

WEeping ECZEMA SOON RELIEVED

A Perfect Treatment For This
Distressing Complaint

WASING, ONT.
"I had an attack of Weeping
Eczema; so bad that my clothes
would be wet through at times.

For four months, I suffered terribly.
I could get no relief until I tried
'Fruit-a-tives' and 'Sootha Salva'.

The first treatment gave me relief.
Altogether, I have used three
boxes of 'Sootha Salva' and two of
'Fruit-a-tives', and am entirely well."

G. W. HALL.

Both these sterling remedies are
sold by dealers at 50c. a box, 6 for
\$2.50, or sent on receipt of price by

"Fruit-a-tives" is also put up in a
trial size which sells for 25c.

NORTH SEA CORRAL FOR SUBMARINES

London, May 18.—The British
Admiralty restriction on naviga-
tion in the northern part of the
North Sea, in view of the laying of
a great mine field for the purpose
of foiling submarines, became
operative today, and hereafter all
shipping in that area must com-
ply with stringent regulations or
ignore them at their own risk.
After dark no ship will be allowed
within the prescribed area, which
lies between the coasts of Norway
and Scotland and any vessel find-
ing itself there, half an hour after
sunset, must anchor in ac-
cordance with the Admiralty's di-
rections. The regulations include
strict rules affecting all except
warships entering and leaving the
ports of Northeastern Scotland as
well as the Orkney and Shetland
Islands.

The vast barrier, which seems
to have been over-estimated in
extent in earlier reports, is now
said to cover approximately 22,-
000 square miles.

Many details can not be divul-
ged and some of those printed ap-
pear to be based on assumptions
by non-official experts, but it is
generally accepted that the bar-
rier is designed to fence in, as
far as possible, U-boats and other
enemy craft in the northern end
of the North Sea in the same man-
ner as the barrier across the
Straits of Dover already effective-
ly blocks their access to the
Channel. It is remarked that if
the barrier is to exclude subma-
rines the mines must have been
laid at an unusual depth to cover
the limit of the average subma-
rine's diving capacity.

The forbidden area necessarily
leaves a gap on each side, on the
east because the territorial waters
of Norway must be respected; and
on the west to preserve a passage
for shipping, and to allow a pas-
sage for shipping, and to allow
freedom of action for the grand
fleet.

But notwithstanding such limi-
tations, confidence is expressed
that the new measures, combined
with the recent operations at
Zeebrugge and Ostend, must
greatly handicap the movements
of the U-boats and further dis-
courage the hopes that the Ger-
mans have placed in the subma-
rine campaign.
