FREEDOM

It has been the proud boast of the English-speaking peoples that they have always enjoyed a larger and wider measure of freedom than most other nations. We have hitherto been free from irksome interference by authority in the form of Government officials. In fact lack of Governmental control has been the one conspicuous thing distinguishing British Government from most others. Self Government for her overseas dominions is the one thing which has distinguished the British Empire from all preceding empires. In former centuries centralization was the rule. Within the British Empire, it is not the rule. We in Canada have the right to decide for ourselves what the course of action the Dominion shall pursue. In five weeks' time, the people of Canada will have an opportunity to decide whether they are in favor of the maintenance of the rights of the people in deciding of the great questions of the day; whether they are in favor of the abolition of profiteering, and whether they are in favor of the principle of conscription being applied to the man power of the country alone, while the other resources of the Dominion are left upon the voluntary basis.

It is only fair to the soldiers who have volunteered, and to those who will be conscripted that the same principle be applied to the other resources of the nation in order to win the war. We have the spectacle of war profiteers and food profiteers heaping up huge profits, which a tender Government handles very delicately. In all probability large sums of these profits will be placed with the popular loans, the Victory loan and others, which are free of taxation. If the excess profits are not taxed when they were made, they cannot be taxed when they are invested in the Victory Loan. This doubtless is some of the consideration shown by Sir Thomas White, the late Finance Minister of the Borden Conservative Government and the present Fi-

nance Minister of the Borden Union Government, to his friends the profiteers. The Government may change, ostensibly, but Sir Robert Borden and Sir Thomas White remain, and the large profits remain untouched as heretofore. The policy of these gentlemen is to conscript the working men. They only make wages. But to conscript the swollen profits made out of war orders and the food of the people and of the soldiers is another thing. That would be discrimination—against the friends of the late Government.

With the Union Government in power, controlled by the Tory crowd who have looted Canada for the last six years, little improvement may be looked for. The people of Canada require a reduction in the high cost of living, the people of Canada require that the burden of taxation be equalized, the people of Canada require that the iniquitous tariff be revised, Prince Rupert requires orders for the building of ships, Prince Rupert requires something more than holes being dug in her main avenues, Prince Rupert requires that her resources be utilized to the fullest in the winning of the war. These are things which Sir Robert Borden has had an opportunity to do since the war broke out, but which he consistently ignored.

By voting for the Borden Government, there is little hope that the desires of Prince Rupert will be realized.

WHAT A VICTORY BOND REALLY MEANS TO YOU

(Continued From Page One.)

to 95 per cent. of its value while it is earning interest for you to pay interest for the loan while it is deposited with the banker as collateral.

Fourth—Its stability of quoted market price is practically assured because of its high interest bearing rate. The chances of its ever being quoted below its face value are very remote after the war.

Fifth—The legitimate chances

that this security will advance in price above face value are extremely good. In normal times the interest bearing rates of Government Securities (which are classed Gilt Edge) ranged from 3 1/2% to 4 1/2%. The latest market quotations for these bonds are 2 1/2% more than price sold at originally. On this basis the present issue of Victory Loan Bonds would, in normal times, be within the range of possibilities, quoted at \$125 to \$113 for \$100 bond. There is, therefore, every reason to believe that the investor might be in the happy position of being rewarded for merely doing what is incumbent upon him as a citizen, of having a "Scrap of paper" typical of Britain's pledge, worth \$135 to \$140 within a short period after peace is declared. Your bond is not a worthless pledge like Germany's pledge to Belgium, by the breach of which Britain was drawn into this struggle in which Canada and the overseas dominions have played such an important part.

Our boys have covered themselves with glory! What are we doing as a simple duty? Buy a Victory War Bond and emulate their efforts so that many things well done and well put together may bring greatness to our fair Dominion and the Empire.

If you are too old to enlist, you are better able to invest; therefore, buy Victory War Bonds.

Lloyd George says the Silver Bullet will win the war. Turn your dollars into bullets; buy Victory War Bonds.

CLEANSE THE LARGE INTESTINE

Present War Cry of Advanced Physicians.

Some of the leading surgeons of the world have gone so far recently as to remove part of the Large Intestine in cases so serious as that of Tuberculosis and restored the patient to perfect health by so doing.

The New York American has recently said:

"During Constipation the poisons in the Large Intestine often become so great as to form a serious menace to health and even to life. Through the walls of the Intestine they enter the blood and consume the healthy blood cells, impoverishing the blood, and if this process is continued long enough an acute poisoning is produced."

It is impossible under our present-day mode of living for the Intestine to rid itself of all waste, and it is easily proven that there is an accumulation, no matter how regular we are.

Drugs, if taken regularly, form a habit, but internal bathing by means of the "J. B. L. Cascade" cleanses the Lower Intestine its entire length with pure warm water and makes it clean, sweet and healthy.

At the same time it regulates the system and makes one feel that every function is working smoothly and naturally—and, indeed, this is so.

This letter will convey a message of good cheer to many:

Welland, Ontario,
Dr. Chas. A. Tyrrell,
163 College Street, Toronto, Ont.:

Dear Sir,—We heartily endorse the J. B. L. Cascade, as we find in our work that a loaded colon means a poisoned system, which, in turn, means ligamentous contraction of the spinal muscles, against which our work is directed.

Anything helping us in gaining relaxation we consider a boon, both to ourselves and our patients.

Most sincerely,
Drs. Hoxley and Garland.

Over five hundred thousand are now enthusiastic users of the "J. B. L. Cascade," which is now being shown and explained at Cyril H. Orme's Drug Store, cor. 3rd Avenue and 6th St., Prince Rupert.

Ask or write now, while you think of it, to Chas. A. Tyrrell, M.D., 163 College Street, Toronto, for free and interesting booklet, "Why Man of Today is Only 50 Per Cent. Efficient."

HERE'S a luxury within the reach of everyone—a hair bath in the whipped-cream-like lather that LUX makes in hot water. Your hair takes on a soft, luminous silken quality that makes it a crown of beauty indeed. The scalp is stimulated, your head refreshed.

LUX makes water soft as summer rain. These wee satin-smooth flakes of the purest essence of soap dissolve absolutely in hot water so that not the tiniest particle of soap can remain to clog the pores. Try it to-night.

Keep up the Food Supply and Help Make Victory Sure

OUR soldiers must be fed; the people at home must be fed. And—in spite of Germany's murderous campaign to cut off the Allies' Food supply, by sinking every ship on the High Seas—an ample and unfailing flow of food to England and France must be maintained.

This is National Service—
Not to the Farmer only—
But to YOU—to everybody—
This appeal is directed

WE must unite as a Nation to SERVE—to SAVE and to PRODUCE. Men, women and children; the young, the middle aged and the old—all can help in the Nation's Army of Production.

PLANT a garden—small or large. Utilize your own back yard. Cultivate the vacant lots. Make them all yield food

EVERY pound of FOOD raised, helps reduce the cost of living and adds to the Food Supply for Overseas.

WOMEN of towns can find no better or more important outlet for their energies than in cultivating a vegetable garden.
