THE DAILY NEWS

EVERY ABLE-BODIED MAN IN GERMANY MUST FIGHT

London, April 15.—A despatch to The Daily Mail from The Hague states that Germany is combing out every available man, even from the munition factories, and drafting them into the fighting ranks. Some works either have been closed or are employing only a few girls, while raw materials have ceased to arrive in usual quantities at certain works.

It is stated, for instance, that well known car works at Cologne and Mulheim were practically closed during the week, the Germans employed there being taken out for various services, some of them for the front. At certain dye works in another Rhenish district only a few girls are left, all the German employees, even wounded men, having been transferred to other services. At Cologne brick works and cable works, which have also been employed on munitions, are equally reduced to a few girls or have been closed altogether.

A neutral who reached Holland Friday night had a conversation with a German who had just returned from the western front. He put the German losses at, roughly, a quarter of a million, and added: "Nobody any longer believes we shall now reach Paris. We were simply mown down by machine guns. At one place the French made a rampart of German bodies as high as a man."

It is also very noticeable, the neutral said, that in Germany the women are getting out of hand as the tales of losses increase and as trainloads of wounded return.
