CHRISTMAS GREETINGS

Once again the Festive Season is upon us and we wish to our readers "A Merry Christmas." Notwithstanding the trouble, sorrow and desolation which has afflicted so many up to this fourth war Christmas, the old greeting will be received and bestowed heartily, and with every desire for peace and good will. Old Santa Claus appears to have lost none of his rubicund joviality, and on his rounds on Christmas Eve, will bring joy and gladness to the little ones as he ever did. Christmas of all times is the children's time—the day of family reunion. The wonderful Christmas tale is all the more significant at this time, and the hope for the realization of its promise is again renewed. "Peace on Earth and Goodwill toward men" has been the great hope for nineteen hundred and seventeen years. The time is not yet, but "hope springs eternal in the human breast."

THE HOLY LAND

The good news from Palestine has brought home to men's minds the continuity of human history as no other episode in the war has done. The old wars in France and Flanders are familiar enough, but there were many of them, and their details could not be expected to live in the general memory. But messages from the Holy Land require no prompting of the memory, and no consulting of books; their appeal is immediate and universal. Gaza, Ascalon, Jerusalem, Joppa, Damascus, of which we have been reading in General Allenby's brief records of great deeds, are names familiar to everyone. Long tracts of time at once disappear. "Whatever withdraws us from the power of our senses," wrote the famous Dr. Johnson, "whatever makes the past, the distant or the future predominate over the present, advances us in the dignity of thinking beings." Even at this moment, when the success of our arms is more welcome to us than ever before, we cannot think of these victories only as valuable and hard-won tri-

umphs over the evil alliance of the Central Powers. There is a magic in the names which makes our battle of today part of a longer and a greater battle between right and wrong.

The history of the Holy Land during the time when it is familiar to us is the history of struggles between good and evil, between the ideals which taught the value of human life, and ideals which rested upon cruelty and brute force. Our fight today is the same. The ancient champions of the right are with our righteous cause. We fight for law in that promised land, on which the great law-giver looked down from the mountain top, knowing that he himself was not to enter in. We are fighting against tyranny in the country where David won his people's freedom. Our struggle is a protest against false ideals of human conduct and it is being waged in places where the mighty prophets from generation to generation launched forth their stern denunciation of unrighteousness. The forces of evil were the same then as now, though different in form; their strength was not less; their determination equally persistent.

It is no small thing to regain the Holy Land, that the nations who love peace may enter in, to banish from it the rulers who for so many centuries have stained its soil with blood and whose harsh and corrupt government has taken from it the old praise of the land flowing with milk and honey.

When the long day's task is again done, Jerusalem will once more have peace and felicity, and we may hope for the blessing of prosperity upon those who love the peace of Jerusalem.

NOTES AND COMMENTS

God rest ye, Merry Gentlemen!

Chimneys are wide, but stove pipes are mostly eight inch. How does Santa Claus get down? That is one of the mysteries which are causing the wrinkling of many little brows these days.

The Brawn and Brain of a boy are not made out of books or sermons. They are built out of foods that supply in well-balanced proportion and in digestible form every needed element. These elements are found in **Shredded Wheat Biscuit**, a real whole wheat food which contains all the material for building the human body. A perfect food for growing youngsters. Its crispness encourages thorough chewing, which develops sound teeth and healthy gums. Children like it and thrive on it. It is ready-cooked and ready-to-eat. For breakfast or any meal with milk or cream. **Made in Canada.**

Great Britain is going to institute meatless days once a week. From all accounts received here, that has been the case there with a very large proportion of the population for some considerable time past. Both voluntarily and necessarily, because of scarcity and high prices.

It was stated publicly on the election night that only the Progressives and the "lower element" had not voted for the Union government. So you know what you are, if you remember how you voted. The lower element, therefore, must predominate in Prince Rupert. "The lower element," by a Highbrow, would be a good subject for a sermon.

"The Merry Money-makers. Despite the appointment of innumerable comic control committees, the price of necessities and commodities of life continue to rise to giddy heights. Only caviar remains normal. There is no justification for this abnormal increase. It is simply iniquitous profiteering all round, and is a damnable indictment of the old men, who clamor for the young to fight first, while they sit snugly at home, juggling with markets and making every penny they can out of the bloody sacrifice." This is contained in an advertisement carried by one of the big London dailies, by a firm who has not yet raised their prices. So you see the profiteer is not confined to Canada. A change in the whole system is necessary.

Useful presents. Leather goods, brass fern pots, jardinières, china, hearth rugs, etc., at Tite's discount prices for Xmas. 301.

Salvation Army.

Public meetings, Tuesdays, Thursdays and Saturdays at 8 p.m. Sundays at 7:30 p.m.

NOTICE IS HEREBY GIVEN that application will be made to the Legislative Assembly of British Columbia at its next session for an act to incorporate an association known as "The Engineering and Technical Institute of British Columbia," with power to promote and increase the knowledge, skill and proficiency of its surveying and technical professions, and to that end to establish and conduct examinations and prescribe such tests of competency and moral character as may be thought expedient and to grant certificates of membership to those approved of, and to purchase or otherwise acquire and hold real and personal property for the purpose of the institute, and to dispose thereof and reinvest the proceeds in such manner as may seem fit and to fix entrance fees and annual fees or subscriptions to be paid by the members, and to vary the same from time to time, and to provide for the management of its affairs by council to be constituted in such manner as may be provided for by law, and to have its head office and hold its annual meetings in British Columbia, and to have, enjoy, and exercise all powers, rights and privileges necessary, usual or incidental to all or any of the aforesaid purposes.
BRADSHAW & STACPOOLE,
Solicitors for the Applicant.
DATED at Victoria, B. C., this 18th day of December 1917.
