NATIONAL SERVICE

"Today under the exhaustion of war, Great Britain and her allies are appealing as never before for more food, more ships and more coal. No country has vaster resources than Canada to supply these imperative requirements. What is needed is vigorous efforts to further an unlimited production. To meet the existing need further steps are necessary to increase double, quadruple the output of all that may be necessary for marching and fighting armies."

In addition to this statement, the truth of which needs but a glance to perceive, is further borne out by the declaration of the shipping controller in Great Britain a few weeks ago. The shipping controller doubted whether the aid from the United States forces going overseas would not be counteracted by the drain on the world's shipping in moving the forces.

This the shipping controller was of the opinion would probably subtract from the fighting strength of the other allies just as much as her own forces would add, unless America put forth a much greater effort in building of ships, to provide the wherewithal for the transport of her own troops.

The great necessity is for ships and still more ships. Prince Rupert is capable of building ships. Her ship shed and machine shops, etc., have stood idle since the beginning of the war. Prince Rupert people have asked why. But could get no satisfactory answer. The last excuse was that steel plates could not be got. Which is rubbish. If steel plates could be got for the building of ships in Vancouver, they could be got for Prince Rupert just as easily. Freight rates from the east are the same. Prince Rupert could also build wooden ships. But all orders for these coming to the Pacific coast did not escape from the two larger and older cities to the south. The Borden Government has made no effort to utilize the resources of Prince Rupert in the winning of the war. Apparently they have no intention to either. Ships are required,

and Prince Rupert's plant could build ships. But, Prince Rupert has built no ships. It is safe to say that there is not another such plant in this world outside of the Central Empires, whom we are at war with at the present moment, where the sight will be seen of such a large establishment being deliberately kept idle. Prince Rupert's idle drydock is a monument to the fatuous policy of the Borden Government. They could see no good in any project set a go by the Liberals.

Prince Rupert is a Liberal town. "All right then," says the Borden Government. "Starve them out." That is what the present circumstances amount to.

And the supporters of Sir Robert Borden like it. They want Prince Rupert to vote for him so that he will have further opportunities of keeping the Prince Rupert plant idle. They are unworthy citizens indeed, who have not got the welfare of their own city at heart.

For three years past Sir Robert Borden and his Government have been aware that Prince Rupert's drydock plant was ready for business. But for three years they have chosen to ignore it. To have that plant working to capacity would mean a great deal to Prince Rupert. Shipyard men were here working on its construction five years ago, waiting till it was completed when they hoped to get regular work. These men have been frozen out.

The welfare of Prince Rupert and its citizens receive no consideration from the Government. The chairman of the Munitions Board is like minded. In self defence, Prince Rupert people have only one thing to do, which is to make every effort to restrain Sir Robert Borden and his associates from attaining to any position where he can continue to carry out his policy of masterly inactivity as applied to Prince Rupert.

SHE SAVED IMPORTANT BRITISH DISPATCHES

London, Nov. 20.—The story of how an American woman's action saved important British despatches when the vessel on which they were being carried to Malta was held up by an Austrian submarine was told today by Captain Stanley Wilson, who was carrying the despatches and who himself was taken prisoner by the Austrians and only recently released.

Captain Wilson told the military court which is investigating his capture that he threw one bag overboard, but that to his horror it did not sink, as he had supposed it would. At this juncture he was approached by an American woman travelling on the steamer, who offered to take charge of the other bags, saying she wished to do something for England.

"It was a great responsibility," said Captain Wilson, "but I took it and my action was justified, as the bags reached London."

The bags were hidden by the American woman until the Austrians had concluded their search of the steamer.

BE CLEAN INTERNALLY

Over 500,000 People Are Now Doing So.

For many years physicians have agreed that 95 per cent. of human ill is caused by accumulated waste in the Lower Intestine; that in our present way of living Nature could not remove all this waste without assistance, no matter how regular we might be; and that the poisons from this waste circulated through the blood pulled us away down below par and were responsible for many diseases of a serious nature.

During this time the "J. B. L. Cascade" for Internal Bathing has, because of their recommendation and those of its users, been steadily growing in favor.

Recently, however, the startling news, which has been covering the country that great surgeons and specialists have been operating on the Lower Intestine in such serious diseases as Tuberculosis, and attribute such conditions of chronic Ill-health as Nervous Debility and Rheumatism to this cause, also saying that these poisons are favorable to the development of Cancer and Tuberculosis (as stated in a recent article in The New York Times), has caused people to become thoroughly awake to the importance of keeping this Lower Intestine free from all poisonous waste matter, and over 500,000 are now using Internal Baths.

