BRITISH METHODS OF HUNTING HUN SUBS ARE SUCCESSFUL

London, June 25.—Interesting narratives from reliable sources completely refute the German assertion regarding ineffectiveness of depth charges and other British methods of destroying submarines.

One bright moonlight night a British patrol boat noticed a submarine half a mile distant apparently recharging her batteries. The captain immediately ordered full speed in the direction of the submarine, with the object of ramming her before she was able to submerge. The U-boat succeeded in submerging, but the patrol boat came up and dropped six depth charges and then fired a shell at the centre of the visible disturbance. Large quantities of oil came to the surface and cries for help were heard. Only one survivor was found.

Besides the case of the German submarine cruiser torpedoed by a British submarine near Cape St. Vincent, May 11, other instances have occurred.

A British submarine espied and charged and successfully rammed an enemy submarine. The British boat cut the enemy's plates and remained imbedded. Both craft endeavored to extricate themselves. The enemy, through using his ballast tanks, almost came to the surface, bringing the British submarine along. Then the U-boat drew away in great difficulty, apparently frantically endeavoring to keep afloat, but it subsequently sank.

SYNOPSIS OF LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions, with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where a pre-emptor in occupation not less than 2 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued provided applicant makes improvements to extent of \$200 per acre and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained on these claims in less than 5 years, with improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes, areas exceeding 640 acres may be leased by one person or company.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

TOWNSHIP PROPERTY ALLOTMENT ACT.

Provision is made for the grant to persons holding uncompleted Agreements to Purchase from the Crown of such proportion of the land, if divisible as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment jointly. If it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made. These allotments are conditional upon payment of all taxes due the Crown or to any municipality, the rights of persons to whom the purchaser from the Crown has agreed to sell are also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.
