PRICE FIVE CENTS

OVER A MILLION AMERICANS IN FRANCE

PRESIDENT'S STATEMENT--EXPLOSION IN SYRACUSE KILLS AND INJURES 1200

ALLIED TROOPS LANDED IN RUSSIA TO PROTECT STORES OF MUNITIONS AT KOLA

BRITISH, FRENCH AND AMERICANS LANDED ON NORTHERN ARCTIC SHORES OF RUSSIA--GREAT AERIAL ACTIVITY IN WEST--GERMAN COUNTER-ATTACK CAN'T MOVE AMERICANS

London, July 3.—American, British and French forces have been landed at Kola, on the Murmansk coast, on the northern boundary of Russia in order to protect the vast stores of munitions which were transported there before the collapse of Russia as a fighting factor. Warehouses there are filled to overflowing with military stores of all kinds, and it is known that the Finnish Red Guard, and later the German invaders of Russia have been casting covetous eyes in this direction. It is expected that the Allied forces in this northern portion of Russia will have to face a serious attack soon.

Hun Regiment Wiped Out.

Paris, July 3.—German counter attacks north of Chateau Thierry against the positions captured by the American troops have failed completely. The village of St. Pierre Aigle remains in American hands. An entire German regiment has been virtually annihilated in the fighting west of Hill 201.

Aerial Activity.

London, July 3.—British airmen yesterday disposed of forty-two German aeroplanes and three balloons. In an air battle between nine Allied aeroplanes and an equal number of German machines in the Chateau Thierry sector, at least three German planes were destroyed, while two American machines have failed to return from the encounter.

NEW ENGINE TO GET POWER FROM AIR WAS TESTED AT BOSTON

Washington, July 1.—An engine invented by T. K. Giragosian of Boston, who claims it will utilize an inexhaustible source of cheap power from the air will be tested at Boston tomorrow by scientists selected by the inventor, and approved by Secretary Lane. The test, which was authorized by congress, will be secret.

HOTEL ARRIVALS

Hotel Prince Rupert:—Martin Swanson, R. A. F., Toronto; B. J. Bacon and wife, Port Simpson; J. W. Bethuren, U.S.; M. S. Kerp, F. Parmelee, Edmonton; A. G. Harris and wife, Port Essington; B. F. MME. PETROVA

IN—

"THE LIGHT WITHIN"

A romance full of love—a first National Attraction.

COMEDY

FIRST SHOW AT 7:30. SECOND SHOW AT 9:15.

NOTES FROM THE COUNCIL CHAMBER

One by one last evening the councillors dropped into the city hall, and it was after eight o'clock before a quorum was secured. That holiday spirit seemed to have invaded the Civic High Place and there did not seem to be much inclination to trouble too seriously with the larger issues. It was just as well then, that the city clerk had practically nothing to place before the meeting. The minutes of the previous meeting were read and approved, sundry supplies were passed, and some tenders agreed to be held over, and that was all.

A question from Ald. Smith regarding the city's consulting engineer, Mr. Anderson, brought out the fact that there had been some squabble somewhere or other apparently in connection with his visit. His worship, the mayor, however, afforded the aldermen little information. The committee concerned is to meet today and thresh the matter out, and it will report in formal course next week.

In view of the attendance of the city treasurer, Mr. E. D. Johnson, at the convention of the Union of Canadian Municipalities in Victoria within the next week or so, it was considered that the city ought to join the Union, and pay the dues. This being agreed to, the motion for adjournment was made, and by twenty minutes past eight, the council meeting was over.

GERMAN POPULACE NOW LEARNING TRUTH

Atlantic City, N. J., July 1.—The vital part which America is playing in the world war has at last begun to dawn upon the people of Germany, despite the efforts of the German government to conceal it, Lord Reading, British ambassador, declared in a speech tonight before the Maryland State Bar Association.

"I observe that in the Reichstag and throughout Germany," he said, "it is now known that a new, vital, dominant force has not only entered into this war, but is determined to throw all it possesses into the scale for the ideals upon which its political system is based and which are the only principles for which America has ever been drawn into the war."

MASSACRE OF SERBIANS BY BULGARIAN FORCES

Washington, July 3.—Advises received here from the Balkans give information of the massacre of three hundred Serbians. These people were rounded up not far north of Monastir, and were put to death near a monastery there. The general pillage of what remains of Serbian possessions has been organized by the Bulgarians.

Ladysmith Wellington Coal reduces your fuel bill and gives satisfaction. Phone 15. P. R. Coal Co.