This enthusiastic and grateful letter is by no means an exceptional one amongst the hundreds on our file—

703 7th Ave. South, Lethbridge, Alberta, Dr. Tyrrell, Toronto:

Dear Doctor Tyrrell,—After using your "J. B. L. Cascade" for four months, I feel it my duty as a thankful patient to express my enthusiasm for the great blessing it has been to me. You cannot feel my emotions as I write this letter in praise of you in your great work. Words simply fail to express my thankfulness for first learning of your Cascade. Previous to using it I could not go a day without a drug of some sort, and since using it I have not, on my word of honor, swallowed five cents' worth of drugs. I spent over \$300.00 in the two years previous to hearing of the "J. B. L." Would that all the young men and women I see in this town with their faces covered with horrid, unsightly pimples would use it. They would soon get rid of them, as I did. I must stop, or I will be keeping you from your work, but I could fill ten more pages of my past condition of health, also in praise of the "J. B. L." May you enjoy this life to the full.

Sincerely yours,
William Devoy.

If you try the "J. B. L. Cascade" you will find yourself always bright, confident and capable—the poisonous waste makes us bilious, blue, dull and nervous. Internal baths are Nature's own cure for Constipation—just warm water properly applied. Drugs force Nature—the "J. B. L. Cascade" gently assists her.

Call and see it at Cyril H. Orme's Drug Store, Cor. 3rd Avenue and 6th St., Prince Rupert.

Ask for "Why Man of Today Is Only 50 Per Cent. Efficient," a booklet of great interest, which is given on request. If you prefer, write at once to Chas. A. Tyrrell, M.D., 163 College Street, Toronto, for this book.

NOTES AND COMMENTS

How much better off would Prince Rupert have been during the past six years with a Liberal instead of a Conservative Government in power at Ottawa?

The difference between the two candidates in Prince Rupert at this election was said the other night to be the difference between Sir Wilfrid Laurier and Sir Robert Borden. The difference between the man who put Prince Rupert on the map, and the man who has never done anything to keep it there. Some difference!

Sir Joseph Flavelle said that he had no qualms in heaping up for his own private use \$1,634,000 out of excess profits in bacon during the last three years. If Sir Joseph really went out after profits, which might give him qualms, wonder how much more he might have raised!

Notwithstanding the entry of Liberals into the Cabinet of Sir Robert Borden, Sir Joseph is still head of the Munitions Board, and nobody has seen any reduction in the price of bacon. There is a Food Controller, too.

When the voters get behind the protestations of extreme loyalty and the accusations of disloyalty which are rife regarding the different parties, they will find that the real issue to be considered in this election is really the record of the Borden Government. Their doings during the past six years is what Sir Robert Borden and his associates will be judged by, not by what Sir Robert intends to do during the next five. Sir Robert's intentions were good six years ago, that is good for his friends—his National Trust friends in Toronto—but hardly good enough for the people of Canada. Besides the way to a certain salubrious region is paved with these things.

Lloyd George says the Silver Bullet will win the war. Turn your dollars into bullets; buy Victory War Bonds.

Sunlight Soap

WOMEN who want to be economical should use SUNLIGHT SOAP freely in the house. First, because it is all pure soap—there are no cheap "fillers" so it goes farther and you get more real soap for the money. Second, because clothes last longer when washed with SUNLIGHT. Isn't this important? There are no injurious chemicals to harm the finest cloths—\$5,000 guarantee of this.

From—Saturdays, p.m.

CHRISTMAS MAIIS.

Closing Dates for Overseas.
Egypt, Salouki and Mediterranean points, November 10th.
France, November 24th.

Great Britain, December 8th.

Persons making up parcels for above points should mail them before the actual closing dates to avoid any possible delay.

Salvation Army.

Public meetings, Tuesdays, Thursdays and Saturdays at 8 p.m.
Sundays at 7:30 p.m.

WATER NOTICE
(Diversion and Use.)

TAKE NOTICE that John Grace, whose address is 1728 Yew Street, Vancouver, B.C., will apply for a license to take and use 50 miners' inches of water out of an unnamed stream on west side of Stewart Narrows about two miles south of Hartley Bay. The water will be diverted from the stream at a point about 1320 feet in a westerly direction from the mouth of said stream and will be used for power purposes upon the land described as unoccupied Crown land. This notice was posted on the ground on the 3rd day of November, 1917. A copy of this notice and an application pursuant thereto and to the Water Act, 1914, will be filed in the office of the Water Recorder at Prince Rupert. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within 30 days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is November 19, 1917.

JOHN GRACE, Applicant.

DATED November 19, 1917.

H. C. PHILLIPS.

LAND ACT

NOTICE TO DELINQUENT PARTNER

To C. W. Calhoun:

Take notice, whereas I have done and caused to be done assessment work on the Midland Fraction mineral claim, situated on the Iliaice river, about fourteen miles from the head of Alice Arm, in the Skeena mining division of Skeena district, assessment work for 1914, 1915, and 1916, and have paid for said work and recording same the sum of \$307.50. Unless you pay me the sum of \$102.50, for your share of the said assessment work, together with the cost of this advertisement, I shall, at the expiration of ninety (90) days from the date hereof apply to the mining recorder at Prince Rupert, B.C., for the removal of the said claim.

Dated at Prince Rupert, B.C., the 15th day of October, A.D. 1917.
