FOOD SITUATION BAD IN TURKEY

London, June 8.—Reports concerning the food situation in Turkey show that conditions continue bad and that there is a great deal of suffering among the people, some of the poorest among the people being forced to depend to a large extent on chestnuts and pumpkin seeds owing to food shortage and high prices.

In certain districts those on the middle Euphrates, for example, harvest prospects in the beginning of this year were bad and starvation was anticipated unless the government helped. A certain amount of seed was at the government's disposal, but local Turkish authorities were obstructing and dishonest and would not issue the full amount, while the newly appointed seed commissioners found difficulties placed in their way. Under these conditions the success of the harvest is highly problematical.

In other districts harvest prospects have been spoiled by the actions of the troops. In the areas east of the Jordan the Turks turned their animals loose in the crops when they were practically ripe, causing wholesale destruction.

The Turkish soldiers themselves have suffered from the food shortage. The bread ration should be 900 grammes daily, but the men rarely receive more than 480 grammes. The meat ration is 250 grammes three times a week, but on the few occasions when meat has been available the ration has not approached 250 grammes.

Registration Card

CANADA

Registration a Stupendous Task

One Day - SATURDAY - June 22nd

The task undertaken by Canada to register every male and female, British or alien, of 16 years and over, residing in the Dominion, is of stupendous proportions. The machinery that has been created is most comprehensive in its scope, and the information procured through this registration will be in such form as to make it possible for Canada to mobilize every available unit of human energy, either in the "First line of defence" or at home in support of her Allies.

Five million people will have to be registered in one day. It is estimated that one hundred and fifty thousand workers will be required to take this registration, or an army five times the size of the first Canadian contingent.

It will require at least six minutes to register one person. A Deputy working continuously can take only ten registrations per hour, or eighty for an eight hour day. On Registration Day the booths will be open fifteen hours; the Deputies therefore will have to work in two, possibly three shifts.

In order to make registration convenient and easy, 25,000 places of registration will be established throughout Canada, with from one to twelve booths at each place. The location of these booths will be advertised by Proclamation and through the local press.

Canada will be divided into 230 districts, each in charge of a Registrar, who is instructed to surround himself with a competent staff of deputies and assistant deputies in whatever numbers the work may require.

Volunteer Workers Urgently Needed

To carry out this vast programme efficiently and completely, intelligent voluntary helpers are essential. Individuals, women's societies, clubs, fraternal societies, church organizations and municipal organizations are asked to help.

The Board appeals with confidence to the patriotism of every Canadian man and

woman and to the pride which every locality must take in doing its own work well, to furnish the necessary number of volunteer deputies and assistants.

Interpreters of all languages will be required. Those qualified should apply to the Registrar of their district at once.

Canada Registration Board

Superintendent of Registrars—C. E. Mahon, 45 13th Avenue W., Vancouver, B.C.
