British ships in Seattle drydocks! And Prince Rupert's new two-million-dollar drydock hanging with cobwebs!! What a sight for our ultra-loyal, win-the-war, act-of-God patriots!!!

How would it do to invite the Vancouver orators, who were employed in advising the voters in Prince Rupert to vote for Borden, to deliver a series of addresses on the drydock labor conditions of Seattle and Prince Rupert? Some Subject!

Quality First

QUALITY has always been the big outstanding feature of "ROYAL STANDARD FLOUR." This quality has its genesis—its origin in the selection of the golden-ripe Canadian Hard Wheat from which "ROYAL STANDARD" is milled.

QUALITY is the goal sought in all the exacting laboratory tests through which "ROYAL STANDARD" passes at our modern model flour-milling plant. And it is the same dependable QUALITY that makes—

ROYAL STANDARD FLOUR

the choice of so many discriminating housewives today.

"ROYAL STANDARD" as milled under the Government Regulations is so much superior to other Flours as it was in the past. It is still the Flour de luxe—strong, full-bodied, first in nutriment and body building energy.

ROYAL STANDARD RYE FLOUR.

FOR the housewife who wishes to practice still closer conservation in her bread making the addition of 25 per cent. of "Royal Standard Rye Flour" will produce a delightfully wholesome loaf and correspondingly reduce the amount of other Flour used.

Ask for "Royal Standard" today.

Look for the "Circle V" on every Sack.

Keep Chickens

This is National Service

They will help Keep you

The cost of meat is the heavy item in the food bill.

Poultry and Eggs will help take the place of meat.

The food that goes to the garbage pail from the average table will provide one-third the feed for a flock of 8 to 10 hens.

Poultry will thrive where vegetables will not grow. The outlay is small. A few minutes a day is all the time required.

A small flock in your back yard will go far to keep you supplied with eggs, broilers and roasters.

How to go about it

BUY eggs for hatching or day-old chicks; borrow or buy a broody hen or an artificial brooder. A slatted packing-box will house the hen and chicks. Feed the chicks bread crumbs soaked in milk and squeezed dry. Feed five times a day, alternating with prepared chick feed, only as much as they will eat up clean. Remember that a hungry chick is a healthy chick.

CAUTION: Chicks must not be fed until at least 48 hours old, and then only sparingly.

If you can, start now with eggs or chicks; if not, arrange at once with the local poultry association for pullets in the fall.
