IT'S UP TO YOU

The election day is not very far away now, when the voters will exercise their franchise in voting for their representative to be sent to the council of the Dominion. It were well that the voters consider what the result of their voting will mean to the Empire and the Dominion first, to British Columbia and to Prince Rupert. The voters in Northern British Columbia should be vitally interested in this election, because it means so much to them, in particular.

The late Conservative Government, headed by Sir Robert Borden has embodied within itself six Liberals, and by the virtue of these six stalwarts, has changed its name from Conservative to Union. The late Conservative party has changed its name to the Union party, but it remains a party still. The people of Canada are not at all unanimous in their desire for a Conservative Union Government. This is plainly shown by the fact of 227 straight opposition candidates opposing the Union nominees.

The one issue which is put forward by the Union government—they practically deny all others—is conscription of man power. The premier himself and other candidates have repeatedly stated that this is the only issue before the electors. It is the only issue put forward by the Borden Union Government. To this end they passed a bill months ago and secured the support of many Liberals on the plea that reinforcements were very urgently required. But not one man is yet in uniform or in training, although the necessity and urgency was said to be so great and pressing.

On the other hand, Sir Wilfrid Laurier maintains that he can make the voluntary system a decided success and obtain sufficient reinforcements without the necessity of compulsion. His forty years' record in public life, his wide knowledge, and his position in Canada are such as to clothe his words with authority. The policy he has submitted to the

people is one that commands respect. It is democratic. It concerns the welfare of the masses of the people. He would reform the tariff, which unnecessarily raises the price of commodities for the masses for the benefit of the few. He would control food supplies and prices, against which every housewife in Canada has a grievance. He would cut out profiteering and would place all manufacturing of war supplies under control, as has been done in Great Britain. He will form a real national government of the ablest men in the country representing all classes to form a cabinet whose first object will be to find the men, money and resources necessary to ensure the fullest measure of support to the men at the front and to enable Canada to continue to the very end in the war.

He says the measures now in force for the maintenance, care and comfort of the soldiers dependents and families are not adequate or equitable. The soldier is the first consideration and his dependents are the next most deserving of the State's solicitude and care, which should not be left to public charity. Laurier is the man who can preserve the unity of Canada, which is threatened with disruption by the present arbitrary administration. He is the man who had the vision of Prince Rupert being the Pacific terminus of a great national transcontinental railroad, with its fleet trading with the East. He is the man who believes in the democratic principle of obeying the will of the people, and in the giving of the fullest expression to that will. In fact, his policy is the antithesis of that of the Borden Government's.

It is to the interest of the Empire that Canada remain united and that racial strife within her borders be eliminated. It is in the interests of the Dominion that her sons remain free and that democratic institutions be maintained. It is in the interests of British Columbia and Prince Rupert that the country served by the N. T. R. be developed and that Prince Rupert become the en-

trepreneur of trade that Sir Wilfrid designed.

The voters have to consider but for a very little to decide whether Borden or Laurier has been and is the better man to guide and control the destinies of Canada, and to get the most out of the Dominion for the winning of the war.

CAPTAIN NORVICK ON THE FISHERY QUESTION

(Continued From Page One.)

Seattle, that any American fish landed at this port must be shipped by rail to the United States. On the face of this it was a most unreasonable contention for any government to put up. Wherein the difference lies between shipping fish by rail or boat is beyond understanding. I believe that I am right in stating that there has never yet been an order in council passed permitting these fish to be shipped by boat to Seattle, but that these fish are permitted to go this way, is acknowledged by the department.

Is Mr. Morrow prepared to say that the concession granted to the New England Fish Company, and which was open to any other company, was not beneficial to Vancouver in particular, and Canada at large?

As to his statement that the New England Fish Company were the only people who could buy halibut, I must again accuse him of side-stepping the truth. Any one could buy halibut, but up to 1909 very few halibut were caught other than those landed by the boats of the New England Fish Company, and the Canadian Fish Company. This latter company supplied the Canadian market, and sold the greater part of their surplus to the New England Fish Company. Mr. Morrow stated that the fishermen got two cents per pound. They did not sell by the pound, but by the fish, which were twenty-five cents each. I might say that in those days it only took two or three days to catch a load, and a fisherman during the season would share anywhere from \$2,000 to \$3,000. Of course the comparing of the price for halibut in those days as compared with that obtainable today is ridiculous in the extreme and an insult to the intelligence of the fishermen.

