PROHIBITION.

Notwithstanding all that has been done in various quarters to obtain an extension of the time before the enforcing of the Prohibition Act affecting the whole Dominion, the government have not seen their way clear to make any alteration in their first proposals. So that after the end of this month it will be impossible to buy intoxicating liquor within the Dominion of Canada.

It has often been said that you cannot make people good by Act of Parliament. In this particular case, an Act of Parliament is going to make people teetotal, whether they like it or no.

THE PATRIOTIC FUND.

This week every person in Prince Rupert will have an opportunity of doing something to ensure that the dependents of the soldiers who have gone to fight for the Empire, do not suffer through the enforced absence of the breadwinner. The allowance which the government makes for the families of the country's soldiers is insufficient. It is admitted. The government have said that they cannot find the money, were they to take over the Patriotic Fund. Therefore it is left to the private generosity of the

individual to make good the deficiency of the government. The soldier who goes to fight has every reason to expect that those he leaves behind will not suffer. Put yourself in his place. What would you expect to be done for your dependents, were you called up?

That is the one way to look at this matter. The people of Canada have a duty to perform to the soldiers. This is it, that their dependents shall not lack the necessities of life. It is not right that this should be left to the goodwill of the individual. This is not only an individual duty, but it is left altogether to the voluntary goodwill of the people of the Dominion.

Much criticism has been levelled at the government for its declining to fulfill its function in this respect, and rightly so, too. But in the meantime, the money must be found for the soldiers wives and families. The cost of living is showing no signs of decreasing, and three years make a difference on the costs of a growing family. And at the same time, there are more soldiers under arms now than ever there were, so it may be expected that the demands upon the Patriotic Fund will continue to increase. This makes it all the more necessary for increased and continuous subscriptions from those who have not been called to fight.

The amount which Prince Rupert has set before her is not by any means excessive. Even although this part of Canada has not benefitted financially to the same extent as other parts, in the shape of higher wages and munition activity, there is no doubt that the requirements of the Fund will be met by the people here, in accordance with their capabilities.

ARMENIANS SUFFER ATROCITIES AGAIN

The Hague, March 8.—Authentic information received here from Asia Minor direct states that the

entire Armenian male population of Samsun, thousands of whom were driven thre by the Turks, including children, has been massacred. This information was brought from Samsun by an official of one of the Central powers. The Turks are endeavoring to stir up the Georgians against the Armenians, and it is asserted that appalling massacres have taken place in Georgia also. This is considered a striking commentary of von Hertling's proposals for the future of Armenia.

RUSSIANS PLUNDER BRITISH EMBASSY

London, March 9.—The British Embassy was plundered by Russian troops, in command of a Colonel, immediately after the Embassy staff left Petrograd, according to a Petrograd dispatch received by way of Dusseldorf and Amsterdam.

Another report says that the Russian troops broke into the Embassy while the British Charge was still there, and ignoring his protest burned some documents and confiscated others. The Charge it is understood, made a protest to Leon Trotsky, the Bolshevik Foreign Minister, who replied that the Government could not be held responsible for the outrage.
