

HEALTHIEST ONE IN THE FAMILY

No Sign Of Dropsy And Kidney Trouble
Since Taking "FRUIT-A-LIVES"

HATTIE WARREN

Port Robinson, Ont., July 8th, 1915.
"We have used 'Fruit-a-lives' in our house for over three years and have always found them a good medicine. Our little girl, Hattie, was troubled with Kidney Disease. The Doctor said she was threatened with Dropsy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try 'Fruit-a-lives'. She began to show improvement after we had given her a few tablets. In a short time, the swelling had all gone down and her flesh began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. We can not say too much for 'Fruit-a-lives' and would never be without them."

BATTLE STORIES FROM THE WESTERN FRONT

One of the first arrivals in this country from the Cambrai battle was a lad from Yorkshire. He had been wounded by a machine gun bullet after advancing three miles into the enemy country, but he was full of merriment over the exploits of his regiment and not a little proud of what he and his comrades had done. His chief regret seemed to be that he was knocked out before the rush was stopped.

Battle Morning.

"You know what it's like just before an attack. You can't help being sort of jumpy, though you'd be sorry to admit you've got the wind up, for it isn't that. We went up to the place we were to start the advance from, early the night before—not long after it was dark, and we lay in the little trench until light was breaking in the morning. You know the kind of rumours that go about the trenches before a push. Well, the air was thick with them. Some of us had been in the Somme and other pushes and the great idea was that the barages there were nothing to the one we were to see next morning. The German line was going to be a complete wash-out, some said, and we were just going to pick up the bits that were left. Then some said we weren't going to have any preliminary bombardment at all—we were just going to follow the tanks."

"We lay and waited and though our officers just told us we were to get up and follow the tanks, somehow we couldn't help expecting the bombardment every minute. But the light began to come up, you could see the chap next you getting more and more distinct, grey-like, you know, first of all; then you could spot his face and see the stubble on his chin. Still no bombardment—just a gun or two banging off somewhere away down the line. It made the morning seem all the quieter, a fine morning it was though it looked uncommon like rain. There we were, waiting for the preliminary bombardment. It didn't come."

The Attack.

"It must have been after six—I can't be sure because I had just my wrist watch—when one of our

CLEANSE THE LARGE INTESTINE

Present War Cry of Advanced Physicians.

Some of the leading surgeons of the world have gone so far recently as to remove part of the Large Intestine in cases so serious as that of Tuberculosis and restored the patient to perfect health by so doing.

The New York American has recently said:

"During Constipation the poisons in the Large Intestine often become so great as to form a serious menace to health and even to life. Through the walls of the intestine they enter the blood and consume the healthy blood cells, impoverishing the blood, and if this process is continued long enough an acute poisoning is produced."

It is impossible under our present-day mode of living for the intestine to rid itself of all waste, and it is easily proven that there is an accumulation, no matter how regular we are.

Drugs, if taken regularly, form a habit, but internal bathing by means of the "J. B. L. Cascade" cleanses the Lower Intestine its entire length with pure warm water and makes it clean, sweet and healthy.

At the same time it regulates the system and makes one feel that every function is working smoothly and naturally—and, indeed, this is so.

This letter will convey a message of good cheer to many:

Welland, Ontario.
Dr. Chas. A. Tyrrell,
163 College Street, Toronto, Ont.:

Dear Sir,—We heartily endorse the J. B. L. Cascade, as we find in our work that a loaded colon means a poisoned system, which, in turn, means ligamentous contraction of the spinal muscles, against which our work is directed.

Anything helping us in gaining relaxation we consider a boon, both to ourselves and our patients.

Most sincerely,
Drs. Hoxley and Garland.

Over five hundred thousand are now enthusiastic users of the "J. B. L. Cascade," which is now being shown and explained at Cyril H. Orme's Drug Store, cor. 3rd Avenue and 6th St., Prince Rupert.

Keep up the Food Supply and Help Make Victory Sure

OUR soldiers must be fed; the people at home must be fed. And—in spite of Germany's murderous campaign to cut off the Allies' Food supply, by sinking every ship on the High Seas—an ample and unfailing flow of food to England and France must be maintained.

This is National Service—
Not to the Farmer only—
But to YOU—to everybody—
This appeal is directed

WE must unite as a Nation to SERVE—to SAVE and to PRODUCE. Men, women and children; the young, the middle aged and the old—all can help in the Nation's Army of Production.

EVERY pound of FOOD raised, helps reduce the cost of living and adds to the Food Supply for Overseas.

PLANT a garden—small or large. Utilize your own back yard. Cultivate the vacant lots. Make them all yield food

WOMEN of towns can find no better or more important outlet for their energies than in cultivating a vegetable garden.

Be patriotic in act as well as in thought.

Overlook nothing.
