

TWO LONG YEARS HE SUFFERED

"Fruit-a-tives" Made Him Feel
As If Walking On Air

ORILLIA, Ont., Nov. 28th, 1914.
"For over two years, I was troubled with Constipation, Drowsiness, Lack of Appetite and Headaches. One day I saw your sign which read 'Fruit-a-tives make you feel like walking on air.' This appealed to me, so I decided to try a box. In a very short time, I began to feel better, and now I feel fine. I have a good appetite, relish everything I eat, and the Headaches are gone entirely. I recommend this pleasant fruit medicine to all my friends."

NOTES FROM THE COUNCIL CHAMBER

(Continued From Page One.)

given permission to sell to Mr. H. S. Wallace a special-sized piece of lumber, when the matter of replanking that sidewalk between Sixth and Seventh Avenues, from Fulton to Taylor streets came up again. The board of works reported that this could only be done as a local improvement, and upon the receipt of a properly signed petition from the property owners being received, the matter would receive further consideration.

The Drydock Road.

A recommendation from the board of works was dealt with, which recommended that the city teams give assistance in the construction of this road by hauling cinders when they were not engaged in other city work, for a period not exceeding one week. Then came the report of the market clerk. His commission for the month of December was given as \$173, on a total turnover of \$2,318.55. This report afforded an opportunity for the discussion of cheaper fish. Mayor McClymont spoke of the quantity of fish which was culled from the catches landed here, as unfit for shipment about one-third of which his information showed was perfectly good. There were the small fish, which were rejected under the first and second classifications, and also other fish which were good enough for immediate consumption, but which would not stand carriage. There were also flounders, sole and red cod, which were fine fish, and in many homes preferable to halibut. Were these placed upon the city market at a reasonable price, he thought it would help to reduce the cost of living.

Ald. Kirkpatrick informed the council that she had had a great deal of experience in cooking fish and if it were not first-class fish, a first-class dish could not be expected. Ald. Dybhavn explained that the fish which was sold among the retailers in town was only the choicest of the first-class fish, and he did not see that fish which was refused classification could equal these. However, there was nothing done in the matter meantime.

Raising Pigs.

A report from the health committee came next which said that there was nothing to prevent the raising of pigs within the city limits, provided that the proper precautions were taken.

The warrant book for the expenditures for the month of December was presented, which brought from Ald. Casey the comparison that the police department

was costing as much as public works department. He again protested against the cost of operating the police department, which he said was out of all reason with the condition of the city. Ald. McMeekin bore this statement out and referred to two burglaries which had been effected within the last few days, about which nothing had been done. Mayor McClymont explained that no one would like better than himself to see one man being able to police the city, but it would not do. With one man on duty on an eight-hour shift required three men, and in addition, someone was required to be in the station. Ald. Casey suggested an automatic system which would obviate having half a dozen men hanging around the police station, discussing things with the city solicitor. Which was one on Mr. Peters, who enjoyed it. After the 1917 assessment roll being adopted for 1918, the council adjourned.

Keep Chickens

This is National Service

They will help
Keep you

The cost of meat is the heavy item in the food bill.

Poultry and Eggs will help take the place of meat.

The food that goes to the garbage pail from the average table will provide one-third the feed for a flock of 8 to 10 hens.

Poultry will thrive where vegetables will not grow. The outlay is small. A few minutes a day is all the time required.

A small flock in your back yard will go far to keep you supplied with eggs, broilers and roasters.

How to go about it

BUY eggs for hatching or day-old chicks; borrow or buy a broody hen or an artificial brooder. A slatted packing-box will house the hen and chicks. Feed the chicks bread crumbs soaked in milk and squeezed dry. Feed five times a day, alternating with prepared chick feed, only as much as they will eat up clean. Remember that a hungry chick is a healthy chick.

CAUTION: Chicks must not be fed until at least 48 hours old, and then only sparingly.

If you can, start now with eggs or chicks; if not, arrange at once with the local poultry association for pullets in the fall.
