DO SOMETHING

For a long long time, the people of Canada have been appealing to the Government for some relief from the always increasing high cost of living. Since ever prices took such a great jump, coinciding with the outbreak of the war, the ordinary man who has to work, whether in receipt of wages or salary, has felt the pinch. Wages have increased to a much greater extent than salaries, but even at that, the man who works has practically no margin left at the end of the month. The increasing costs of all commodities always keep pace with any increase in the wages.

The late Borden Government did nothing in the way of protecting the people against the rapacity of the plunderers, the people who made the prices to show excess profits. They appointed a Food Controller, but there has been no result evident to the man who works that his appointment has brought about any definite result. Appointing a Food Controller means nothing so long as he does not or cannot control prices.

The new Borden Union Government have done nothing in the matter either unless to issue a few "vague promises." With regard to food prices "it was natural to expect that the reconstructed government would give serious attention to the situation of the country, which is admittedly critical. There is no allusion to it except the vague promise of 'effective measures to prevent excessive profits, to prohibit hoardings, and to prevent combinations for the increase in prices.' The economic problems have to be grappled with at once in no such vague general terms, but in vigorous and concrete proposals."

For the man who works, the high cost of living is one of the factors which will influence the manner in which he votes at the coming election. In order to live, at present he has to pay away practically all he can make in order that he and his family may live. There is but little margin for the investing

in the Victory Loan out of the present rates.

In distinction from the "vague promises" put forth by Sir Robert Borden, there are the concrete proposals of Sir Wilfrid Laurier. Sir Wilfrid is not afraid to face the facts as they are. The consumers at present have to pay too much. The profiteer at present is getting away with too much, of which he is robbing the consumer. Sir Robert Borden is content that the profiteer should exploit the people to his heart's content. To Sir Robert's way of thinking, that is as it should be. To the way of thinking of Sir Wilfrid Laurier and the great mass of the people it is not as it should be.

What is up to the voters at the election is to say whether they are content with the present state of affairs. If they prefer to have to pay too prices to the profiteer for their food and clothing, and almost every thing else they buy, Sir Robert Borden and his Government they will vote for. If they are content that the profiteer be allowed to get away with his excess profits, Sir Robert Borden will not prevent him. Sir Thomas White and Sir Joseph Flavelle will see to that.

If the voters have liked the conditions which have arisen in Canada during the past six years; if they are content that things would slide along in the same old way, Sir Robert Borden can be depended upon. But if on the other hand, the voters think that there is room for improvement in the handling of Canadian affairs, if they want to see a reduction in the high cost of living, if they want to see the whole resources of the Dominion utilized to their fullest extent in the winning of the war, they will not vote for Sir Robert Borden. And if the Prince Rupert voters want to see any progress in the city of Prince Rupert, they will vote for Sir Wilfrid Laurier, the man who put Prince Rupert on the map.

Lloyd George says the Silver Bullet will win the war. Turn your dollars into bullets; buy Victory War Bonds.

NOTES AND COMMENTS

Organized Labor in Canada sees the difference between Conscription and Compulsory Military Service. Compulsory Military Service only conscripts the man power of military age. That is only part conscription. Both Labor and Laurier are together in that the principle of Conscription should be applied to a much greater extent than to mere man power. The necessity is equally great, and even greater.

The other evening Prince Rupert's Civic Finance Minister made a little slip, which enabled the public to see something of what had been going on for a while back. Mr. Nelson informed the meeting he was addressing in the interests of the Union Government Candidate that as far back as June last he had been in correspondence with General Currie and with Colonel Peck. He had been conponding further back than that too, although he did not say so. And who heard of Union Government last June?

The same reason exists in Prince Rupert for defeating the machinations of Sir Robert Borden and the Tory party, even if they do call themselves Unionists for the time being, 'as exists in Ontario. In that province there are straight Liberal candidates in at least seventy-five ridings, and Labor candidates in the remainder. The "National Trust" cabinet—there is no fifty-fifty divide with imported Liberals—has no longer got the confidence of the people.

Notwithstanding the alleged Union Government, the chief apostle of profiteering still holds down his job. There is no sign of Sir Joseph Flavelle getting the go-by yet.

Bathe Internally and Keep Well!

Nature has mightily equipped us all, old and young, to resist disease—but she requires that we give her a chance.

We give her no chance if we permit the Lower Intestine to be more or less clogged with accumulated waste. Yet that is a universal condition today, as is proven by the number of laxative drugs that are consumed.

You can help Nature in Nature's most effectual way by Internal Bathing, and in an easy, non-habit-forming way keep the Intestine as sweet and clean as Nature demands it to be for perfect health and surer defence against contagion. Over half a million keen, bright, healthy people testify to its result.

Mrs. C. G. M. (Name on request), of Stratroy, Ont., writes:—
I am pleased to have this opportunity of testifying to the merits of the J. B. L. Cascade. I have been using it now for a year with satisfactory results. I am an old woman, but my health is so improved that I have a renewed lease of life. You are at liberty to give my address to anyone privately who may desire to write to me regarding the Cascade.

Just call at Cyril H. Orme's Drug Store, cor. 3rd Avenue and 6th Street, Prince Rupert, and request free booklet, "Why Man of Today is Only 50 Per Cent Efficient." The most efficient device for Internal Bathing. The "J. B. L. Cascade" will also be shown and explained to you if you so desire. If you prefer, write for Booklet to Dr. Chas. A. Tyrrell, 163 College Street, Toronto.

BRITISH SOLDIERS ARE CONFIDENT OF VICTORY

London—Reuter's representative has had an interview with Lord Robert Cecil, who has just returned from a visit to the British front. He said he was immediately impressed by the wonderful organization and also by the general atmosphere. From general to private the feeling is that the British army is invincible, and that it can do anything and go anywhere. It is literally true of the British soldier that he is sans peur et sans reproche. This is partly due to the British nature and partly to the spirit of the men. They believe at the bottom of their hearts in the cause for which they are fighting, and they realize that their enemy is "Kaiserism." There is a complete absence of crime, which in itself is unique, and it is a remarkable fact that after three years' sojourn in a foreign country the inhabitants have nothing but good to say of the British. Every soldier profoundly realizes that victory is necessary as the foundation of peace, and before this can be achieved we have got to convince the German military caste that we are the victors. The Germans think that might is right. We have already beaten them, and shall complete our victory, because we know that right is right. In conclusion, Lord Robert said a visit to the British front is a great mental and moral tonic, but it is not less a confirmation of the horrors of war. It makes the difficulties, hardships, and even dangers of those at home assume their proper proportions.