FOURTH OF JULY TO BE CELEBRATED IN ALLIED COUNTRIES

King George Will Witness Ball Game Between U. S. Army and Navy Teams at Chelsea.

London, July 3.—The rivalry between the American army and navy baseball teams, which are to play before King George at Chelsea on July 4, increases daily and the general opinion among the Americans in England is that the game will be fast and closely contested.

Every American soldier and sailor in London will have evidence on all sides that the Fourth of July is celebrated in England as well as at home. The bells at St. Paul's cathedral are to be rung. The bishop of London has issued directions for the celebration of communion in every church in his diocese with prayers for the United States. In the city there will be special observations for the day.

Holiday in France.

Paris, July 3.—The announcement was made in the chamber of deputies last Friday afternoon that the Fourth of July will be regarded as a legal French holiday.

BORDEN CONSIDERS DRAFTING ALIEN ENEMY SUBJECTS

Toronto, July 2.—Sir Robert Borden today cabled to J. R. Nicholl, president of the British Imperial Association of Earlscourt, that he had received the message urging the compulsory enlistment of Canadian Allied alien subjects and had the matter under consideration. The association asked on Sunday that the matter be taken up with the Imperial authorities and a cable was sent to Sir Robert in London.

MME. PETROVA AT THE WESTHOLME THEATRE

"The Light Within" is the title of the photoplay to be screened at the Westholme Theatre this evening, and in it Mme. Petrova, the famous Polish star, scintillates to great advantage. The play itself is a powerful warning to young folks against marrying for money, only. The star in this play has the part of a doctor's daughter, who, in order to provide the wherewithal to complete her father's scientific researches, marries a wealthy man she doesn't love. It is not a happy marriage, and eventually the husband leaves on a long sea trip, is reported lost and turns up again in time to see his wife promise herself to a man she had loved before her marriage. The husband then plans a revenge as fiendish as it is novel, and some of the strongest scenes are to be witnessed in the fight for the life of the hero. But see the play. There will also be a fine comedy.

THE CRADLE

Born to Mr. and Mrs. Alex Clarke, 897 Borden Street on July 3rd, a daughter.

HON. T. D. PATTULLO, MINISTER OF LANDS, VISITING ISLANDS

Leaves Tonight for the Queen Charlottes on Timber Business —Is Hopeful for Future of Northern B. C.

The Hon. T. D. Pattullo, minister of lands, and member for this constituency, arrived in the city this morning from Victoria. Mr. Pattullo is on his way to the Queen Charlotte Islands in connection with the logging industry there, which is intimately connected with his department. "I am going over to see for myself what is being done," said Mr. Pattullo this morning. "The large influx of population there has brought up many subsidiary problems to the great one of getting out the spruce for aeroplane construction. There are at present between two and three thousand people over there, and within the next eighteen months this number will be more than doubled, so you can understand that there are many things to be taken into consideration with such a number of people on a new part of the country. The output of spruce from the islands has not by any means yet reached its maximum, and still more and more must be got out. This of course means a greater number of men and more machinery. These will be made available, and the islands ought to be very busy places for some time to come."

Asked as to how the by-election in Victoria was regarded, Mr. Pattullo said that this could not, nor was it anywhere regarded as a vote of condemnation of the present Government. The people of Victoria are quite sympathetic with Premier Oliver, and are pleased with the manner in which he has been getting after the C. N. R. to implement their obligations. The vote for the returned soldiers was a sympathetic one. It does not affect the government the one way or the other, as they have a sufficient majority, and this consideration weighed largely with the voters. It was felt that the returned men should have their own member.

"Yes, I think the shipbuilding plant will work all right," concluded the minister. "When that gets going, and with an increasing population on the islands and in the interior valleys, great progress ought to be made in the immediate future."

NO MORE SURVIVORS OF "LLANDOVER CASTLE"

London, July 3.—The waters between the spot where the Llandover Castle was sunk, and the southwest coast of Ireland have been thoroughly searched by two of His Majesty's ships. Outside of some wreckage, and a U-boat which was found, it may be assumed that there are no more survivors of the "Llandover Castle."

Mr. George Clothier, provincial mining engineer, left this morning for the upper country.

OVER A MILLION U.S. TROOPS IN FRANCE ON JULY FIRST

PRESIDENT WILSON MAKES STATEMENT OF RECORD ACHIEVEMENT, WHICH WILL CAUSE UNIVERSAL SATISFACTION—AMERICANS REPULSE ATTACKS IN FRANCE

(Special to The Daily News.)

