GUERRILLA WARFARE BY TURKS IN JUDEA

With the British in Palestine, via London.—There has been stubborn fighting during the last forty-eight hours in the Judea hills, where small bodies of Turks are attempting to delay our advance rather than attempting to hold any specified line. The narrow rocky defiles and gorges in these parts facilitate defensive tactics on more or less guerilla lines, but they are not proving very effective against our determined progress, which continues satisfactorily. The inhospitable character of the region and our lengthening lines of communication naturally throw a great strain on the transport. A heavy storm yesterday did not help matters, but the organization is so efficient and such energy and goodwill are exhibited on all hands that the troops have not had to suffer from any shortage. Fortunately the rain seldom lasts more than a day or two and today's bright sunshine and wind have restored normal conditions.

Natives are everywhere taking advantage of the first rains to begin ploughing and indeed an astonishing change has come over the face of the country. In the sandy region south of Gaza, abundant verdure seems to spring up almost in the course of a night. As though at the summons of an enchanter's wand, the whole aspect of the country is altered. Everywhere is green where formerly was monotonous, tiresome yellow sand. The going also has greatly improved, although rather late for us to benefit by it.

We have now advanced so far in Palestine that we are now well beyond the sandy limits, except in the vicinity of the coast, the soil around Ramleh and to the south almost to Beersheba being a claylike loam, very sticky during rain, but ordinarily firm under foot. The nights have turned bitterly cold, which in the circumstances is likely to tell more on the enemy than on our well-clad lads, who are also more accustomed to climatic vicissitudes than are the Turks.

BE CLEAN INTERNALLY

Over 500,000 People Are Now Doing So.

For many years physicians have agreed that 95 per cent. of human ills was caused by accumulated waste in the Lower Intestine; that in our present way of living nature could not remove all this waste without assistance, no matter how regular we might be; and that the poisons from this waste circulated through the blood pulled us away down below par and were responsible for many diseases of a serious nature.

During this time the "J. B. L. Cascade" for Internal Bathing has, because of their recommendation and those of its users, been steadily growing in favor.

Recently, however, the startling news, which has been covering the country that great surgeons and specialists have been operating on the Lower Intestine in such serious diseases as Tuberculosis, and attribute such conditions of chronic ill-health as Nervous Debility and Rheumatism to this cause, also saying that these poisons are favorable to the development of Cancer and Tuberculosis (as stated in a recent article in The New York Times), has caused people to become thoroughly awake to the importance of keeping this Lower Intestine free from all poisonous waste matter, and over 500,000 are now using Internal Baths.

This enthusiastic and grateful letter is by no means an exceptional one amongst the hundreds on our file:—

793 7th Ave. South, Lethbridge, Alberta.

Dr. Tyrrell, Toronto:

Dear Doctor Tyrrell.—After using your "J. B. L. Cascade" for four months, I feel it my duty as a thankful patient to express my enthusiasm for the great blessing it has been to me. You cannot feel my emotions as I write this letter in praise of you in your great work. Words simply fail to express my thankfulness for first learning of your Cascade. Previous to using it I could not go a day without a drug of some sort, and since using it I have not, on my word of honor, swallowed five cents' worth of drugs. I spent over \$300.00 in the two years previous to hearing of the "J. B. L." Would that all the young men and women I see in this town with their faces covered with horrid, unsightly pimples would use it. They would soon get rid of them, as I did. I must stop, or I will be keeping you from your work, but I could fill ten more pages of my past condition of health, also in praise of the "J. B. L." May you enjoy this life to the full.

Sincerely yours,
William Devoy.

If you try the "J. B. L. Cascade" you will find yourself always bright, confident and capable—the poisonous waste makes us bilious, blue, dull and nervous. Internal Baths are Nature's own cure for Constipation—just warm water properly applied. Drugs force Nature—the "J. B. L. Cascade" gently assists her.

Call and see it at Cyril H. Orme's Drug Store, Cor. 3rd Avenue and 6th St., Prince Rupert.

Ask for "Why Man of Today Is Only 50 Per Cent. Efficient," a booklet of great interest, which is given on request. If you prefer, write at once to Chas. A. Tyrrell, M.D., 163 College Street, Toronto, for this book.

Serve Save Produce

EVERY ONE CAN do something for his country

- Some can bear arms
- Some can produce food
- Some can make munitions
- Some can give money

It is the privilege of all to help.

YOU CAN SERVE by Fighting—Working—Saving—Giving

This is NATIONAL SERVICE

Are YOU doing your part?

ALL EYES turn now to the Canadian Farmer, for he can render the Empire SPECIAL SERVICE in this sternest year of the war.

But—our farms are badly undermanned—25,000 men are needed on the land.

With insufficient help, the Man on the Land fights an uphill fight to meet the pressing need for Food.

CITY and TOWN can help.

Municipal Councils, Churches and Schools, and other organizations, both of men and women, can render National Service by directing all available labour to the Land.

Farmers themselves can exchange labour. School boys can assist.

Were you raised on a farm? Can you drive a team? Can you handle fork or hoe? If you can't fight, you can produce. Spend the Summer working on the Farm.

Let every man, woman and child in the Dominion who has access to Land, no matter how small the plot, make it produce Food in 1917.
