THE SPIRIT OF REVOLT

The example given by the Russian people during the early months of last year is having its due effect in the countries of her neighbors. While Russia itself is still torn with internal dissensions, and, according to dispatches received from Petrograd, which are as likely to be untrue as otherwise, fighting of a bloodthirsty character is still in progress throughout the length of the land, still the Russian revolutionists have found time and opportunity of spreading their propaganda both in Germany and in Austria Hungary.

The ideal of freedom for the individual is one which has been before the people of continental European countries for generations. Some of these peoples have achieved this ideal, or think they have, in greater measure, while others have made but little progress towards their goal, of which fact they are but too well aware.

The scrappy news of the unrest which is making itself felt in Austria and in Germany may mean much, or it may mean little, just at present. The governments of these countries know enough of the necessities for their own preservation to be prepared for just such contingencies. Unless such popular outbreaks are on such a scale that will take the armed forces of soldiery with them, both in Germany and in Austria, the forces of reaction and repression for which both are famous may be able to stave off the fatal day. The day, however, of such an anachronism as autocracy existing among a modern people, is about over. Kingship by divine right is an exploded idea, even in Germany.

Even in Great Britain, discontent with the present order of things is being voiced in no uncertain terms. Organized labor there knows what it wants and what it wants will without doubt be for the betterment of conditions throughout

the country. That conditions require bettering cannot be gainsaid, both in Great Britain and elsewhere.

Progress in social evolution has been more orderly during the last several hundred years in Great Britain than in other of the European countries, and while progress has been slow, it has not been marked with any violent upheavals such as took place in France in the time of her successive revolutions, or as in Russia today. From all accounts, it would seem that the time has come when the pressure from below will cause further very great changes, which will affect both Great Britain and the British dominions beyond the seas. A new order of things is demanded in which the competitive struggle for the means of a bare existence will be eliminated, and co-operation in production and distribution put in its place. There is nothing Utopian about the constructive ideas put forth. It is but a small application of the tenets which nationally we hold, as contained in the sermon on the mount.

NOTES AND COMMENTS

Four steel ships to be built in Vancouver. There is no word yet of any shipbuilding orders coming to Prince Rupert.

The new police commission in Victoria is "putting the lid on" there on Sundays. The "Lord's Day Act" is to be observed to the letter. Creameries will be allowed to do business, and drug stores in medical goods only, but no other place of business will be permitted to be open to the public on Sabbath. And the Scots people are not in the majority in Victoria either.

In the month of June, 1916, the Australian Commonwealth purchased fifteen cargo ships, at a price approximately of \$10,000,000. The Australian government has operated these vessels since that time and the original outlay has already been returned in profits. Some governments can make money, as well as spend it.

Appendicitis Operations Not Always Necessary

Internal Bathing Relieves the Cause
Your physician will tell you that Appendicitis is an inflamed condition of the little sack called the Appendix at the lower right-hand corner of the Colon or large intestine. By cleansing this Colon with purified warm water by the "J. B. L. Cascade" this sack is cleansed and the inflammation subsides. Hundreds of operations have been avoided by using the warm water cure for Appendicitis. Mr. Jas. McLaughlin, 91 Evanston street, Winnipeg, writes:—

"I had spent over fifty dollars with doctors trying to cure Appendicitis. Finally the doctor said I must go to the hospital at once for an operation. Your advertisement interested me. I bought a 'J. B. L. Cascade,' which relieved me at once, and am now completely cured. Never felt better in my life; all pain and soreness gone, and I eat and sleep like a boy. I am grateful to Dr. Tyrrell for this wonderful health-giving invention."

95 per cent. of all human ills are caused by accumulated waste in the Colon. Internal Bathing with the "J. B. L. Cascade" keeps this large intestine as free from all waste and as clean as nature demands it should be for perfect health. Ask Cyril H. Orme, Druggist, corner 3rd Ave. and 6th St., for booklet called "Why Man of Today is Only 50 Per Cent. Efficient." It is free. He will also be pleased to show and explain the "J. B. L. Cascade" to you.

OTTAWA GOES AFTER A CIVIC COAL YARD

Ottawa, Jan. 30.—The city of Ottawa is applying to the Ontario Railway and Municipal Board for power to engage in the municipal coal business, and authority is sought to issue debentures amounting to a quarter of a million dollars.

A similar request was made last summer but the board refused it, because the corporation was unable to buy coal. The by-law in connection with the present proposal has not yet passed the City Council, though the ratepayers voted in favor of it by 9,000 to 1,000.

The by-law must be passed by the City Council before the Railway Board deals with the matter, according to Chairman D. M. McIntyre of the board, who has written the city solicitor of Ottawa to that effect.

Furniture wanted. Any quantity. Good prices paid for complete household furnishings and all kinds of tools, men's suits, coats, etc. Phone Red 243 or call on F. M. Crosby, 745 Third Ave.
