BOLSHEVIKI METHODS

At the risk of the extreme penalty of the law, as promulgated by the Borden Government at Ottawa, we would like to divert attention for a few minutes from the all-important object of winning the war—even although this apparently be an offence—to some of the methods which the Borden Government consider to be necessary in connection therewith. On the 17th day of April a press dispatch was sent out from Ottawa, which has received considerable publicity, and it reads as follows: "New regulations governing the publication of statements, reports or opinions or the verbal expression of opinions which may lend or weaken or detract from the united effort of the people of Canada in the prosecution of the war, were promulgated last night in the form of an order-in-council which received the assent of the governor-general yesterday."

THE PURPOSE OF THE ORDER-IN-COUNCIL IS TO PREVENT CRITICISM of a kind that would divert attention from the object of winning the war. The provisions are made for the seizure, and destruction of presses, plant, machinery or material used in the publication of any matter, which, in the opinion of the Secretary of State, constitutes a hindrance to united action."

Clothed with a little brief authority, the Secretary of State has now got the power to effectively suppress any newspaper which dares to criticise the manner of the Borden Government. There are still one or two newspapers in Canada who have no particular love for Sir Robert Borden, politically, nor his henchmen either. And if they dare to divert attention from the winning of the war to the doings of the Borden Government they will become liable under these extraordinary powers assumed.

Should another J. Wesley Allison arise and attempt to get by with things which he ought not, or another Sir Joseph Flavelle realize eighty

per cent. upon his invested capital in one year, to direct attention to these things might embarrass the government, and might at the same time divert public attention some little from the winning of the war. Or at any rate, the secretary of state might think so, which would be all the same.

The speeches of the opposition members in Parliament, when they get after Sir Robert Borden, as Mr. Cannon did the other day when he told Sir Robert what the reasons were for the rioting in Quebec—by the way, did you read that speech in any of the Unionist newspapers?—these evidently must not be reprinted either. The doings in Parliament except they are in favor of the government must not be criticised. It might divert attention from winning the war.

Now that a Union Government is in power, the people must be kept thinking the same way. Nothing derogatory, no matter how much they may be, to the present administration must be mentioned. The spirit of Lenin and Trotsky would appear to have actuated those who arranged for this iniquitous order-in-council. It is the most reactionary piece of misdoing that any government has undertaken for a century within the limits of the British Empire.

The free institutions which Britons prided themselves in, throughout the world, are endangered by this piece of business—it is not legislation. Free speech and the freedom of thought are among the things which even the Borden Government cannot kill no matter how many orders-in-council they pass.

Having taken this power, by the secret means of order-in-council, it will behoove the government to be very careful how they permit the Secretary of State to wield it. Otherwise they will have started something which will finish them before they are ready. There are limits to what a government can do, and get by with it, even with such a majority as the present one has.

NOTES AND COMMENTS

Worse than the shortage of bread, leather or cloth has been in Germany of recent months the almost total lack of sewing thread. It was not with herds of lions and tigers that the Lord and Moses chastised Egypt, but with swarms of lice, frogs and flies. —New Statesman.

We are faced with one of the most horrible of nightmares—that of training the people simply to make them good workmen—Sir J. D. McClure.

If only we like, victory will be ours, and this is the greatest marvel in this monstrous war. It is a marvel that can only be explained by the circumstances that our former well tried ally, the old Lord God, has once again taken His stand by our side. —Allemeige Zeitung.

Some time ago, the Food Administration closed a big egg business with three affiliated firms and ordered them to remain closed. These dealers had bought eggs at 33 1/2 cents and sold them after passing through the affiliated firms, at 51 1/2 cents. For so doing, they were adjudged guilty of profiteering, and put out of business. But this exercise of regulatory authority occurred in the United States. It wasn't the result of Canadian administrative action. —Toronto Globe.

Insomnia Cured Without Drugs

Internal Bathing Relieves the Cause

If you do not sleep there is always some cause. Don't start dosing with drugs. Nerves can't consume them. Relieve the cause and a good, sound sleep will be the result.

The system cannot be right if the Colon or large intestine is not kept clean and free from all waste matter. Bathe internally if you want perfect health.

Mr. F. C. Voigt, Rapid City, Man., writes:—"For several years I suffered from indigestion, Nervous Debility, Insomnia and Constipation. Had no appetite, and doctors did not expect I would live throughout the winter. Your book interested me. I got a 'J. B. L. Cascade' and in a few days obtained remarkable results. I now sleep and enjoy my meals better than for years before. I regard the 'J. B. L. Cascade' as a Godsend to me."

The 'J. B. L. Cascade' is a perfected appliance for Internal Bathing, invented by Dr. Chas. A. Tyrrell of New York, and has been the means of restoring thousands to perfect health. It is shown and explained by Cyril H. Orme, Druggist, cor. 3rd Ave. and 6th St., who will be pleased to give you an interesting book called 'The What, The Why, The Way of Internal Bathing' on request. Ask for it.
