## POPULAR GOVERNMENT

One of the fundamental principles which has characterized always the British idea of responsible government is that it be with the consent of the governed. A people governed without consenting or without having the power of making effective their dissent in the acts and actions of their government are no longer a free people. The essence of such freedom exists in popular government—in the making effective of the will of the people. The wish of the majority goes. And in no part of the Empire can any government withstand that wish.

The unanimous desire of every Canadian is that the Dominion put forth its every effort in the prosecution of the war. Even Col. Blondin, who a few years ago was prepared to shoot holes in the Union Jack is now overseas and in karkhi. All Canada is at one on that point, notwithstanding that one political sect claims this virtue in excelsis.

The serious differences which have arisen among Canadians, all equally loyal, is as to the methods which shall prevail in the prosecution of the war. The late Borden Government, besides deliberately encouraging profiteering in war supplies for the benefit of its own partisan followers, thus robbing the people, made a complete change of policy with the introduction of the Military Service Act. When the same Government was elected in 1911, it opposed Laurier's naval policy on the grounds that such a policy meant conscription. Up to about a month before the Military Service Act was introduced, the people of Canada were assured that conscription would not be introduced. On one occasion Sir Robert Borden repeated his former statement to this effect "with emphasis." But Sir Robert's word was no good.

This reversal of the Premier's assurances was sprung upon the nation. The excuse was that the voluntary system had broken down, whereas the fact is that the voluntary sys-

tem had not been thoroughly tried out. Quebec was held up as a province of slackers while in that same province thousands of French-Canadians had never seen a recruiting officer.

In addition to this, the voluntary system was discouraged by the manner in which the soldiers' dependents were and are still being penalized by the failure of the Government to make adequate provision for their welfare by checking the rapacity of the food profiteers. The high cost of living shows no signs of decreasing, while certain men are heaping up millions.

The Borden Government apparently wanted this state of affairs to continue. That the few should benefit out of the misery of the many. Which is a good Tory doctrine. If the workmen would not go and fight for the profiteers' profits as well as for the Empire, Sir Robert would make it compulsory, notwithstanding his past promises, and without giving the people a chance to say yea or nay. Let the poor men sacrifice all they've got and let the rich keep all theirs. The consent of the governed does not matter. The will of the people is of no account. That's autocracy! Just what the Allies are fighting against. To be fair to the soldier, conscription, if applied at all, must go all round. Compulsory service should not be imposed upon men of military age only.

## INTERNATIONAL UNION OF ENTENTE SOCIALISTS

London, Nov. 10.—The executive committee of the National Socialist party of Great Britain, which favors the continuance of the war until Germany is beaten, has sent an appeal to the National and International Socialists in America to found an international organization of Socialists for the Entente countries.

The correspondent adds that a shortage in fuel is necessitating the cutting down of forests around the city; also that the depreciation in paper money and the resultant inflation of prices is causing alarm.

## ONE FOOD CONTROLLER JUSTIFIES HIS BEING

Chicago, Nov. 10.—The prices of ham and bacon to the consumer were cut five to ten cents by the Illinois Food Administrator today. The Government's complete control of the packing industry lends importance to the announcement. While for the moment the cut applies only to Chicago and suburbs, prices eventually will serve as the standard for the whole country.

## CLEANSE THE LARGE INTESTINE

Present War Cry of Advanced Physicians.

Some of the leading surgeons of the world have gone so far recently as to remove part of the Large Intestine in cases so serious as that of Tuberculosis and restored the patient to perfect health by so doing.

The New York American has recently said: "During Constipation the poisons in the Large Intestine often become so great as to form a serious menace to health and even to life. Through the walls of the Intestine they enter the blood and consume the healthy blood cells, impoverishing the blood, and if this process is continued long enough an acute poisoning is produced."

It is impossible under our present-day mode of living for the Intestine to rid itself of all waste, and it is easily proven that there is an accumulation, no matter how regular we are. Drugs, if taken regularly, form a habit, but Internal Bathing by means of the "J. B. L. Cascade" cleanses the Lower Intestine its entire length with pure warm water and makes it clean, sweet and healthy.

At the same time it regulates the system and makes one feel that every function is working smoothly and naturally—and, indeed, this is so.

This letter will convey a message of good cheer to many:

Welland, Ontario.  
Dr. Chas. A. Tyrrell,  
163 College Street, Toronto, Ont.:

Dear Sir,—We heartily endorse the J. B. L. Cascade, as we find in our work that a loaded colon means a poisoned system, which, in turn, means ligamentous contraction of the spinal muscles, against which our work is directed.

Anything helping us in gaining relaxation we consider a boon, both to ourselves and our patients.

Most sincerely,  
Drs. Hoxley and Garland.

Over five hundred thousand are now enthusiastic users of the "J. B. L. Cascade," which is now being shown and explained at Cyril H. Orme's Drug Store, cor. 2nd Avenue and 6th St., Prince Rupert.

# Keep up the Food Supply and Help Make Victory Sure

"I AM assured that my people will respond to every call necessary to the success of our cause—with the same indomitable ardour and devotion that have filled me with pride and gratitude since the war began."

HIS MAJESTY KING GEORGE

OUR soldiers must be fed; the people at home must be fed. And—in spite of Germany's murderous campaign to cut off the Allies' Food supply, by sinking every ship on the High Seas—an ample and unfailing flow of food to England and France must be maintained.

This is National Service—  
Not to the Farmer only—  
But to YOU—to everybody—  
This appeal is directed

WE must unite as a Nation to SERVE—to SAVE and to PRODUCE. Men, women and children; the young, the middle aged and the old—all can help in the Nation's Army of Production.

PLANT a garden—small or large. Utilize your own back yard. Cultivate the vacant lots. Make them all yield food

WOMEN of towns can find no better or more important outlet for their energies than in cultivating a vegetable garden.

EVERY pound of FOOD raised, helps reduce the cost of living and adds to the Food Supply for Overseas.

Be patriotic in act as well as in thought.

Use every means available—  
Overlook nothing.
