

AUTOINTOXICATION OR SELF-POISONING

The Dangerous Condition
Which Produces Many Well
Known Diseases.

HOW TO GUARD AGAINST THIS TROUBLE

"FRUIT-A-LIVES" — The Wonderful
Fruit Medicine — will Protect You

Auto-intoxication means self-poisoning, caused by continuous or partial constipation, or insufficient action of the bowels.

Instead of the refuse matter passing daily from the body, it is absorbed by the blood. As a result, the kidneys and skin are overworked, in their efforts to rid the blood of this poisoning.

Poisoning of the blood in this way often causes Indigestion, Loss of Appetite and Disturbed Stomach. It may produce Headaches and Sleeplessness. It may irritate the kidneys and bring on Pain in the Back, Rheumatism, Gout, and Rheumatic Pains. It is the chief cause of Eczema — and keeps the whole system unhealthy by the constant absorption into the blood of this refuse matter.

"Fruit-a-lives" will always cure Auto-intoxication or self-poisoning — as "Fruit-a-lives" acts gently on bowels, kidneys and skin, strengthens the bowels and tones up the nervous system. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-lives Limited, Ottawa.

WATER NOTICE (Diversion and Use.)

TAKE NOTICE that The British Canadian Lumber Corporation, Ltd., whose address is 109 Yorkshire Building, Vancouver, will apply for a licence to take and use one cubic foot per second of water out of an unnamed creek, which flows southerly and drains into Masset Inlet, about 400 yards northeasterly from the southwest corner of Lot 1438.

The water will be diverted from the stream at a point about a quarter of a mile from its mouth and will be used for steam purposes upon the land described as Lot 1438, Graham Island.

This notice was posted on the ground on the 2nd day of January, 1918. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is January 8th, 1918.

GERMANY AFRAID FOR THE NEXT GENERATION

London, Jan. 24.—Nothing is causing Germany greater anxiety at the present moment than the decline in the number of children. On the one hand millions of young men and boys are being killed, wounded or permanently incapacitated for useful work in the future, while on the other there is a steady decrease in the birth rate. There is no new development, for it was apparent and was recognized before the war, but it is obviously more serious now, and it is necessary to find a corrective. What these means are is sufficiently well known, but whether they will effect their purpose remains to be seen.

The falling off in the birth rate is greatest in the large towns. It is very noticeable, for example, in Dresden.

It is interesting to note that whereas up to October, 1915, the number of births in Dresden was regularly in excess of the number of deaths, there has been an excess of deaths over births since then in two months only—namely, May and September, 1916. In all the other months the number of deaths was larger than the number of births.

It would be easy to prove by an examination of statistics in other German towns that what is happening in Dresden is happening elsewhere. Prussia and Central Germany are the only places where the decline in the birth rate is less ominous and are those where strong religious influences exist to combat it, as the Roman Catholic districts of West Germany and the Polish Provinces of Prussia, where the population is largely Roman Catholic. Naturally the hard winter is having a disastrous effect on the population, the elderly people enfeebled by inadequate food.

SERBIA TEMPTED WITH OFFERS OF PEACE

Washington, Jan. 23.—Germany has made "tempting inducements" to Serbia, in a fruitless attempt to secure a separate peace, it was authoritatively learned in diplomatic circles today.

Concessions virtually amounting to fulfillment of Serbia's war aims have been made by Austria-Hungary, and even Bulgaria has modified her demands—but the overtures have been disdainfully ignored by King Peter's countryless nation, it was stated.

Pour LUX on the troubled waters of the wash

MILLIONS of these little LUX wafers are working wonders every wash-day all over Canada. In color they are like cream—to the touch like silk. The fine, soft, creamy lather LUX makes, is splendid for woollens—it never shrinks or hardens them. In fact, all kinds of garments, woollens, silks, laces, linens, etc., dainty or otherwise, are really preserved by LUX. It leaves them luxuriously clean, but with the fabric absolutely free from matting and shrinkage.

SAMPLE FREE on application to Lever Brothers Limited, Toronto. Sold at all grocers.

Remember: 1st. LUX is made in Canada. 2nd. It won't shrink woollens.

Anyone Can Have Whipped Cream

PACIFIC MILK is so rich in cream that it whips as easily as most of the fresh cream sold around the Province.

Mrs. McCary of New Westminster wrote in to say that she whips PACIFIC MILK regularly for a treat for the youngsters for breakfast.

All she does is to set aside the amount she wants, in a cool place, for a time and then beats it with a sieve egg-beater. She puts this on toast and gives it to the children for breakfast.

You'll find it is good on cakes and

Keep Chickens

This is
National
Service

They
will help
Keep you

The cost of meat is the heavy item in the food bill.

Poultry and Eggs will help take the place of meat.

The food that goes to the garbage pail from the average table will provide one-third the feed for a flock of 8 to 10 hens.

Poultry will thrive where vegetables will not grow. The outlay is small. A few minutes a day is all the time required.

A small flock in your back yard will go far to keep you supplied with eggs, broilers and roasters.

Write for Poultry Bulletins to

INFORMATION BUREAU

THE DOMINION
DEPARTMENT OF AGRICULTURE,
OTTAWA

HONOURABLE MARTIN BURRELL, Minister.

How to go about it

BUY eggs for hatching or day-old chicks; borrow or buy a broody hen or an artificial brooder. A slatted packing-box will house the hen and chicks. Feed the chicks bread crumbs soaked in milk and squeezed dry. Feed five times a day, alternating with prepared chick feed, only as much as they will eat up clean. Remember that a hungry chick is a healthy chick.

CAUTION: Chicks must not be fed until at least 48 hours old, and then only sparingly.

If you can, start now with eggs or chicks; if not, arrange at once with the local poultry association for pullets in the fall.
