

FRIENDS THOUGHT HE WOULD DIE

"FRUIT-A-TIVES" Conquered Dyspepsia and Restored His Health.

MR. ROBERT NEWTON.

Little Bras d'Or, C. B. "I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches, and did not sleep well at night. I lost so much weight—going from 185 pounds to 146 pounds—that I became alarmed and saw several doctors who, however, did me no good. Finally, a friend told me to try 'Fruit-a-tives'.

In a week, there was improvement. The constipation was corrected; and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous".

CANADA WILL "ADOPT" FRENCH TOWN OF VIMY

For many months the Secours National of Toronto has been in correspondence with the French government regarding the "adoption" by the Secours of a devastated town or village. Many have been the difficulties in the way of completing arrangements, but recently a cable has been received from France to say that the town that has been allotted for Canadian mothering and rehabilitation is that town sacred, dear and glorious in the eyes of all Canadians—Vimy, the devastated.

Work will begin at once and will first of all consist in sending relief in the form of food and clothing to cover and nourish the women who after the manner of the loyal and loving French, creep back to the wreckage of what were once happy homes. Later, where walls have been left standing, the roof will be restored, seedlings of fruit and shade trees and fruit-producing bushes will be planted, and so, bit by bit, Vimy the immortal, will be restored.

Just now the Secours will carry out the details of the work it is impossible, as yet, to say, but as it progresses and the needs and the opportunities for meeting them develop, word will be sent on from France and the news made public here.

MUNITION PILES AT VLADIVOSTOCK SAFE FROM BOLSHEVICS

San Francisco, Feb. 8.—Munitions of war accumulated at Vladivostock are safe from appropriation by the Bolsheviki government for use in internal warfare, according to Vladimir Baschkiroff, assistant minister of munitions under Kerensky, who is in this city on his way to Washington.

"Public opinion in Siberia is against the Utopian measures of the Bolsheviki government and this feeling is a more potent factor against the misappropriation of munitions lying at Vladivostock harbor," Mr. Baschkiroff said.

For some weeks past the shipment of freight to those portions of Russia controlled by the Bolsheviki forces has been absolutely prohibited, and I feel sure that these enormous supplies of war at present in Vladivostock will yet be utilized effectively against our enemies, the Central Powers, as originally intended."

BRITISH LIVE STOCK WILL BE RATIONED

London, Feb. 6.—It is estimated that the quantity of fodderstuff in Great Britain is insufficient to maintain the existing stocks of animals and poultry until the present season's crop is available in September. The Secretary of the Board of Agriculture announced today that plans were being considered for the rationing of all classes of live stock, of which milch cows and work horses would receive the major portion of the available supply. The quantity of feed which is to be given over to poultry will be sufficient to maintain only one-twentieth of the normal stock.

Keep up the Food Supply and Help Make Victory Sure

"I AM assured that my people will respond to every call necessary to the success of our cause—with the same indomitable ardour and devotion that have filled me with pride and gratitude since the war began."
HIS MAJESTY KING GEORGE

OUR soldiers must be fed; the people at home must be fed. And—in spite of Germany's murderous campaign to cut off the Allies' Food supply, by sinking every ship on the High Seas—an ample and unfailing flow of food to England and France must be maintained.

**This is National Service—
Not to the Farmer only—
But to YOU—to everybody—
This appeal is directed**

WE must unite as a Nation to SERVE—to SAVE and to PRODUCE. Men, women and children; the young, the middle aged and the old—all can help in the Nation's Army of Production.

EVERY pound of FOOD raised, helps reduce the cost of living and adds to the Food Supply for Overseas.

PLANT a garden—small or large. Utilize your own back yard. Cultivate the vacant lots. Make them all yield food.

WOMEN of towns can find no better or more important outlet for their energies than in cultivating a vegetable garden.

Be patriotic in act as well as in thought.

Use every means available—
Overlook nothing.
