LEGISLATION

Over and over again, we have been told by those in authority of the need for food for the allies, and they have been impressing us here to "eat less" in order to have the more to despatch overseas.

At the same time, the farmers are being hampered by the lack of proper help, as the best of it is being conscripted. The farmer is also hampered in the purchase of the proper machinery, or rather, with its high price.

The western provinces have gone on record for the abolition of this iniquitous tax upon their industry, and if the most is to be made of their willingness, this handicap upon production will have to be removed.

The lengthening of the days was quite perceptible yesterday. Spring is coming.

Canada has become a little bigger by the discovery of several large islands in the arctic Ocean north of the Yukon.

Further particulars of the Chief Forester, Victoria, B. C., or District Forester, Prince Rupert, B. C.

Sealed tenders will be received by the Minister of Lands not later than noon on the 25th day of January, 1918, for the purchase of Licence X 1036, to cut 806,000 feet of Cedar, Spruce, Hemlock and Balsam on an area situated on Baker's Inlet, Range 4, Coast District.

Further particulars of the Chief Forester, Victoria, B. C., or District Forester, Prince Rupert, B. C.

Sealed tenders will be received by the Minister of Lands not later than noon on the 14th day of February, 1918, for the purchase of Licence X 1235, to cut 1,256,000 feet of Spruce and Hemlock on an area adjoining L. 1625, East Shore of Juskatla Inlet, Queen Charlotte Islands District.

Sealed tenders will be received by the Minister of Lands not later than noon on the 25th day of January, 1918, for the purchase of Licence X 925, to cut 3,660,000 feet of Hemlock, Cedar, Balsam and Spruce on an area situated on Long Lake, Fraser Reach, Range 4, Coast District.

the present tariff would be in keeping with the other radical legislation of the present government, even if it does cause its reconstruction.

NOTES AND COMMENTS

The coal famine in the east is causing some concern, and rigid economy is advocated among those who are happy enough to have any at all.

A resolution was passed at a meeting of the Brandon citizens the other day recommending the closing up of all non-essential businesses, and the mobilization of all male labor for the production of food stuffs and war material.

The submarine crews at the Kiel naval base have mutinied. No doubt an example will have been made of every third one by the All-Highest.

Once more there are rumors of the escape of the citizen Nicholas Romanoff and Mrs. Romanoff, and all the little Romanoffs from the prison in Tobolsk.

The lengthening of the days was quite perceptible yesterday. Spring is coming.

Canada has become a little bigger by the discovery of several large islands in the arctic Ocean north of the Yukon.