Regarding boat ratings in District Number 2. It is true that

these were put into effect under the Laurier Government, in conjunction with the Bowser-McBride Government. At the time this went into effect, there were very few fishermen in District Number 2, other than Indians, and not a sufficient number of them to catch the fish and man the canneries. It was therefore necessary for the canneries to bring in a large number of their fishermen from the southern part of the province. They claimed that it was not fair to them to hunt up fishermen, provide them with boats, gear, transportation, etc., and then have them free to fish for their competitors when the season opened. This argument was put up strongly to the authorities at Ottawa, and as no protest was made against it, it was granted.

Now I would like to ask why Mr. Morrow, as Indian Agent, and being specially charged with the protection of the Indians, for which he was paid a salary, did not enter a protest to the Indian Department against the Indians being made vassals of the canneries. Again, as a citizen, and a supporter of Sir Wilfrid Laurier, and one of the "first" white men in this district it would have seemed only natural that Mr. Morrow would have advised Sir Wilfrid Laurier of the pernicious legislation he was being asked to enact by the canneries. As Mr. Morrow made no protest, it can only be taken for granted that it had his support. The Hon. Mr. Sloan was then representing this district and naturally as no protest came from these men, Sir Wilfrid Laurier should not be held responsible. The responsibility rests entirely with Mr. Morrow and the Liberals who then resided in northern British Columbia. I ask you, fellow fishermen, to ask yourselves who these Liberals were, and act accordingly. But

BE CLEAN INTERNALLY

Over 500,000 People Are Now Doing So.

For many years physicians have agreed that 95 per cent. of human ill was caused by accumulated waste in the lower intestine; that in our present way of living Nature could not remove all this waste without assistance, no matter how regular we might be; and that the poisons from this waste circulated through the blood pulled us away down below par and were responsible for many diseases of a serious nature.

During this time the "J. B. L. Cascade" for Internal Bathing has, because of its recommendation and those of its users, been steadily growing in favor.

Recently, however, the startling news, which has been covering the country that great surgeons and specialists have been operating on the lower intestine in such serious diseases as Tuberculosis, and attribute such conditions of chronic ill-health as Nervous Debility and Rheumatism to this cause, also saying that these poisons are favorable to the development of Cancer and Tuberculosis (as stated in a recent article in The New York Times), has caused people to become thoroughly awake to the importance of keeping the lower intestine free from all poisonous waste matter, and over 500,000 are now using Internal Baths.

This enthusiastic and grateful letter is by no means an exceptional one amongst the hundreds on our file:

"703 7th Ave. South, Lethbridge, Alberta. Dr. Tyrrell, Toronto:

"Dear Doctor Tyrrell:—After using your 'J. B. L. Cascade' for four months, I feel it my duty as a thankful patient to express my enthusiasm for the great benefit it has been to me. You cannot tell my emotions as I write this letter in proof of you in your great work. Words simply fail to express my thankfulness for first learning of your Cascade. Before using it I could not get a day without a drug of some sort, and since using it I have not, on my word of honor, swallowed five cents' worth of drugs. I spent over \$300.00 in the two years previous to hearing of the 'J. B. L.' Would that all the young men and women I see in this town with their faces covered with horrid, unsightly pimples would use it. They would soon get rid of them, as I did. I must stop, or I will be keeping you from your work, but I could fill ten more pages of my past condition of health, also in praise of the 'J. B. L.' May you enjoy this life to the full.

Sincerely yours, William Devey.

If you try the 'J. B. L. Cascade' you will find yourself always bright, content and capable—the poisonous waste makes us bilious, blue, dull and nervous. Internal Baths are Nature's own cure for Constipation—just warm water properly applied. Drugs force Nature—the 'J. B. L. Cascade' gently assists her.
