REAL PROGRESS

The reports of the recent conference of the stock raisers of this province of British Columbia, which was held at Kamloops recently shows how close an interest the present provincial government is taking in all that will tend towards greater development and production. The interest taken by the members of the government, individually and collectively, in everything that will tend towards the progress of the development of the resources of this part of the Dominion were never more marked than they are at this present time.

So far as the cattle and sheep men of British Columbia are concerned, they are finding in the Hon. T. D. Pattullo, minister of lands, and in the Hon. Mr. Barrow, the new minister of agriculture, the greatest assistance possible in the solving of the many problems connected with the creation of satisfactory range for their flocks and herds. What is wanted for the success of these industries is all year round pasture, and plenty of it.

At this conference of the stock raisers, the utmost enthusiasm was displayed by those most interested parties by the proposals of the two ministers in connection with the basic necessities of their business, in the avoidance of conflict in conditions as required for cattle raising and sheep raising.

The ministers of land and agriculture are working hand in hand regarding everything connected with their two departments so that everything possible may be accomplished at the earliest moment for the development of the land and its products. The ministers of the Cabinet are on the job.

A STATEMENT OF FACT

After an expedition up the Bulkley Valley, over a distance of some seventy miles from Hazelton, the editor of the Omineca Herald gives a fine description of what he saw, both visually and in his mind's

eye, which is well worth while. He says:—

The whole country at this time of year is one rolling mass of green, the shades varying according to the particular vegetation. Grain fields, just getting a nice start, on the hillsides and in the bottom lands, peavine and other rich pasture grasses wherever the land has not been cultivated; hay fields by the hundred acres, all looking healthy. The country looks the picture of wealth and it requires no stretch of imagination to see hundreds of farms spread over the lands that are now occupied by a few. There is room, there is wealth and there is happiness awaiting for those who will grasp it, and the procession of settlers is not far off.

One cannot compare a Bulkley Valley farm with a prairie farm with any degree of fairness. The conditions are vastly different; the system of farming is different and the advantages of one overshadowed by the advantages of the other. The Bulkley Valley is essentially a country intended for those who love the land, who love living close to nature and whose ambition is to establish and maintain one of those substantial and productive home-farms where the people are independent of the outside world with its trials and tribulations and whirl-wind existence. Success in the Bulkley Valley is for those who have for the market only the finished product. The produce of the land must be converted into beef, mutton, pork, chicken, butter, cheese and eggs. The land is too valuable to sell hay or grain and it lends itself particularly to stock and permanency.

The country is well watered by great rivers and small streams that are fed by the snows and ice of the huge mountain ranges in the distance. The annual rainfall is ample and the growing season is rapid, yet tempered. There is no excessive heat in the summer; and the winters are the most pleasant in the land.

The best grade of coal is in abundance in the neighborhood.

Insomnia Cured Without Drugs

Internal Bathing Relieves the Cause

If you do not sleep there is always some cause. Don't start dosing with drugs. Nerves can't consume them. Relieve the cause and a good, sound sleep will be the result.

The system cannot be right if the Colon or large intestine is not kept clean and free from all waste matter. Bathe internally if you want perfect health. Mr. F. C. Voigt, Rapid City, Man., writes:—"For several years I suffered from indigestion, nervous debility, insomnia and constipation. Had no appetite, and doctors did not expect I would live throughout the winter. Your book interested me. I got a 'J. B. L. Cascade' and in a few days obtained remarkable results. I now sleep and enjoy my meals better than for years before. I regard the 'J. B. L. Cascade' as a Godsend to me."

The "J. B. L. Cascade" is a perfected appliance for internal bathing, invented by Dr. Chas. A. Tyrrell of New York, and has been the means of restoring thousands to perfect health. It is shown and explained by Cyril H. Orme, Druggist, cor. 3rd Ave. and 6th St., who will be pleased to give you an interesting book called "The What, The Why, The Way of Internal Bathing" on request. Ask for it.