CANADA WILL MAKE REVOLVERS FOR THE UNITED STATES ARMY

Toronto, July 2.—Canada is to have another new and important industry, to be located at Quebec City. The line to be manufactured is automatic revolvers for the United States army. Originally the business was offered to the Russell Motor Car Company in Toronto, but as the order was so extensive and the latter company so busily employed on other war work, it was ultimately found necessary to organize a new company for the purpose. In this new company, however, Russell interests are largely represented. The company will be known as the North American Arms Co., Ltd., and will be capitalized at \$2,000,000.

EVACUATION OF PARIS NOT CONTEMPLATED BY FRENCH CABINET

Paris, July 1.—Proof of the great confidence which the French government has in its soldiers and their commanders, and also of Germany's inability to capture Paris, is found in a word uttered by a person close to the Clemenceau circles, who when asked if Paris was to be evacuated emphatically replied "no."

The question was asked following the authorities' decision not to crowd the suburban munition factories. This was taken as a means of preventing further catastrophes in event of a German bombardment from closer range than now prevails.

1200 PERSONS KILLED AND INJURED IN EXPLOSION AT SYRACUSE

Syracuse, N. Y., July 3.—Great loss of life has occurred here in an explosion which wrecked a factory near the city. Fears have been expressed by the police that the dead and injured will number fully twelve hundred persons.

There were two terrific explosions in the huge plant of the Sennet Holvey Company located at Split Rock, a suburb of the city.

There was one case up before Magistrate Carss this morning at the police court, when Andrew Kosko, an alien enemy subject, was charged with not reporting his whereabouts to the police. He had reported in Vancouver on the 25th ult., but had not intimated his change of address. He, being able to account for this lapse satisfactorily, was dismissed.

For New Wellington Coal and Lumber of all dimensions. Phone 116.

Washington, July 2.—That there were well over a million American troops in France on the first of July was the announcement made here by President Wilson. The statement of this record achievement will, he says, cause universal satisfaction, and give an additional zest to the national celebration of the Fourth. This news is significant for the forwarding of troops overseas in future.

Americans Hold Ground.

Paris, July 3.—The Americans have been able to repulse enemy attacks and hold the ground they have won. General Pershing's men have captured more prisoners to the east of the attacking force, and practically wiped out the village of St. Pierre Aigle, on the Marne. The front has been re-established by the French troops. Artillery activity on the ground held by the British decreases to normal.

RED CROSS NOTES

The people of Queen Charlotte City, through Mr. J. L. Barge, have sent a contribution of \$95; \$75 for the Red Cross, and \$20 for the Belgian Relief Fund. This is acknowledged with thanks.

A box has been received from Port Essington branch containing 120 pairs of socks. This has been forwarded intact direct to headquarters.

The "tank" made by the G. W. V. A. and used in the procession last Monday was kindly loaned to the Adair Carss Chapter, I. O. D. T., to make a collection for the Red Cross. Headed by a soldier in a gas mask, the tank did splendid work among the crowds of people. Mrs. E. H. Shockey and Mrs. S. J. Evans for the Chapter, went everywhere with the machine, and the result of their afternoon's work was \$53.80, which the Red Cross gratefully acknowledge.

Mrs. F. W. Hart and Mrs. Keith will have charge of the sale of home-cooking next Friday. Miss Bruce, and American nurse, who expects to leave shortly for work overseas, and Mrs. Dalton are thanked for their efforts last Friday, when the sale of home-cooking realized \$69.20.

The following is the list of the donors and winners of the articles raffled: Mrs. Williams gave 3 lbs. of butter, which was won by Mr. Goldbloom; Mrs. Bulger, mayonnaise bowl, won by Gene Johnston; Mrs. W. R. Whitley, child's dress, won by Mrs. J. H. McLeod; Mrs. E. Nickerson, cap, won by Mrs. Hogan; Mrs. Skatthol, yoke, won by Mrs. Geo. Sweet; Mr. A. T. Broderick, \$5 gold piece, won by Mrs. Jas. Allen; Mrs. A. Iverson, apron, won by Mrs. D. C. McRae; Mr. E. E. La Casse, box of candy, won by Paul Aivazoff; Mr. Johnston, frypan, won by Mrs. W. J. Forbes; Mrs. Duwhurst, yoke, won by Mrs. K. Johnson; Mrs. Ida Roberts, waffle iron, won by Mrs. Dewhurst; Miss B. Hart, cut glass bowl, won by Mrs. Cornish.
