KERENSKY RETURNS TO PETROGRAD AGAIN

BOLSHEVIKI MOVEMENT IS SUPPRESSED -- GEN. KORNILOFF IS WITH KERENSKY

KERENSKY COMES OUT ON TOP IN THE RUSSIAN UPHEAVAL

KORNILOFF, KALEDINE AND KERENSKY FORM A TRIUMVIRATE AND HAVE ALL THE RUSSIAN TROOPS WITH THEM--BOLSHEVIKI ARE OVERTHROWN AND IN HIDING--ORDER PREVAILS

London, Nov. 14.—It is reported that Premier Kerensky's troops are again in control of Petrograd, including the Nevsky Prospect. The members of the Bolsheviki have taken refuge in the Smolny Institute. The Finnish newspapers state unreservedly that the Bolsheviki party is definitely overthrown.

Messages from Southern Russia state that the country is in control of the Cossacks, who are following Kerensky. The Government, by Kerensky's orders will remove to Moscow.

A proclamation has been issued by Korniloff and Kaledine summoning the people to unite against the Bolsheviki. It is reported that Korniloff entered Petrograd at the head of Kerensky's troops, where the entire garrison, except the sailors, joined him.

Travellers reaching Sweden state that Kerensky has gained a decisive victory over the Bolsheviki party. Kerensky, Korniloff and Kaledine have formed a triumvirate and have all the troops in Russia with them.

All indications point to the speedy settling down of the disturbing elements in the new Russian republic and that active hostilities will again be taken up against the common enemy.

BRITAIN WILL HAVE AN AIR MINISTRY

London, Nov. 12.—It is understood that the bill for the establishment of the Air Ministry which will be introduced in the House of Commons in a few days will provide for the co-ordination of the successful stages of work in the naval and military air services and the Air Board. The Ministry will assume complete control of the new arm gradually. Its first duty will be to set up a central organization of policy and a central organization of supply. It will also be given power over discipline and pay. It is expected that Lord Cowdray, President of the Air Board, will be the first Air Minister.

Mr. and Mrs. G. Rock and children, of Hazelton, arrived in the city this morning from Vancouver.

MINING NOTES FROM STEWART DISTRICT

The Fish Creek Mining Company, under the management of Mr. W. R. Tonkin, who is also president of the company, drove some four hundred feet of tunnels on the different leads on the property. Several veins were stripped and their continuity proven over considerable distances. The ores met with are silver-lead, carrying gold and copper in veins from two to five feet in width and copper-gold ore up to twenty-five feet in width. The ores are of good grade. A few men will continue at work during the winter and a small trial shipment of high-grade ore will be made.

The Bush property on Salmon River under bond to R. K. Neill, maintained a force of men on development work all summer, which will be continued throughout the winter. Shipments of ore will go forward when the road now under construction is completed.

The Big Missouri property, which consists of some fourteen claims, has been bonded to the Granby Co. The discovery of a large body of good grade ore near the Big Missouri was made late in the summer. It was bonded by Messrs. Martin and Carter, who are operating a property near Seven Mile.

The Lakeview group of claims on Glacier Creek was bonded early in the summer by the Alice Arm Mining and Development Co., Ltd. Two hundred feet of cross-cut tunnel were driven and the work will be continued throughout the winter.

The Prince John group of copper claims on the Bear River were bonded by the Granby Company in July. A large force of men have been engaged in the erection of mine buildings and other work in connection with the installation of diamond drilling outfits. The drilling has now started and will be continued throughout the winter.

Some prospecting work was done on the Molly B. group of molybdenite claims at the mouth of Bear river. The lead was traced several hundred feet. It averages from two to four feet in width and carries from five to fourteen per cent. molybdenite.

The Maple Bay mines owned by the Granby Co., upon which development work has been going on during the past three years, commenced shipping to the smelter at Anox in August. A new limestone quarry has been opened up at Swamp point and a short line of railway installed. The quarry, which is also owned by the Granby Co., supplies the smelter at Anox with 4,000 tons of limestone per month.

THE VICTORY LOAN

The chief feature about Canada's Victory Loan, which makes it more attractive to the ordinary people is the rate of interest. A guarantee of 5½% interest for the next twenty years with absolute security, is something out of the ordinary, which puts the Victory Loan in a class by itself. With no risk of depreciation in the security offered, which has always to be taken into account in ordinary commercial bonds, the

FINANCIAL MAGNATES AND NATIONAL LOANS

The People of Canada Alleged to be Financing the Business of War Profiteers.

