"Shall Canada's effort in this war be maintained or withdrawn? Such is the issue."

Sir Robert Borden, at Halifax

United in the Cause ot Liberty

TNION Government in Canada, clearly became necessary for the successful prosecution of the war. In it are united the representative men of the two great political parties.

These men have joined forces to make Canada's effort in the war most effective in the support of our men at the front with additional forces, and to direct and control the industrial and economic life of Canada to the one end of winning the war.

If this policy represents your judgment of Canada's duty, you should

Support Union Government

Four hundred thousand of Canada's manhood have gone into Khaki. THEY are united in the cause of liberty. Today the insistent, the imperative call is for an additional hundred thousand re-inforcements. The policy of Union Government is to raise this force quickly and impartially under the provisions of the Military Service Act.

The Election Issue is Clear

If you are in favor of supporting the men at the Front you will vote for the Unionist Candidates. If you prefer that our soldiers should NOT receive the reinforcements they so urgently need, the Referendum proposed by Sir Wilfrid Laurier and his adherents is the instrument through which you can sacrifice the men already at the front, who have set aside their business ambitions and have given up their home life and loved ones in the defence of YOUR liberty, and indeed, the liberty of the world.

There can be only one course for every Patriotic Canadian-Support the Unionist Candidates
