

FRIENDS THOUGHT HE WOULD DIE

"FRUIT-A-TIVES" Conquered Dyspepsia and Restored His Health.

MR. ROBERT NEWTON.

Little Bras d'Or, C. B.
"I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches, and did not sleep well at night. I lost so much weight—going from 185 pounds to 146 pounds—that I became alarmed and saw several doctors who, however, did me no good. Finally, a friend told me to try 'Fruit-a-tives'. In a week, there was improvement. The constipation was corrected; and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous". ROBERT NEWTON.

HARRY HANSON'S

PATENTED

Fast Heating Hot Water Coil

Costs \$20.00 all connected up complete and guaranteed for one year. Orders will be received at this price up to May 15—After that the price will go up. At the present price of material, ask your plumber for a price to make an ordinary coil, connect it up and guarantee it for one year, and see how much more expensive it is than the Harry Hanson coil.

As all heretofore existing agreements between the other plumbers and myself have expired, I hereby revoke any permits to anyone to make and install same, excepting STEEN & LONGWILL during my absence. Will positively prosecute infringers.

HARRY HANSON
THE BUN PLUMBER

SON OF PREMIER INVENTS DEVICE

Victoria, June 7.—Charles Edward Oliver, son of Premier Oliver, is the inventor of the compartment gasoline tank for use in airplanes. The Premier's son has been engaged on his task for some time past and now writes that the Inventions Board of Ottawa, through its engineer, has come to the conclusion that his type of gas tank for airplanes has practical value. Plans and specifications have been forwarded to the Imperial Air Board in London.

Gasoline tanks in airplanes now in use on the fighting front are of the one or two-piece variety with the result that as soon as the receptacle becomes punctured by bullet or shell, the liquid escapes and ignites.

The average quantity of gas carried at present is in the region of 120 gallons and the new plan provides compartments to hold one gallon of gasoline each, all connected with the engine by a supply pipe. The combination of tanks is so designed, however, that if a bullet pierces one or more compartments with leaking gas as a consequence, an automatic valve closes that particular section as against all other compartments. By this means risk from firing is reduced to the minimum and the supply of gas for the operation of the airplane is only impaired to the extent of tanks so punctured.

Mr. Oliver is a bachelor of science, a graduate of Toronto University, and is at present engaged as mineralogist at the Ross molybdenite mine near Ottawa. He is 24 years of age and for some time past has been engaged in experimental work in connection with munitions.

Constipation Cured in His 78th Year without Drugs

Did you ever know any person who was permanently cured of Constipation by taking drugs of any kind? Drugs seem to assist Nature at the time, but as time goes on larger doses are necessary until the trouble becomes chronic.

Internal Bathing is the only real cure for Constipation. It keeps the Colon or Lower Intestine free from all accumulation. Soon the system performs its regular functions unaided, and there is no further trouble.

Mr. A. McLean, of Conger Lumber Co., Parry Sound, writes:—"I have been troubled with Constipation for the last 35 or 40 years, and could not pass one day without taking medicine. I have used the 'J. B. L. Cascade' since getting it 21 days ago, with wonderful results. Will recommend any person to use it."

Dr. Chas. A. Tyrrell of New York, invented and perfected the 'J. B. L. Cascade' for Internal Bathing, which is today the only efficient means of accomplishing the desired results. Dr. Tyrrell has published an interesting book on Internal Bathing, called "Why Man of Today is Only 50 Per Cent. Efficient," which can be had free for the asking of Cyril H. Orme, Drugist, cor. 3rd Ave. and 6th St. He will also be pleased to show and explain the 'J. B. L. Cascade' to you.

WATER NOTICE

(Use and Storage).

TAKE NOTICE that George H. Boulton, whose address is Port Clements, B. C., will apply for a licence to take and use 5,000 gallons and to store 50,000 gallons of water out of an unnamed creek which flows northerly and drains into Ferguson Bay, Masset Inlet.

The storage dam will be located at a point about 500 yards from the mouth. The capacity of the reservoir to be created is about 50,000 gallons and it will flood about 0.95 acres of land. The water will be diverted from the stream at a point near the dam and will be used for steam purposes upon the land described as Block 35, Lot 746.

This notice was posted on the ground on the 29th day of May, 1918. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed at the office of the Water Recorder at Prince Rupert, B. C. Objections to the application may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is June 1, 1918.

G. H. BOULTON, Applicant.

Canada's Registration

Its Purpose and Application

CANADA faces the gravest crisis in her history. Four years of war have taken from the Dominion a heavy toll in talent and labor, yet despite the shortage of man power, our Allies still depend on Canada to maintain her own fighting forces at full strength and to increase her exports of food and war materials, so vital to them, and to the successful prosecution of the war.

Every ounce by which Canada can increase her food production and every ounce Canada can save in her food consumption is needed for export to the Allies.

Should the war continue for another year, food cards and a rationing system may have to be instituted. It is the duty of Canada to be prepared for whatever situation circumstances may force upon her.

It is quite probable that before the war is won our Government may have to place restrictions upon the occupations in which men and women may engage. In such an event the Government wishes to be in a position to render all possible assistance in keeping our population usefully and profitably employed.

Registration Day, June 22nd

These conditions point to the necessity of Canada knowing the exact capabilities of her men and women at home.

All persons residing in Canada, male or female, British or alien of 16 years and over, will be required to register on June 22nd and truthfully answer the questions set forth upon the registration card.

It is not the Government's intention to conscript labour in any form, but to assist in directing it wisely, so that every available unit of

human energy may be utilized to the best advantage.

The information procured through registration will be used—as an aid to the Military Authorities in procuring the men necessary to maintain "Canada's First Line of Defence"—to mobilize all units of available labor in the Dominion and direct them from less essential to more essential occupations—to establish and intelligently administer a system of food rationing should that become necessary.
