## PEACE TERMS

Coincident with the news of the further invasion of Russian territory comes the information that the Austrian government and the German government are at loggerheads. Austria is credited with wanting to leave the Russians alone. Since hostilities have been suspended, Austria would have this condition continue. Her people are protesting against further warfare on their eastern borders. They have had enough. They are war weary, perhaps more so than any other of the belligerents at the present moment. Whipping a dead horse does not appeal to the Austrian people, nor any more so, apparently, to the Austrian government.

What Germany hopes to gain immediately by the occupation of the Russian Baltic provinces is hard to see at present. They may capture Petrograd. They may take possession of the northern provinces which once were Russia, but of what use will it be? These provinces do not contain that which Germany is alleged to be in the greatest need of, which is food.

The great supplies of food-stuffs are carried by the southern provinces of Russia. For four years now, the tremendous crops of wheat and other cereals which are raised there had to be stored in the granaries of the farmers. The port of Odessa formerly was the outlet and all roads from the southern provinces lead there. This has been blocked since the Turks closed to Dardanelles nearly four years ago.

The trouble between Austria and Germany on this account may prove to be the forerunner of more serious divergences of opinion. The great menace to the Austrians was Russia, but now that this is removed, this unwieldy composite Kingdom would fain cease fighting also. Austria, perhaps has had the least satisfaction of all the Central empires since the war began. Although her territory is at present free from the invader, both the Russians and the Italians penetrated through

the Austrian defences, and only the assistance from the German troops could have saved her. But even if Austria does agree with Germany, what can she do about it?

## FOOD PRODUCTION

In a great many cities throughout the Dominion of Canada, active steps are being taken towards the utilisation of the vacant lots for the production of such foodstuffs as can be grown locally. It has been pointed out that "However pressing was the necessity of increased production which inspired last year's campaign, it was nothing like the urgency which calls for such activity this year. If there are any sceptics who think the food emergency has been overestimated and that "things will work out all right, anyway," they are destined to receive a severe shock later on. Some day they may find themselves on rations and that will be very uncomfortable, to say the least, although it is a brand of discomfort to which the people of Great Britain, France and Italy have been subjected for a considerable time, and which has been the lot of Belgium since the early weeks of the war. Just how far the Canadian people will have to put up with similar disabilities will depend upon the amount of food they produce. And every vacant lot under cultivation helps to solve what is going to be the greatest problem of the times."

Some little time ago, the president of the Port Arthur Board of Trade issued a statement of the results of the campaign launched there by the city council. Showed a total money value of \$26,527.50 had been raised in vegetables, turnips, beets, carrots, parsley, etc.

It has been proved that potatoes thrive in muskeg well, in addition to other vegetables. Prince Rupert is blessed with a superfluity of vacant lots. Every hill of potatoes raised here releases just so much for use elsewhere where spuds cannot be grown. It would seem

## Constipation Cured in His 78th Year without Drugs

Did you ever know any person who was permanently cured of Constipation by taking drugs of any kind? Drugs seem to assist Nature at the time, but as time goes on larger doses are necessary until the trouble becomes chronic.

Internal Bathing is the only real cure for Constipation. It keeps the Colon or Lower Intestine free from all accumulation. Soon the system performs its regular functions unaided, and there is no further trouble.

Mr. A. McLean, of Conger Lumber Co., Parry Sound, writes:—"I have been troubled with Constipation for the last 35 or 40 years, and could not pass one day without taking medicine. I have used the 'J. B. L. Cascade' since getting it 21 days ago, with wonderful results. Will recommend any person to use it."

Dr. Chas. A. Tyrrell of New York, invented and perfected the "J. B. L. Cascade" for internal bathing, which is today the only efficient means of accomplishing the desired results. Dr. Tyrrell has published an interesting book on Internal Bathing, called "Why Man of Today is Only 50 Per Cent. Efficient," which can be had free for the asking of Cyril H. Orme, Druggist, cor. 3rd Ave. and 6th St. He will also be pleased to show and explain the "J. B. L. Cascade" to you.

as this was one of the things which might be taken up with advantage by the city.

Municipal enterprise has strong advocates in this city, and here is one opportunity for its application. In the City market, the city has already at hand the means of disposal of all the produce which can be raised in this manner, either from lots cultivated by the city, or the surplus raised by private energy.

## TIMBER SALE X 979.

Sealed tenders will be received by the Minister of Lands not later than noon on the 12th day of March, 1918, for the purchase of Licence X 979, to cut 6,730,000 feet of Spruce, Cedar and Hemlock on an area adjoining L. 335, Swindie Island, Range 3, Coast District.

THE WESTERN SALMON PACKING COMPANY, LIMITED; C. C. Robertson, Agt. DATED December 31st, 1917.

## HEALTHY CHILDREN IS FIRST NECESSITY

Montreal, Feb. 15.—Le Pays of this city is exercised because of the medical examination of 177 students of Laval University having shown only 13 fit for military service overseas, flat feet having been the least serious of the defects among the rejected students. Le Pays says the cause of this state of affairs was ignorance on the part of the mothers of these students in the bringing up of children. "The time has come," says Le Pays, "for the clergy in this province to tell the mothers that the salvation of souls does not depend upon bringing a little being into the world every year, whose body goes to the cemetery and the soul to heaven, but that their duty is to give healthy children to their country."

Le Pays says the situation at Laval should be regarded "as a cry of alarm for the French race to awaken and avoid the disaster which is at hand."

## NOTICE.

"Sea Gull," "Brown Bear," "Little Tom Fraction," "Sunlight Fraction," "Sea Lion Fraction," "Sheet Anchor Fraction," "Sky Line," "Camp Bird Fraction" and "Observatory" Mineral Claims, situate in the Skeena Mining Division of Coast District.