At the Trades and Labor Council meeting last evening, Mr. W. E. Thompson criticized the manner in which the big interests would profit most by the Victory and other loans made by the people to the Government of Canada.

While in no way detracting from the value of the Victory Loan to those who subscribed for it, Mr. Thompson pointed out that it was the big interests and the moneyed classes who were in the best position to get all the advantages. The middle classes who had to work, Mr. Thompson thought would only be able to absorb about \$50,000,000, which of this last loan would leave \$100,000,000 for the big interests.

This whole \$150,000,000 would be paid to them and from which they would derive large profits, which were inadequately taxed. Canada must give Britain credit because the big interests must have the cash for their products, while to redeem the loans made for the purpose of paying these big interests cash for their products, the people would have to be heavily taxed in the years to come.

HEAVY BOMBARDMENT OF PAIVE RIVER LINE

The Italians are Well Entrenched Behind the River—Germans' Slight Gain in North.

Rome, Nov. 14.—There has been a very heavy bombardment of the lower Piave river line, but no other operations on the new Italian line. The Italian army is now well entrenched behind the river.

Look your best and be comfortable in a La Camille Corset. Prices very moderate. Phone Red 485, Mrs. Demers, Stephens Bldg.

Facts About Victory War Bonds

Nearly 500,000 men have loaned their lives to Canada for the cause of Liberty and Freedom, but only 40,000 people have loaned their money. One in every twenty-three people in the Old Country loaned their money to the Empire, and one in every twenty-seven bought Liberty Bonds in the United States for which they received only 4 per cent interest. The Victory War Bond will pay interest at 5½ per cent. If not for patriotism alone, buy upon the basis of a good business proposition; it is the best investment in the world today, and your dollars will help to make Canada the best country in the world, with the dawn of Victory, for Democracy will have won for the civilized world, liberty and freedom, against autocracy and militarism.

The terms of payment are within the reach of all, \$5.00 Dec. 1st; \$5.00 Jan. 2nd; \$10.00 Feb. 1st; \$10.00 March 1st; \$10.00 April 1st; \$10.00 May 1st, and you own a \$50.00 bond bearing interest at 5½ per cent., payable from Dec. 1st, 1917, and each six months thereafter while the bond is current.

FRENCH PRESS PRAISE THE CANADIAN TROOPS

London, Nov. 12.—Le Matin, the Paris paper, writing on the advance of the Canadians, says: "It would have been surprising had not our friends the Canadians filled with the traditions of the past, been moved to celebrate by some definite exploit on the eve of the third anniversary of the first battle of Ypres. The Canadians, as it turned out, specially undertook to commemorate this anniversary by opening from the proposed starting point of Bellevue Spur a bold move towards Passchendaele. Hindered by almost insurmountable difficulties in the avalanche of rain and maelstrom of mud, this action was crowned by taking Bellevue, and will remain without doubt, so a general told us yesterday, the most brilliant feat of arms of the battle, if not of the whole Flanders campaign.

attractiveness of this investment cannot be over emphasized. The Government will pay you \$5.50 per annum for every \$100 you lend them. Can you get that elsewhere with equal security? If you can, you're lucky, very lucky! If you cannot, then here's your chance. Buy a Victory Bond!

REV. DR. GRANT WILL REMAIN IN RUPERT

Two weeks ago, the Rev. Dr. Grant informed his congregation that he had received a call from the congregation of Cooke's Church at Chilliwack. The decision was left in the hands of the Presbytery.

Information reached town this morning from the Presbytery at New Westminster that they had decided to allow Dr. Grant to remain in Prince Rupert. This information will be received with gladness not only by the members and congregation of the Presbyterian Church, but by the innumerable friends of Dr. Grant in the city and in other churches. In view of the good work which Dr. Grant has been doing here, it is felt that it would have been a mistake to have allowed him to depart at this time.

Owing to the slides at Inverness this morning, the train for the east did not leave.

Mr. and Mrs. B. G. Johnston and family, of Inverness, arrived in the city last evening on a visit.

HARTLEY DEWART, K. C., STATES PLAIN TRUTHS

Toronto Liberals are out Strong for Sir Wilfrid Laurier—Denounce Borden.

Toronto, Nov. 13.—A large and enthusiastic meeting was held here in support of the candidature of Mr. James Ballantyne, the labor candidate. The meeting was addressed by Mr. Hartley Dewart, K. C., M. P., and Mrs. Prenter.

