIPS

Captain of "Westfalen" Thrown Overboard and is Drowned—Marines Refuse to Fire Upon Crews.

(Special to The Daily News.)
Amsterdam, Oct. 11.—A mutiny among the crews of four battleships of the German High Seas Fleet has occurred at Wilhelmshaven. The captain of one of the battleships, the "Westfalen," was thrown overboard and has been drowned. The crews of the four big ships came ashore, when Marines who were ordered to fire upon them refused. The mutinous sailors were thereupon surrounded by soldiers hastily summoned, when they surrendered to superior force.

The Kaiser immediately journeyed to Wilhelmshaven and on his arrival there, ordered the mutinous sailors to be shot forthwith. Chancellor Michaelis made a vigorous protest against this action, and the Kaiser was content to have only three of the ringleaders shot in the meantime. The men will be tried by court martial, and it is only conjectural whether their grievances will be heard.

THE CITY TAX SALE

The sale of the city lots for arrears of taxes was held yesterday, and completed. Mr. E. A. Woods was the auctioneer, and the sale was under the direction of Mr. E. D. Johnson, the city treasurer. Over twenty-two thousand dollars was the amount realized, and for inside property bidding was brisk. For one lot, 71 bids were received before it was finally knocked down. The cheapest lot went for the sum of \$6.00.

Yesterday's sale is said to have comprised the fewest number of lots put up than at any other tax sale, and likewise the amount realized was the smallest also. Quite a number of lots in Section one were taken up by the city.
