**PRESIDENT GOMPERS ON A RADICAL MEASURE**

Washington, Jan. 25.—"The shutting down of all industries for five continuous days is only warranted if based upon immediate emergency, and I have some doubt if five continuous days is the best measure," said Samuel Gompers, president of the A. F. of L. "It certainly seems a very radical measure to meet the problems of transportation."

"I am in receipt of a large number of telegraphic protests from workers in several parts of the country, declaring that the effect of the orders will throw their men out of employment that due to the high cost of living they have been unable to lay anything aside and that their suffering during this period will be very great."

"I am strongly of the opinion that to place the industries of the country upon an eight-hour basis work day, at least during the war and as a war measure, would have been a much wiser and more practical course."

"The working people of America will maintain their loyal stand despite their sufferings and sacrifices, which they may be called upon to bear; and yet I see something must be done to see that they are not made to suffer."

**MESOPOTAMIA HAS NOW COOLED OFF A BIT**

Bagdad, Dec. 14.—(By mail.) An abnormally hot summer has been followed by an abnormally cold winter. Twelve degrees of frost have been registered at Samarra and 6.6 at Bagdad. This means a difference of 100 degrees in maximum and minimum records during the last five months. The lowest temperature recorded in the Bagdad district previously this year is 18.6. While returning from Qara Tepe the water in my basin froze to a solid block. Snow has fallen on the hills. Troops marching north of Bagdad had ice in their water bottles. The winter rains are late. Since the week or two before our entry into Bagdad on March 11 there has not been a shower sufficient to lay the dust. The total rainfall in Bagdad during the last nine months amounts to .09 of an inch. Still, it is healthy weather. The cold has killed the germs of cholera, of which we had a few sporadic cases before the cold weather set in.
