## POWER

There have been many opinions among the municipal candidates during the past few days regarding the power situation in connection with this city. The majority of these opinions have been regarding what the givers would not do. But what they intend to do is another story. The fact remains that Prince Rupert would be up against it for power to supply should one or two new industrial companies settle here in the immediate future. Eight months ago, it was thought that there was all kinds of power running to waste from Shawatians Lake, but later it was found that there was not quite just so much there as had been expected.

Alderman Casey seems to be the only one of the candidates who can foresee the necessity of getting down to business regarding the power situation at once. If another consumer of power came to town this week and wanted the same amount of power as the Emerson mill—and that is not such a tremendously big institution that we need not expect a bigger—it is questionable if the city could supply the quantity demanded.

Thus the necessity exists for getting a hold of more power and at once. It is all very well to have power at Wark Channel or at Falls river, but if that power is allowed to remain there, it won't do Prince Rupert any good. Prince Rupert wants industries, but it is no good waiting for them to come along. With the present utility working nearly at its maximum, it can hardly be said that Prince Rupert is even in the position to take care of any new industries which would require power, if they came along tomorrow. So before this city can reasonably go out and get after prospective industries for location here, we must have the wherewithal to supply their needs in the matter of power. The suggestion made by Ald. Casey that we ought to find out just what we have got at Wark Channel is most timely. The

power is there, but what the extent of it is no one knows in detail. It has been secured for the city, and an estimate of its capacity and of the cost of the transmission of that power to this city would seem to be within the range of practical politics at this time.

But at the same time, sight should not be lost of the Falls river proposition. Steps should be taken to have the government give the city the refusal of this power, when the present lease of the Prince Rupert Hydro-Electric Company expires. With the growth of Prince Rupert, both Wark Channel and Falls river powers will doubtless be required to meet the demand for electrical energy. It were well to remember that in the near future there will be a great increase in the domestic consumption of power, both for cooking and heating, as well as lighting.

Foresight and vision are prime necessities in dealing with the question, and proper provision for the future years must be made. The city has started off well in the ownership of its utilities, and having taken up the responsibility, the city will have to carry the principle out to its logical conclusion.

It will be the duty of the new mayor and council to see that the fullest preparations are made for the future development of the city in this connection. The necessity is immediate, as our present hydro-electric utility is operating to almost its maximum capacity.

## NOTES AND COMMENTS

There will be three still potential, but temporarily disappointed mayors in this city tomorrow night.

Both Saskatchewan and Quebec have protested against the action of the minister of finance in prohibiting the issuing of provincial or municipal securities without his gracious acquiescence. The different provinces of Canada have certain sovereign rights vested in them by the terms of Confederation, which not even a Union gov-

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B. C., or District Forester, Prince Rupert, B. C.

SKENA LAND DISTRICT—DISTRICT OF QUEEN CHARLOTTE ISLANDS

Take notice that the Western Salmon Packing Co., Ltd., of Vancouver, B. C., occupation Salmon Cannery, intends to apply for permission to lease the following described lands:—

Commencing at a post planted at high water mark, Steamer Passage, (on a small bight on the said passage about one mile north of Quinamass Bay) ten (10) chains due west of said bight; thence twenty (20) chains due north, thence twenty (20) chains due east, thence twenty (20) chains south, thence back to point of commencement, and containing forty (40) acres more or less.

THE WESTERN SALMON PACKING COMPANY, LIMITED: C. C. Robertson, Agt. DATED December 31st, 1917.

NOTICE IS HEREBY GIVEN that application will be made to the Legislative Assembly of British Columbia at its next session for an act to incorporate an association known as "The Engineering and Technical Institute of British Columbia," with power to promote and increase the knowledge, skill and proficiency of its members in all things relating to the Architectural, Engineering, Surveying and technical professions, and to that end to establish and conduct examinations and prescribe such tests of competency and moral character as may be thought expedient and to grant certificates of membership to those approved of, and to purchase or otherwise acquire and hold real and personal property for the purpose of the institute, and to dispose thereof and reinvest the proceeds in such manner as may seem fit and to fix entrance fees and annual fees or subscriptions to be paid by the members, and to vary the same from time to time, and to provide for the management of its affairs by council to be constituted in such manner as may be provided for by law, and to have its head office and hold its annual meetings within British Columbia, and to have, enjoy, and exercise all powers, rights and privileges necessary, usual or incidental to all or any of the aforesaid purposes.

BRADSHAW & STACPOOLE, Solicitors for the Applicant. DATED at Victoria, B. C., this 18th day of December 1917.

ernment can overrule, even if it is war time. The protest from these two provinces is not meant to hamper the Dominion government in any way, but merely to preserve these rights intact. If this precedent is allowed to pass unchallenged, there is no saying where the thing might end.

Still another break off from Russia is reported. General Kaledines, Hetman of the Cossacks, is president and prime minister of the new republic of Don, Russia is not so large as Canada, and they evidently find there that democracy flourishes best in smaller communities.

It has been recommended to the city council of Montreal that all bachelors over 21 be subjected to a special tax. The city of Montreal is hard up. A graduated tax increasing each year might make many more homes throughout Canada, if the Dominion considered this as a source of revenue.

## THE PATRIOTIC FUND

(Prince Rupert Branch)  
Subscribers to the above fund, who have not yet completed their 1917 subscriptions are earnestly requested to forward without delay to the treasurer, Mr. R. Seymour Wright, P. O. Box 1632, any balance still outstanding, as the books are now being closed before the annual audit. tf.

Furniture wanted. Any quantity. Good prices paid for complete household furnishings and all kinds of tools, men's suits, coats, etc. Phone Red 243 or call n F. M. Crosby, 715 Third Ave.

## COAL NOTICES