Mrs. Hector Prenter was warmly applauded. It was little use, she said, to complain and rail against prices and war profiteering. "The profiteers just sit back and smile," she said. "They've got their baronetcy and they've got their profits, and they don't care. The only thing for a people of brains to do is to get rid of them both, them and the Government that made them possible." (Cheers.) She thought a union between Labor and Liberal principles was earnestly to be desired in the public interest.

Alluding to an editorial in the Conservative press stating that Sir Wilfrid Laurier was unalterably opposed to conscription, Mrs. Prenter declared the statement to be untrue. "He is for conscription if the people want it, which is a very different thing," the lady declared, "and we should keep our heads level, and not be carried away by all the nonsense that is written."

Conglomerate Elements.

Mr. H. H. Dewart, M. P. P., got a rousing reception. He paid eloquent tribute to Mrs. Prenter and her message, and scored "the aggregation of conglomerate elements falsely named a Union Government." The Liberal press, began Mr. Dewart, when he was interrupted by cries of "Our press is bought" and "The big interests have it." Mr. Dewart did not think that was fair, and just, but he believed that Liberalism could well afford to join hands with Labor in the pending struggle, against the common enemy of a Government of the big interests and profiteers.

Mr. Dewart alluded to Premier Borden as the man who had headed the Government which for six long years had mismanaged the country's business and its war efficiency. He characterized Sir Thomas White as the tool of the corporations and trusts, who had opposed all efforts to make wealth pay its adequate share of war and income taxation. Sir Edward Kemp was the weakening Minister of Militia, while the two Nationalists retained their seats in the Cabinet as their reward for appealing to the basest and meanest sentiments in Quebec to beat Laurier." Mr. Meighen was passed over by Mr. Dewart as "a cheap apologist and artifice."

Hisses and Cries of "Shame!"

As to the added mixture of so-called Liberalism, Mr. Dewart said that eastern Canada, with the exception of one man, Hon. Frank B. Carvell, had no real representation from the ranks of Liberalism. Who represented Ontario Liberalism—Guthrie, Rowell and Mewburn. (Hisses, and cries of "Shame!") "We do not propose to accept such representatives," he said. He thought it also unfortunate that General Mewburn was a brother-in-law of Hon. Dr. Reid, the Minister of Railways and a member of the Borden Cabinet for the past six years, and that another brother-in-law was assigned to duty on the Pensions Board at a salary of \$10,000. "Family compact influence isn't good Liberalism," exclaimed Mr. Dewart, amid more cheers.

Stop Profiteering.

In conclusion Mr. Dewart scathingly reviewed the record of the Borden Administration and touch-

LANDSLIDE WRECKS CANNERY BUILDINGS

Dwelling House and Bunkhouses at Inverness Cannery are Carried Away.

During the early hours of this morning, the mountain side which towers above the cannery at Inverness, loosened by the heavy rains of the past few weeks, started moving downward. The huge mass of muskeg, trees and rock gathered momentum as it moved and meeting in its way certain of the buildings around the cannery took them with it.

The dwelling house of Mr. A. Bailey, the accountant, and the mess house, together with the bunkhouses, received all the damage. Luckily, there was only one man on the premises at the time. Mr. R. G. Johnston, the manager of Inverness, arrived in town last evening, accompanied by Mrs. Johnston and family and although their house was not threatened, they have escaped a rather alarming experience. Mr. and Mrs. Bailey left for the south only last week for a few months, and as the cannery was closed down for the season, there were few men around at the time. Dick Cruise was the only one in the building at the time of the slide, and he had a narrow escape. He managed to hack his way through the roof and escaped with a bad shaking.

The slide came right down to the railroad track, blocking it for a distance of between five and six hundred feet, and tearing down the telegraph wires in its course. The train was unable to leave this morning on account of the slide, although the work of clearing the track is being done with all expedition.

LOAVES AND FISHES LOOK GOOD TO "BOB"

Ottawa, Nov. 12.—The appointment of Hon. J. D. Hazen to be chief justice of New Brunswick in succession to Sir Ezekiel MacLennan gave rise to considerable surprise here, as it was understood Mr. Hazen was slated for appointment to the proposed high commissionership at Washington. It seems, however, that there is some hitch over the creation of the Washington position. In any event, it is said, Hon. Robert Rogers is pressing his claims to it.

ed upon the Laurier manifesto, emphasizing the steps the Liberal leader proposed to take to stop profiteering, to fix prices and to secure for the soldiers and their dependents their due.

On motion of Messrs. Greenwood Brown and John Dillon, a resolution was passed endorsing the manifesto of Sir Wilfrid Laurier, and eulogizing the Liberal leader.
