### ON RUSSIAN FRONT, GERMANS RETREAT AND PREPARE TO RETREAT IN FRANCE

#### ANOTHER STRATEGIC RETREAT EXPECTED ON WESTERN FRONT

**FRENCH AVIATORS DISCOVER SIGNS OF GERMAN PREPARATIONS TO EVACUATE REGION OF LATEST FRENCH VICTORY—FRENCH ADVANCE BEING CONTINUED—MANY AEROPLANES BROUGHT DOWN**

(Special to The Daily News.)  
Paris, Oct. 26.—Further progress was made last night on the Aisne front by the French troops, chiefly between Chavignon and Mont des Singes. The farm of Hohay was captured by the French and many prisoners taken. The French advance reached the Oise and Aisne Canal, capturing the village of Pargny, Filain and several farm buildings close up to the German lines, driving the German defenders out. A large quantity of important war material was abandoned by the Germans, including many big guns, which they did not have an opportunity to remove.

**A Strategic Retreat.**  
The Paris press asserts that the French aviators flying over the Laon Sector have reported evidences of the German plan of raising the villages and any trees left standing, to the ground in the same manner in which they proceeded prior to their famous strategic retreat on the Arras-Cambrai line last spring. The position of the German forces has become precarious on account of the dominating positions now held by the French troops as the result of their latest advance, and it is extremely probable that the Germans are preparing to make another retreat "for strategic reasons."

#### BRITISH REPRISALS FEARED BY GERMANS

Zurich, Oct. 24.—That Great Britain's decision to bomb German cities and towns in reprisal for air raids on London and other English cities and towns is having a sobering effect in Southern Germany is indicated by "The Muenchener Post," which says that air attacks on open towns have proved, quite apart from moral estimates, that this mode of warfare will be the means of stiffening, rather than breaking the determination of the people. The newspaper says this applies to all the belligerents, and that it would be a matter of rejoicing if all of them would agree "no longer to make this fearful world catastrophe still more horrible through the slaughter of defenceless persons."

#### SIR WILFRID LAURIER'S MANIFESTO NEXT WEEK

(Special to The Daily News.)  
Ottawa, Oct. 26.—So far as can be learned here, Sir Wilfrid Laurier will issue his manifesto next week. It is expected in some quarters that it will be based chiefly upon the tariff and the high cost of living. Sir Wilfrid will pledge himself to eliminate the profiteers. The Liberal chief will not make a western tour on account of his age, but will send able lieutenants.

#### MR. W. WARNER DRIFTS 25 MILES IN OPEN BOAT

**Blown Out of Refuge Bay at Night  
Small Boat Nearly Swamped—  
Drifts to Lucy Island.**

Mr. W. Warner, one of the crew of the Lillooet, who has been missing from the vessel since Sunday night, is in town this morning, after a rather distressing experience. He put in fifteen long hours in an open boat, half full of water, drifting before the wind, which was blowing half a gale. His experience is hardly one to be envied.

On Sunday, the Lillooet was at anchor in Refuge Bay on Porcher Island. Mr. Warner has a ranch there, and obtained leave to go ashore to visit his place. He left the vessel about five p.m. and transacted what business he had ashore. He left the postmaster, Mr. Miller, about half past nine to go back to his ship. It was then dark with a good breeze blowing. In the darkness, Mr. Warner pulled past the bow of the ship and intended pulling up under her stern, but found the breeze too strong. He was literally blown out of Refuge Bay.

Once out in the open, a big comber broke over the little boat, half filling it. Mr. Warner hastily reached for the baler, when the wave carried away one of his oars. He drifted thus all night, and when morning broke, found his boat heading for Dundas Island. Steering as best he could with the remaining oar, however, he managed to make Lucy Island, where he arrived half dead with cold, and exhaustion after 1 p.m. Once there, however, he was in the kindly hands of Mr. Oullette, the light keeper, who gave him every attention, and restored his ebbing vitality.

Mr. Warner arrived in town last night.

