THE PROPER BASIS.

Among the speeches in parliament since the opening of the Provincial House has been noticeable the desire of the government to get down to business and to have every thing done for the increased productivity of this province of British Columbia. In the matter of agriculture particularly, the member for Chilliwack, Mr. Barrow, who was among the party of the late premier when he visited here last fall, was insistent for the necessity for co-operation on a much larger scale than heretofore. He had proofs, too, to back up his assertion of the feasibility, nay, actual necessity for this course of action being adopted through the land. In his own riding of Chilliwack, he showed how thorough co-operative methods production had been increased by nearly fifty per cent, and the same combination of farmers there hoped to make another fifty per cent increase there this coming season. Provided the producer was protected from the "mercies" of the middleman. Mr. Barrow was convinced that there would be no falling down on the part of the man on the soil. In many cases, however, there was no co-operative movement among the producers. He mentioned cases where large crops had been raised, for which there was no market, and evaporators being idle while tons of produce went to waste. This state of affairs, is unfortunately true.

There is little to induce the farmer to raise crops if he cannot get a buyer at a satisfactory price. And in many cases, particularly in the southern and more developed portion of the province, the growers and farmers are at the mercy of the middleman. The farmers have proved their patriotism in many cases, by doing all they could to get the most out of the ground in this time of world shortage of food, while most of the benefit was reaped by the man who stepped in to buy his produce. It is all very well to argue the law of supply and demand, but it is known

that this law is subject to artificial alteration once in a while. Patriotism is not a thing that applies to the farmer alone, in the matter of producing food stuffs at this time. It is a thing which ought to apply all round, even unto the middleman seven times removed from the farmer.

FINED ONE DOLLAR.

Recently, a certain publication was banned by the Secretary of State in Canada, and among the first cases which we have noticed, came up in the Victoria Police Court last week, where a man was charged with being in possession of the forbidden book, after the censor had declared that it was not a fit and proper book for any man to possess at this time. Extenuating circumstances in this case enabled the accused to get off with a fine of one dollar.

Anyone who has read this book will agree that it is a religious book, a denominational book, and on a very controversial subject. But now that there is a Union Government in Canada, there is to be no more controversy. Freedom, as known in Britain is no longer in Canada. The autocracy at Ottawa, in the absence of a Religious Controller meantime, apparently do not want the existing beliefs interfered with or influenced by any new ideas.

Were this book seditious, it would be a different matter. Any seditious it contains is apparently not to be observed by the Censors in the United States where we understand the book is published, nor yet in Britain. But apparently it is seditious in Canada.

That the censor found it to be so, it is hard to believe. Yet he has said so. His action is law, and argument in the Police Court regarding this part of the matter is futile. Yet it would be interesting to know as whose instigation the Government of Canada starts interfering with the religious beliefs, whether they are right or wrong, of the people of Canada, or any portion of them.

KAISER EXPECTS POLES TO BELIEVE THIS

London, March 2.—A Berlin telegram states that at the reception of the Regency Council today the Kaiser replied to an address presented by the Council. "It is a sincere joy to me to be able to greet you as the appointed representatives of the Polish State in my capital," he said. "I gather lively satisfaction from your words that you see in the act carried out by my exalted Allies and myself the fulfillment of the long cherished desire of the Polish people for the re-establishment of the independent Kingdom of Poland, and that you believe you will be best serving your Fatherland if, in common with the German Empire and the Austro-Hungarian Monarchy, you pursue the aims which guarantee the weal of humanity and the peaceable co-operation of peoples as against the calumnies of the enemy. I feel grateful that my unremitting efforts in a reign of nearly thirty years to be champion and protector of these principles will meet with deep sympathy on your part. May it be granted to you exalted and eminent gentlemen in successful labor to give the Polish State foundations which will guarantee its further peaceable development as an element of order, progress, and civilization. You may hereby be assured of the full support of myself and my government.—Reuter.
