LET US HAVE IT ALL

"Compulsory military service is only one aspect of national war organization. It is only one cog in a machine. It deals with what Sir William Robertson estimated to be only twenty-five per cent. of the force of a nation at war. The other seventy-five per cent. remains to be mobilized and this must be on the compulsory basis. A nation at war cannot operate on compulsion for field service only. It cannot take men by force and put them on the battlefield and leave everything else on a voluntary basis. If it nationalizes its manpower it must," says the Times, "nationalize its material resources; it must nationalize its food services, its munition services and the several funds now being maintained by voluntary effort."

"The Government Cost-of-Living Commissioner reports that in many items the cold-storage establishments of Canada carry larger stock this fall than they did last year. Now is the time for the Union Government to protect the public against food profiteering during the winter by taking over those concerns. This affects a very important part of the seventy-five per cent. of a nation's war organization and there should be no hesitation in carrying it out. Indeed, it concerns the most important aspect of a nation at war, not even excluding the army and navy."

"The Government should also ensure an adequate supply of fuel for the people. Prices are being fixed by the Fuel Controller, but whether this will solve the fuel supply problem time will tell. If it will not do so, the Government must take over the coal mines of the country and operate them. And it should nationalize its munition industry. Incredible though it sounds, it is a fact that here is not a national munition plant in operation in the Dominion today. Even Serbia had several such plants, and, if we are not mistaken, Montenegro had one also. Canada's magnificent machine shops were

handed over to private firms because, forsooth, it 'would never do' for the country to go into competition with private capital!

"And, most assuredly, now that the state is making military service compulsory it must make the surrender of all excess war profits compulsory. Sir Joseph Flavelle's company last year made about ninety per cent. on the capital invested. The state should take every cent above and beyond a fair peace profit from every firm which has been enhancing its wealth out of the agony of its country and its country's allies and use the proceeds in making adequate provision for soldiers' dependents, increasing the pension scale and lowering the burden of taxation and cost on the country generally."

"These are a few essential features of national organization for war. They imply compulsion all along the line and in some instances to an extreme measure, but they constitute the necessary and inevitable complement of compulsory military service. All Canada should be in the war—Canada at home as well as Canada in the trenches."

**HIGH COST OF LIVING
THE ELECTION ISSUE**

(Continued From Page One.)

once became worth its weight in silver. He also recommended tomatoes—tomatoes are now sixty-five cents a small basket. Everything Food Controller Hanna touches turns to gold. He is, so to speak, a Midas, only it works the other way round. Food Controller Hanna also held out the hope that potatoes would be cheap because so many society women were using their limousines to go out into the country and do potato patching. Unfortunately, the society crop of potatoes has been a complete failure, the hills showing either nothing at all or a collection of puny pebble-like atomies that looked like a bunch of misguided peanuts. It seems that the ladies let the bugs get ahead of them and soon deserted the uncongenial task of knocking

You Can Do Your Bit in preventing waste by demanding the whole wheat in breakfast foods and bread. **Shredded Wheat Biscuit** is 100 per cent. whole wheat grain prepared in a digestible form—contains more real nutriment than meat or eggs or potatoes and costs much less. the horrid things off, for lemonade and an easy chair on the clubhouse verandah.

"This has caused the real potato growers to buck up and talk again of four dollar potatoes, although the crop is an enormous one and a fat profit could be made at a dollar and a quarter. In fact a dollar and a quarter has been mentioned as the right price, albeit timidously and under one's breath, because the Government doesn't like to do anything that will frighten anybody. As for Food Controller Hanna, he doesn't seem to have heard anything about potatoes at all. The chances are that the potato pirates will do their worst again. Nothing will be done until the general election is over, which will be in December, or at latest next January."

Food Controller Hanna has not only neglected to fix the price of potatoes, but also the price of bread. The price of bread has done nothing but go up. In fact, going up is the best thing it does. Meanwhile the quality goes down. Controller Hanna was foolish enough to suggest war bread which is made largely of bran. War bread is now the same price as white bread. Controller Hanna's good intentions have accomplished nothing save to make the bran mash too expensive for the lower

**Internal Bathing's
Rapid Growth**

It is but natural to expect that a relief from Constipation and the many ills which it causes, which is so effectual and so natural as Internal Bathing, should quickly make many converts.

But its general use has increased so tremendously in the past few years as to suggest other reasons, and these are found in the statement of users that they feel as if "made over new" the morning after an Internal Bath.

The elimination of the pernicious and poisonous waste which is ever present in the Lower Intestine gives Nature a chance to work unhindered. And one arises in the morning clear-headed, able, bright, confident and eager for the day's duties.

Mr. F. E. Smith writes: "Dear Doctor:—Your 'Cascade' made a new man of me at the age of 49. I persuaded my wife to use the treatment also, and to-day she has better health than ever before. Since the use of the 'Cascade' she sleeps better and can walk for hours without fatigue. Fainting spells have become a condition of the past, can eat anything on the bill of fare and drink all beverages. Does not take cold when exposed; hot weather does not cause oppression."

The "J. B. L. Cascade," the most efficient device for Internal Bathing, is being shown and explained in detail at Cyril J. Orme's Drug Store, cor. 3rd Avenue and 6th St., Prince Rupert.

Keep up the Food Supply and Help Make Victory Sure

OUR soldiers must be fed; the people at home must be fed. And—in spite of Germany's murderous campaign to cut off the Allies' Food supply, by sinking every ship on the High Seas—an ample and unfailing flow of food to England and France must be maintained.

*This is National Service—
Not to the Farmer only—
But to YOU—to everybody—
This appeal is directed*

WE must unite as a Nation to SERVE—to SAVE and to PRODUCE. Men, women and children; the young, the middle aged and the old—all can help in the Nation's Army of Production.

PLANT a garden—small or large. Utilize your own back yard. Cultivate the vacant lots. Make them all yield food.

EVERY pound of FOOD raised, helps reduce the cost of living and adds to the Food Supply for Overseas.

WOMEN of towns can find no better or more important outlet for their energies than in cultivating a vegetable garden.
