Royal Standard Flour

The Ideal Bread-maker.

IN SOME Flours quality is relative—they are merely better or worse. In "Royal Standard" quality is POSITIVE—an exact measure, regardless of everything else. "ROYAL STANDARD" gives the bread-maker—the housewife—unlimited confidence at once—from the very beginning. It has proven itself absolutely dependable under all circumstances.

"ROYAL STANDARD" is milled today in keeping with the times in which we live—that means it is a peerless "conservation" Flour. The golden-ripe wheat that enters into its making is selected with exacting care and ground under perfect milling conditions.

ROYAL STANDARD RYE FLOUR.

FOR the housewife who wishes to practice still closer conservation in her bread making the addition of 25 per cent. of "Royal Standard Rye Flour" will produce a delightfully wholesome loaf and correspondingly reduce the amount of other Flour used.

TROOP TRAIN SAVED BY GIRL

Toledo, Ohio, April 11.—Discovering a tie spiked across the Baltimore and Ohio tracks ten miles south of Toledo, near Perrysburg, last evening, Grace Doyle, twenty years old, a country school teacher at Roachtown, ran down the track, removed her coat and with it flagged a train approaching rapidly. It was a freight, followed closely by a heavy troop train.

Several troops trains had passed there within a few days and it is supposed that the person who spiked the tie to the track had information that another was approaching.

The train from the east due last evening was held up en route and did not arrive in until about 11 this morning.

MOVEMENT OF TROOPS FROM U. S. SPEEDED UP

Washington, April 13.—Transportation of American troops to France already is proceeding at the accelerated rate contemplated by the speeding up of measures taken after the battle of Picardy began. Acting Secretary Crowell made this statement, but, for military reasons, the extent of the increased troop movement has not been made public.

Following the conference between Secretary Baker and Allied officials orders were given under which a British official statement was issued, saying that American forces were to be brigaded with British troops in order to hasten American participation in the war. Officials explained that the process to be followed was similar to that adopted in placing American troops in the front lines with the French for training.

It has been estimated that thirty days' training of this character, with American battalion units assigned with the British organizations, will fit the newcomers for active duty at the front. All divisions now moved from this side are composed of men who have had several months of preliminary training and who need only final instructions to take their full share in the fighting.

The training process will be quicker with the British than with the French, it is believed, because the language difficulty does not exist. American units will find every British veteran an instructor and there will be no need for interpreters.

EARL GREY BEQUEATHS PROPERTY IN RUPERT

London, April 13.—The late Earl Grey left nearly £260,000. The will bequeathed property in Prince Rupert and British Columbia to the present Earl and the late Earl's two daughters.

Grow Your Own Vegetables

CITY people this year must help to grow their own food. Every pound of vegetables that can be produced in home gardens or vacant lots will be a positive addition to the supply of food. Moreover the cultivation of land in city, town and village will leave market gardeners and farmers free to grow wheat and other supplies for export.

It may be that the only contribution which you can make towards relieving the dire food needs of our Allies will be a vegetable garden. If 200,000 families in Canada would cultivate a garden of this kind it would mean a very important aggregate addition to our food supply.

In Montreal vegetables to the value of \$100,000 were grown on vacant lots last year. Calgary had over 1,100 lots under cultivation, covering an area of 200 acres. Splendid results were achieved in other cities.

There is even greater necessity for war gardens this year. Tremendous interest in the movement is reported from all parts of the Dominion. Are you a member of a vacant lot organization? If none exists in your community help to organize one.

Home garden and vacant lot cultivation is really needed and may truly be considered a patriotic service.

Organized Efforts Will Bring Best Results

Decide here and now to have a war garden. Persuade your neighbours to do the same. All the tools necessary are a spade, rake and hoe. The cost of seeds is a trifle. Grow only standard vegetables such as potatoes, beans, peas, beets, carrots, parsnips, onions and lettuce.

By growing your own vegetables you can not only perform a patriotic duty, you can also help to control the high cost of living.

Write to your Provincial Department of Agriculture for pamphlets on gardening and any additional information.
