## THE SESSION

A considerable amount of good work was done by the Legislature in the Session which came to an end last week. Some of the measures adopted were of unusual importance in their special application to the exigencies of the times. Conspicuous among these was the legislation affecting the logging of spruce for aeroplanes. In the light of what is happening in France and Flanders it is impossible to conceive of any way in which the Government of this Province could have made a more effective contribution to the Allied arms. This action of the Provincial authorities may play a very essential part in determining the issue on the battlefield.

The measures affecting the P.G.E., the granting of bounties for iron and steel production, co-operation between the Province and the Dominion for the settlement of returned soldiers on the land, taxation, the minimum wage for women and the Civil Service are all of first importance in their relation to the economic and social development of the Province. Whether the sequel to them will justify the promise, however, will depend upon the nature of their administration. An Act is good or bad according to its practical application. For instance, the Civil Service Act is an excellent measure as it stands, but whether it will continue to be so will depend upon the Commissioner who will have the administration of it.

The government undoubtedly gained ground during the Session, and the Premier amply justified his selection by His Honor as successor to the lamented Mr. Brewster. To some extent, however, the Government owes its thanks to Mr. Bowser for its increase of prestige. The Leader of the Opposition exhibited a perfect genius for diverting attention to his own unsavory record, his recklessness in dealing with facts and his inability to realize that the public is no more impressed with petty hair-splitting and scolding in the

place of sound criticism than it is in transparent attempts to play to this or that element of the community for political purposes. Mr. Bowser never has been able to rid himself of the delusion that the electors turned him out in a fit of mental abstraction and felt like taking a lethal plunge when they discovered what they had done. Mr. Bowser was dismissed because he had lost the public's confidence; because he belonged to a type of politician which had outlived its day. Whatever may be the failings of the Premier—and he is quick to admit them—the public knows it can trust him to do what he conceives to be right regardless of consequences. We have only to contrast the attitude of the two in office towards the P. G. E., for an apt illustration of their respective conceptions of public duty.—Victoria Times.

## In the Letter Box

To the Editor, Daily News:—  
Regarding the subsidizing of passenger vessels to operate between points on this coast, I have received the following reply from Mayor McClymont, which in fairness to him, I deem worthy of publication.

Respectfully,  
HOOMES K. FREEMAN.  
H. K. Freeman, Esq.,  
Prince Rupert, B. C.

Dear Sir,—Yours of the 23rd inst. to hand, in reply to which I beg to state that I did not read the press reports as to what I said regarding the matter of passenger boats at the last meeting of the council. My remarks re the Government subsidizing were as follows:—

"That if the Government made restrictions so severe, especially in a place with so many outlying points hard to get at, and as a result, the present gas boat owners were unable to meet the situation because of these restrictions, then the Government should remove same in view of our peculiar situation where so many camps have to be served. Or else

failing this, that they subsidize a boat so that the public may have service."

From the remarks of one of the aldermen at the same council meeting, I understand that certain boats plying between Stewart, Alice Arm and Anyox are going to be stopped by the authorities because of the restrictions and needless to say, this is bound to work a hardship on the people of that district.

Yours truly,  
T. McClymont, Mayor.

## Constipation Cured in His 78th Year without Drugs

Did you ever know any person who was permanently cured of Constipation by taking drugs of any kind? Drugs seem to assist Nature at the time, but as time goes on larger doses are necessary until the trouble becomes chronic.

Internal Bathing is the only real cure for Constipation. It keeps the Colon or Lower Intestine free from all accumulation. Soon the system performs its regular functions unaided, and there is no further trouble.

Mr. A. McLean, of Conger Lumber Co., Parry Sound, writes:—"I have been troubled with Constipation for the last 35 or 40 years, and could not pass one day without taking medicine. I have used the 'J. B. L. Cascade' since getting it 21 days ago, with wonderful results. Will recommend any person to use it."

Dr. Chas. A. Tyrrell of New York, invented and perfected the 'J. B. L. Cascade' for Internal Bathing, which is today the only efficient means of accomplishing the desired results. Dr. Tyrrell has published an interesting book on Internal Bathing, called 'Why Man of Today is Only 50 Per Cent. Efficient,' which can be had free for the asking of Cyril H. Orme, Druggist, cor. 3rd Ave. and 6th St. He will also be pleased to show and explain the 'J. B. L. Cascade' to you.
