**HOW DARING BRITISH OFFICER PUT END TO ENEMY SNIPERS' WORK**

London, Oct. 20.—Reuter's correspondent on the British front in France and Belgium telegraphs the following:—

"The weather cleared up today, renewing opportunities for aerial activity. Nevertheless, the battle-front is a vast weltering panorama of mud islets and countless green shell holes.

"A remarkable instance of the most cool individual daring is being told of an officer who became enraged because a nest of German snipers was firing on British stretcher-bearers, although enemy stretcher-bearers were working alongside for a considerable time unmolested. After a number of British stretcher-bearers had been shot down, the officer, carrying a Red Cross flag, walked boldly to the snipers' hiding place and proceeded in the most vigorous German to tell the snipers what he thought of them and their barbarity. He then returned safely and not a single shot came afterward from the enemy snipers."

**HUNS CONFISCATE ALL IRON AND STEEL**

Copenhagen, October 18.—The growing difficulty of obtaining iron and steel for war purposes in Germany is indicated by an Imperial regulation just promulgated in Berlin confiscating all stocks of structural iron and steel, common tubing, sheeting, cast-iron and cast steel. The order prohibits the use of any of these kinds of steel or iron except by special permission. The order goes far beyond the original regulation issued last July, which applied only to certain kinds of structural iron.
