Ads.

The Classified Ads.

Many people have something in the house they would like to sell which could be turned into money if they knew of a customer. Try a classified advertisement. Most people read the classifieds. For about fifty cents you can let them know about it and it may prove a profitable transaction.

### Renting the House

There are a number of houses in the city not rented yet and many people make little effort to secure a tenant. Others who are wise to their opoprtunities try a classified advertisement in the "For Rent" column and often get results. As one satisfied customer said recently: "Those little ads certainly do bring results."

#### Some Like Reader Ads.

Some people after trying other kinds of advertising decide to try a reader among the locals and personals. Then they have got results. The cost is Phone a little higher but they have been well satisfied. When conditions are like they are today the newspapers can often help. The price is not very high. Do not lie down and bemoan your hard fate. Try a different kind of advertisement and if that is not successful try again.

Let the Daily News Classified Ads. work for you.