#### BODY OF MR. WM. ANGLE FOUND AT SHAWATLANS

**Search Party Successful This Morning in Locating Remains of Missing Man.**

Early this morning a telephone message was received in town from the power house at Shawatlans stating that the body of Mr. William Angle had been found. Yesterday afternoon the party out searching was augmented by a large number of citizens, and arrangements were made for a systematic search of the ground. A little before eight o'clock this morning, according to information received, Mr. Jim Hampton came upon the body of Mr. Angle lying in a little ravine only about half a mile from his cabin. The details received so far are vague, but so far as can be made out at the moment, it seems that Mr. Angle had been successful in getting a deer, and was on his way down the mountain with the carcass. This he had left along with his rifle some little distance back on the hill and he was apparently making his way along the creek to his cabin. Whether he had received any injury, and if so, whether before or after he left the deer is as yet unknown. The full details will not be received until the arrival of the searchers which is expected early this afternoon.

#### B. C. WHALERS HAVE A RECORD SEASON

Victoria, Oct. 24.—Although the season is practically over an unusual number of whales have been spotted off Kynquut with the result that during the past day or two the total catch at the West Coast station has been considerably augmented. At this time last year all the steam whalers had left the stations for winter headquarters, but, according to information received by C. S. Ruck, manager of the Victoria Whaling Company, from the Kynquut station, the prospects are so good for future hauls that arrangements have been completed for the operation of additional vessels from that station.

Mr. Ruck stated this morning that the fleet will remain at sea while the weather permits. The weather conditions off the West Coast are fairly good at the present time, and it is likely that the season will be extended several weeks.

The Kynquut station grabbed ten mammals in one lot and this success had the immediate effect of inducing the company to order the steam whalers which have been plying out of Sechart to Kynquut. Consequently five whalers, the St. Lawrence, Black, Brown, Green and White, are now waging war on the monsters of the deep off this station. The whalers, William Grant, Orion and Blue, are still keeping busy off the Rose Harbor station.

The approximate catch to date for the three whaling stations is 400 whales—humpbacks, sulphurbottoms, Finns, Sei whales and some sperms. The catch this season will be in excess of last year.

#### HON. MINISTER OF LABOR HAS A HIGH HEART

St. Thomas, October 24.—The Times carries the following from Ottawa in an interview with Hon. T. W. Crothers, Minister of Labor: "There has been no intention, and there is no intention, that I shall quit the Labor Department. With the assent of the electors of West Elgin, I expect to be Minister of Labor after the general elections as before."

#### GERMANS RETREAT ON THE RUSSIAN FRONT

#### POLISH LEGION AT CAMP NIAGARA

**Expeditionary Force of Poles are Preparing to go Overseas "to Berlin to Free Poland"**

Niagara-on-the-Lake, Oct. 24.—A big Polish flag (a dark maroon color with a silver grey eagle in one corner) hangs in a conspicuous place near Camp Headquarters at Niagara-on-the-Lake, and under it is a big sign bearing the words: "To Berlin to Free Poland."

The troops now training at Camp Niagara will probably form part of the Polish Expeditionary Force which is being organized in France at the present time, and which will be conducted along the same lines as the Canadian, American and Australian armies. This force, it is said, is to be entirely independent of any other army, all its officers and men will be of Polish birth or descent. Polish citizens, who have wandered abroad in search of the freedom they did not enjoy at home, are welcomed to its ranks. The nucleus of the new army is composed of Poles who have served in the French army since the war began. All grades of society are represented among its volunteers. Nobles will fight beside artisans, professional men beside laborers, and boys of eighteen beside greybearded men of sixty. Proof of this may be found in the troops at camp here.

#### ITALIANS HAVE HARD TIME ON ISONZO FRONT

**Austro-German Bombardment of Italian Positions is Very Severe—Germans Break Through Lines.**

(Special to The Daily News.)

Rome, Oct. 26.—The violent bombardment of the Italian positions on the Isonzo front is being continued without interruption. That portion of our line between the southern slopes of Monte Rambino and the northern edge of the Bainsizza plateau is receiving the chief attention of the enemy fire. The northern part of the Italian line resisted the attacks of the enemy but further to the south, the German attackers were successful in breaking through our advanced lines. On the left bank of the Isonzo to the west of Volnik on the western slope of Monte Santo Gabrielle, our advanced line was overwhelmed, but the enemy has been checked at our main positions.

#### Per Berlin Wireless.

Berlin, Oct. 26.—In the drive which the Austro-German forces are making on the Isonzo front, we have already captured ten thousand Italian prisoners, among which are the brigade and divisional staff of the Italian army. Much war material was also taken.
