BIG BUSINESS

Among the first of the results of the return to power of the Union Government is the increase in the railway freight rates. According to all accounts, there exists extreme dissatisfaction among the Western provinces over this deal, and most of the dissatisfaction is being expressed in the prairie provinces. These are the provinces which did so much to elect the Union Government, and already they are not pleased with its doings. They know that any government headed by Sir Robert Borden, and having in its personnel men like Sir George Foster and particularly with a man like Tom White as minister of finance, would be purely and simply a government representing Big Business. Any government with these men at the head of it means a government of Big Business for Big Business. Government of the people for the people is something they refuse to admit they know anything about. In the school these men were raised in such doctrines were not taught. And in the circles they move in back in Ottawa and Toronto, to have democratic ideas is not considered good form.

If one thing more than another proved the necessity for the increase in the freight rates—or the reverse—it would be the dividends paid by the C. P. R. It can hardly be said that that company which will benefit to the extent of about twenty millions of dollars annually, requires this amount to pay a dividend. Their stock pays so well that it can only be purchased at a great premium. It is simply the mulcting of the common people of further sums of money—for their own good, of course.

Some time ago the people were informed that the government through the food controller had made some arrangement with the packing houses in the direction of government control, whereby they would not be making quite as much profit. But so far, no details of this arrangement have been given out. It would be inter-

esting to know whether Sir Joseph Flavelle is still administering the post cure to his bacon, and charging two bits a pound for salt water.

Even in the matter of the prohibition of transportation of intoxicating liquor from one province to another, there are two aspects to this also. This does not take place until April first, but the importation of such liquor into the Dominion is prohibited from December 24, thus giving a monopoly to the Canadian distillers. There is lots of time during these three months for Sir Robert Borden to change his mind regarding the transportation. He can change his mind easily. He has done it before. Meantime, Canadian distillers have absolute protection from foreign competition. The distillers have the more reason to feel gratitude to Borden than the Blue Ribbon men.

So far it would seem that Canada is just as much as ever in the power of the interests, and the rights of a democracy, which the allies are fighting for in Europe, in the form of a really democratic government, are just as far away as ever.

This may further be shown by the usurpation by the finance minister, that same Tom White, of the powers of Imperial Parliament. Sir Thomas has decreed that no province, municipality, nor school board may issue bonds, or other securities without his permission. He needs the money. Should anyone else need some money, too, he will have to give the proposition the once over first. And this notwithstanding that the several provinces of Canada have sovereign rights and responsibilities conferred upon them by the constitution of the Dominion, that is the British North America Act. But that doesn't trouble the Borden Government. Respect for the rights of others never has been the strong point of any administration he was connected with.

ALDERMAN MONTGOMERY
MAYORALTY CANDIDATE
—TO THE CITY ELECTORS

To the Electors of Prince Rupert, Ladies and Gentlemen—Having entered the contest for the Mayoralty of your city for 1918, it is my duty to place a platform in front of you for your consideration. I submit the following:—

1. Open up the question of our agreement with the G. T. P. Railway Company with a view of getting an understanding with the newly appointed officials of that company, as to their attitude towards the Prince Rupert agreement. This matter to be pursued with the best intentions as regards the interests of the railway company and Prince Rupert which I consider are one.

2. I am opposed to purchasing the power rights of the Prince Rupert Hydro-Electric Co., situated on Falls River. I consider this is too expensive an undertaking for the city to enter into at present; also too expensive to buy and hold for an indefinite period. If the proposals made by the present council are accepted by that company, I will consider it my duty to have a by-law drafted, and submitted to the people for their consideration.

3. Cow Bay. My policy has always been against the closing up of Cow Bay, because it is the only outlet the city possesses to the waterfront. It is the only place for repairing small boats on the townsite, as Seal Cove will be interfered with in the near future.

4. Adopt a policy whereby lands (Continued on page three.)
