

GIGANTIC PROPOSAL TO RAISE MORE FOOD

Montreal, March 16.—Realizing that food for the allies is the first consideration, the building contractors of Eastern Canada have placed before the government a gigantic proposal for the cultivation of the idle western lands. Without depriving the farmer of any help, they propose to turn the idle men, machinery and capital in the building trade into cultivation; to break 500,000 acres this year for the 1919 crop, using 3,000 men, figuring the production next year at 10,000,000 bushels of wheat, with an increase in 1920, which, if capital is sufficiently forthcoming, can be trebled. The proposal is worked upon by the Montreal Builders' Exchange and meets with the approval of the Toronto and Ottawa exchanges, and is being seriously considered by the government. Builders are pressing for an immediate answer.

DIVIDING THE SPOILS.

Washington, March 16.—According to an official dispatch received from Copenhagen today and quoting from the National Tidende, Germany and Austria will divide equally until July 31, the amount of grain available in the Ukraine. During the early part of this period, Austria will have two-thirds and Germany one-third of all grain obtained. During the second half the proportion will be reversed.
