

SPECIALIST SAID HE MUST OPERATE

She Took "FRUIT-A-LIVES" Instead,
And Is Now in Perfect Health.

MME. F. GAREAU

153 Papineau Ave., Montreal.
"For three years, I suffered great pain in the lower part of my body, with swelling or bloating. I saw a specialist, who carefully examined me and gave me several tonics to take, which did not help me. Then he told me I must undergo an operation. This I refused to permit. I heard about 'Fruit-a-lives' and the wonderful results it was giving because this medicine is made from fruit juices, so decided to try it. The first box gave great relief; and I continued the treatment, taking six boxes more. Now, my health is excellent—I am free of pain and swelling—and I give 'Fruit-a-lives' my warmest thanks."

MME. F. GAREAU.
Box, 6 for \$2.50, trial size 25c.

INDIANS ASSISTING IN OUTPUT OF SPRUCE

A statement made by Mr. W. E. Ditchburn, chief inspector of Indian agencies, is to the effect that the various Indian tribes of the province are co-operating with the Imperial Munitions Board in providing for the freest possible access to the spruce areas located on the various Indian reserves, this having been made possible by a special order-in-council. Many of the tribes on the reserves between Vancouver and Prince Rupert have assented to a surrender of the spruce timber standing thereon, and surrenders are now being submitted to the different tribes at the north end of Vancouver Island.

Some of the Indian tribes have also shown a disposition to engage in the cutting of the spruce themselves and permission will be granted by the Department where the Indians are capable of carrying out the work in an expeditious manner, but cases of this nature will in no way interfere with the contracts made by the Imperial Munitions Board.

After surrenders have been obtained from the Indians for the spruce on their reserves, the Department of Indian Affairs issues a permit to the Imperial Munitions Board for the cutting of a stated quantity, and the Board in turn arranges with reputable logging companies for logging off the timber, the companies guaranteeing to turn out a specified quantity of spruce in a given time.

It is anticipated that a large quantity of spruce will be cut for the Imperial Munitions Board from the Indian reserves on the coast, as the quantity is known to be all that is desired, and the accessibility of the reserves themselves will make logging operations much easier than on Crown timber limits or those of private holders.

One, two—it's good to chew.
Three, four—they all want more.
Five, six—it comes in sticks.
Seven, eight—the flavor's great.
Nine, ten—come again
—with Wrigley's!
