FOR THE PEOPLE

In a recent issue of the Toronto Saturday Night, which is regarded as being independent and impartial among Canadian newspapers, in its judgments, it discusses the retention of the chairmanship of the Munitions Board by Sir Joseph Flavelle after the publication of the report by the Cost of Living Commissioner upon profits. In Great Britain, where Canada found the model for her parliamentary system and procedure, the Saturday Night does not think that Sir Joseph would have retained his high position for five minutes after that report came out. If Sir Joseph did not possess the grace to resign voluntarily, his resignation would have been demanded.

Here in Canada, where public opinion is equally tender, although not so powerful—yet—Sir Joseph pursues the even tenor of his course. The people of Canada are wondering why. They have demanded that the man who has no qualms in taking for his own personal profit in three years the sum of \$1,384,000 be removed. They have yet to learn whether the Borden Union Government have requested the gentleman to leave. Even if they did so, Sir Joseph has evidently refused. Even the so-called Union Cabinet formed after the dissolution of the last parliament has failed to make any impression upon Sir Joseph. The fact of his not having been fired is evidently because the Union Cabinet headed by Sir Robert Borden can't fire him, Sir Joseph is too strongly entrenched. And all the time, the people of the Dominion have still got to pay tribute to Sir Joseph every time they eat bacon.

At the outbreak of the war, when profits were still moderate, Sir Joseph gave his fellow business men a motto to live up to, which was "To hell with profits." But for Sir Joseph's single self, three years afterwards, during which time profits had increased largely, the chairman of the Munitions Board alleges that he had "no qualms" notwithstanding his

previous utterance, in taking for his own use \$1,384,000.

Prince Rupert people in particular have a special reason for seeing the last of Sir Joseph in the Munitions Board. He is the man who had the power to have orders placed with the drydock plant here for the manufacture of munitions and war material, and for shipbuilding. Sir Joseph evidently wanted to make the "curse" under which Prince Rupert is laboring just a little bit more effective. Rather than give any business to this plant here, to enable the Dominion and the Empire have some return for the \$2,000,000 investment, Sir Joseph preferred to see new machine shops, foundries and shipyards established in other cities on the Pacific coast. From the disposition which Sir Joseph has shown in the past, so long as he is head of the Munitions Board, it is hardly likely that anything will come from him to Prince Rupert.

Money wins the war, and here is money's worth lying to hand, which the Munitions Board and the Borden Government have done nothing to use. To build the drydock now, at present prices would take quite a slice out of the Victory Loan, yet the Government passes it up.

The voters in Northern B.C. will have to see to it that a Government is returned to Ottawa which will do its bit in Prince Rupert to win the war. The Borden Government has consistently declined to do this. Laurier set Prince Rupert agoing and it needs Laurier to keep it agoing. We have had six years' experience of what Borden has done, and that is—nothing!

The voters will remember on election day that Fred Stork stands for the progress of Prince Rupert, for the full re-employment of the Dominion being utilized in the winning of the war—and these resources include the drydock plant.

apply to them. "You may safely present your, unmarried sons to the tribunals," he said. And the Hon. Mr. Grear told the farmers of Ontario that the act did not apply to them. Who did it apply to then?

Yet the Act is law. Sir Wilfrid Laurier accepted it as such and advised his people to obey the law. "The Military Service Act is law," said Mr. Stork, "and it must stand, but for the raising of any further numbers of men, I would vote that wealth and resources be added, and that the whole question be put to the people. The people of Canada will bear all the sacrifices necessary, so long as they are fair and equitable. Laurier's first duty is to provide the men, so that the war will be brought to a successful conclusion. Some people will say that Canada will drop out of the war if Laurier is elected. Six years ago these same people said that Canada would drop out of the Empire. The guarantee of the utmost being done was Sir Wilfrid Laurier's forty years of public life. Since his election in 1896, Canada had years of united prosperity and development as never before in her history. Canada had continued prosperity and unity. Just consider the difference. During the first three years of the Borden regime, they fired 13,500 employees of the Government and appointed 25,500 partisans to take their places. If one Grit can do the work of two Tories, it is time the Grits were back. Since the Borden Government took office prices have steadily risen, and work got scarcer.

Personalities.

"I had hoped to go through this campaign without any personalities," went on Mr. Stork, "but my attention has been drawn to some things appearing in the press, to which I take exception to. When any man impudently unworthy motives and criticises my actions unfairly, I have some comeback. It is now up to me to state that insinuations are not permissible with myself. I do not start this. If the mud flies, it is not my fault. It is the result of the doings of the dirtiest bunch of Tory ringsters ever seen in Canada.

"I have been for twenty-three years in the Canadian Militia, in Brantford, Ont., in Fernie, and in Prince Rupert. As commanding officer of the Earl Grey's Rifles, I kept the company going at no little personal expense, and efficiently. At the last inspection, our efficiency was such that Col. Roy, the inspecting officer, recommended the Earl Grey's being raised to the status of a four-company regiment. I have the official letters asking all details, after which came a letter stating that it had been decided to go no further with the organization owing to lack of funds. BE CLEAN INTERNALLY

Over 500,000 People Are Now Doing So.

For many years physicians have agreed that 95 per cent. of human life was used by accumulated waste in the lower intestine; that in our present way of living nature could not remove all this waste without assistance, no matter how regular we might be; and that the poisons from this waste circulated through the blood pulled us away down below par and were responsible for many diseases of a serious nature.

During this time the "J. B. L. Cascade" for internal bathing has, because of their recommendation and those of their friends, been steadily growing in favor.

Recently, however, the startling news, which has been covering the country that great surgeons and specialists have been operating on the Lower Intestine in such serious diseases as Tuberculosis, and all kinds of chronic conditions of chronic health as Nervous Debility and Rheumatism to this cause, also saying that these poisons are favorable to the development of Cancer and Tuberculosis (as stated in a recent article in The New York Times), has caused people to become thoroughly awake to the importance of keeping the Lower Intestine free from all poisonous waste matter, and over 500,000 are now using Internal Baths.

This enthusiastic and grateful letter is to no means an exceptional one amongst the hundreds on our file:—

703 7th Ave. South, Lethbridge, Alberta, Dr. Tyrrell, Toronto:
Dear Doctor Tyrrell:—After using your "J. B. L. Cascade" for four months I feel it my duty as a thankful patient to express my enthusiasm for the great blessing it has been to me. You cannot feel too cautious as I write this letter in praise of you in your great work. Words simply fail to express my thankfulness for first learning of your Cascade. Previous to using it I could not go a day without a drug of some sort, and since using it I have not, on my word of honor, swallowed five cents' worth of drugs. I spent over \$300.00 in the two years previous to hearing of the "J. B. L." Would that all the young men and women I see in this town with their faces covered with horrid, unsightly pimples would use it. They would soon get rid of them, as I did. I must stop, or I will be keeping you from your work, but I could fill ten more pages of my past condition of health, also in praise of the "J. B. L." May you enjoy this life to the full.

Sincerely yours,

William Devoy.
If you try the "J. B. L. Cascade" you will find yourself always bright, confident and capable—the poisonous waste makes us bilious, blue, dull and nervous for Internal Baths are Nature's own cure for Constipation—just warm water properly applied. Drugs force Nature—the "J. B. L. Cascade" gently assists her.
