THE LEGISLATURE.

According to the press reports of the doings in the Provincial Parliament, this session promises to be replete with good reading for the electorate, if the slamming continues. The hon. leader of the opposition, Mr. Bowser, and the new Premier, were in the lists, and took a tilt at each other on several occasions. Indeed Mr. Bowser had quite a lot to say about quite a number of the representatives of the people on the government of the House. Needless to state, honest John did not let him off scatheless. He accused Mr. Bowser of having a total disregard for the truth. Many a man has been killed for less. "In the leader of the opposition, you have a man who is an open violator of the most sacred oath that can be administered to any man," declared the Premier.

Mr. Bowser has expressed a desire to learn how the Premier had acquired the title of "honest John," and Mr. Oliver in reply, intimated that there was no danger of such a title ever becoming attached to the leader of the opposition.

Mr. Hawthornthwaite, for Newcastle, gravely agreed with what both the speakers had said about each other, while in the course of the speech of Mr. Bowser, Mr. Manson, member for Omineca interjected "Bow-wow-wow," much to the former premier's indignation.

If the session continues as it has begun, there promises to be something doing besides the regular business of the province, which will tend to lighten the heavy labors of the legislators in Victoria, as well as the columns of the newspapers. It cannot be said, however, that personal attacks, such as made by Mr. Bowser, in any way tend to make for the upkeep of the dignity of the House. Neither, of course, do the replies made by indignant members. It was once said that the duty of the opposition was to oppose. That may be, and is true to but a certain extent. Members are returned to parliament, no matter of what party they belong to, to see that the business of the

province is conducted with despatch, and in a businesslike manner. Honest criticism from the opposition is the best thing that can be done for the country, by the opposition in Parliament, but a criticism that is dishonest ought to have no place in the deliberative chambers of the House in Victoria, or anywhere else.

There is a great deal of work to be done by Parliament for some considerable time coming, which will tax the resources of the House. The province was broke when the present government took office, and hard times are ahead. There is no one but will admit that the present time affords but a thankless task for whatever government might have been in power, but that the present government will rise to the occasion, there is no reason to doubt.

HISTORY UPSIDE DOWN.

In Rouen history seemed to have rolled backward. The city where the English burned Joan of Arc seemed almost as British today as Birmingham or Manchester. Acres of factory chimneys smoked busily beside the Seine; the river was full of British shipping—coal barges, transports, hospital ships, tramp steamers; and in the crowded city streets were thousands of tommies in khaki, Scotties in kilts or scandalous "shorts" of the same loud colored plaid as the kilts, Australians and New Zealanders, natty, public school-bred officers, Sikhs wearing khaki turbans, and scores of V. A. D.'s and other rose-cheeked British women in khaki or blue serge or the white muslin of the Red Cross nurse.

The Norman Conquest had been reversed, and the English had retaken Rouen. It was an impressive and noble example of the complete unity and power of the Allies.—Red Cross Magazine.

MILWAUKEE MAY
LOSE ITS MAYOR

Milwaukee, Wis., March 16.—The civic commission yesterday voted to remove from office Mayor Mahon, Socialist, because of alleged disloyal features contained in the platform drawn up by the Socialists.

Following the removal of Mayor Mahon, four other socialists, members of the council are also objected to. In the platform for which Mayor Mahon stands comes a plank which reads: "The American did not want this war. They were plunged into this abyss by the treachery of the ruling class of the country—its demagogic agitators, its bought press, its sensational photoplays, its lying advertisements and other purchasable instruments of public expression."

The mayor maintained the commission had no power to remove him; that to do so would be high-handed usurpation of authority.

A Boston man found at a coal emporium in that a city chap who managed to infuse a degree of facetiousness into the transaction. "How much is chestnut coal?" timidly enquired the prospective customer. "That depends," said the salesman. "A la carte, it's eight dollars, cul-de-sac, it will cost you fifty cents extra."
