WAR BURDEN IN CANADA

Ottawa—Besides the military organization she maintains overseas, Canada keeps up a considerable establishment at home. Coast defences have to be looked after at Halifax, Sydney, Quebec, St. John and Esquimaux. Again, Canada has the duty of guarding at home internment camps, railway bridges, etc., requiring a large number of men, besides hospitals and camps.

In addition to this, there is in home waters the Canadian Naval Service, which since war began has absorbed 5,300 Canadians as officers and men, with its associated services all under direct Canadian control.

Although far removed from the central seat of war, Canada is under the necessity of keeping up a healthy military organization at home because this is a world war and, in its many ramifications, may raise its horrid head from any point of the compass. The first guarantee of efficient activity at the front is efficient organization and perfect order at home.

ALTERATIONS IN EXPRESS FISH RATES

Mr. O. H. Nelson, one of the Fisheries Advisory Board members, has received the following telegram from Ottawa respecting rates for fish by express:

"An order in council has been passed taking effect on October 15. Until further notice, system of payment of one third express charges on less than car load lot shipments of fresh, frozen or mild cured fish, so far as shipments from the Pacific coast is concerned, is discontinued, and authority given for the payment of two-thirds of the transportation charges on shipments of fresh, frozen or smoked cod and all the different varieties; flounders, except halibut and gray fish, no matter by what means or in what quantities they are forwarded from ports in British Columbia to points in Alberta, Saskatchewan or Manitoba.

(Signed) G. T. BEER, Dominion Fish Committee, Food Controller's Office."

This is doubtless to be considered a step in the direction of popularizing the cheaper varieties of fish, for which at present the fishermen find no considerable demand.
