WAR AIMS

There is little chance left for any ambiguity remaining in the minds of the Kaiser and his government as to what are the real aims of the Allies in the continuance of warfare. The Kaiser has been informed in no uncertain terms, not once, but many times what the terms are upon which the allies will consider peace. The latest speeches both by Premier Lloyd George and of President Wilson have removed the last vestige of uncertainty which may have lingered in their minds, and the ever-growing army lined up against the Hun hordes from the English Channel to the Adriatic Sea goes to back up the speeches of the allied statesmen.

The sanctity of treaties, and respect for the rights of small nations is insisted upon, and territorial settlements only "with the consent of the governed." These terms, together with the limitation of armaments, are the minimum which have been put forward by the allies. They are unanimous on these. While there are many other things to be considered at a peace conference, still these are the fundamentals, without which any others would be useless.

The materialistic Teuton mind may find, and possibly will find it disagreeable to be set right by the allies in this fashion. To have to treat with Belgium and Roumania upon an equality after the evil treatment which they themselves have meted out to these smaller and peaceably inclined nations will hurt some, and to have their weapons of war taken from them will hurt the Huns still more, even more so than the economic ruin which they will find staring them in the face at the same time.

It will be the severest blow to the pride of the All Highest when he finds that the people of Alsace and Lorraine, of Poland and of Slesvig and Holsten prefer another government than that of the Imperial German Empire; when Luxem-

bourg, too, declines to remain in the family compact which was the first string binding the small states together, into the empire.

Yes the Kaiser must swallow his pride, and his fire-eating chancellors and ex-chancellors and Hindenburgs and Ludendorffs, and all the rest of his fine soldiers will find to a great extent their occupation gone.

ASKS DOMINION TO PAY COSTS OF HALIFAX

Halifax, Jan. 9.—The Halifax Commercial Club has adopted a resolution expressing the view that the Dominion Government should make full reparation to Halifax for the loss suffered in the recent explosion and fire. The resolution sets forth that the dreadful occurrence was one for which the people of Halifax were in no wise responsible and that, therefore, its cost should be assumed by the country as a whole.

Last night the following resolution, seconded by the heads of thirty-six religious, educational, patriotic and philanthropic societies, was telegraphed to Sir Robert Borden:

"Resolution passed by Commercial Club, of Halifax, wherein it asks for full and complete reparation for damage done to property and persons, is endorsed by us and quick action is asked for, as people here are entirely in the dark as to future. Citizens are anxiously inquiring what they are to expect and prompt announcement of Government's intention to make full reparation asked for is due those so grievously afflicted."

BRING YOUR OWN SUGAR

Snuff boxes are said to be coming back into fashion in England, but with the difference that they now contain sugar instead of snuff. The sugar rationing is expected to make it necessary for visitors to carry around their own sugar and the old tightly fitting snuff boxes, of silver, enamel and inlaid wood are being brought to light for this purpose. There is said to be also a demand for futurist boxes with weird effects painted on them.

The First Line of Defense—Your first line of defense in any undertaking is a sound, well-nourished body. Real preparedness for the day's work calls for a well-balanced ration. The whole wheat is the most perfectly balanced ration given to man. Shredded Wheat Biscuit is 100 per cent. whole wheat, nothing added to it, nothing wasted or thrown away. Two or three of these crisp little loaves of baked whole wheat, eaten with milk and a little fruit, make a complete, nourishing satisfying breakfast, lunch or dinner at a cost of only a few cents. Made in Canada.

"HIS FATHER'S SON"

The play to be screened at the Westholme Theatre tonight is one of the Metro Wonderplays combining powerful dramatic action and the most delightful comedy elements. It is a story of a rich father becoming disgusted with an apparently worthless son. He bets the son \$6,000 that he cannot hold down a \$60 job for a whole month, and in order to make the bet somewhat attractive, at the same time he cuts off the young man's allowance.

The young fellow starts off with his valet in an automobile in search of the \$60 job. They take quarters at a cheap boarding house and begin to read the want ads. Dramatic incidents come into the picture when he is set to watch a valuable large emerald known as "The Lady from the Sea." How he outwits the international crook who is out after the stone and how he disposes of him finally and wins the \$6,000 are things well worth seeing.
