

A LIFETIME OF SUFFERING

Prevented by "Fruit-a-lives"
The Wonderful Fruit Medicine

58 MAISONNEUVE ST., HULL, QUE.
"In my opinion, no other medicine is so good as 'Fruit-a-lives' for Indigestion and Constipation."

For years, I suffered with these dreaded diseases, trying all kinds of treatments until I was told I was incurable.

One day a friend told me to try 'Fruit-a-lives'. To my surprise, I found this medicine gave immediate relief, and in a short time I was all right again."

SYNOPSIS OF

LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emption abolished, but parties of not more than four may arrange for adjacent pre-emption, with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 5 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued provided applicant makes improvements to extent of \$500 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained on these claims in less than 5 years, with improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes, areas exceeding 540 acres may be leased by one person or company.

PRE-EMPTORS' FREE GRANTS ACT.
The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

TOWNSITE PROPERTY ALLOTMENT ACT.
Provision is made for the grant to persons holding uncompleted Agreements to Purchase from the Crown of such proportion of the land, if divisible, as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment jointly, if it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made. These allotments are conditional upon payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchase money from the Crown has been agreed to sell are also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.

OTHER WOODS BESIDES SPRUCE BEING USED NOW FOR AEROPLANES

Washington, July 23.—A policy now effective in American airplane production is that of supplementing spruce wood supply by using selected timber of other more widely distributed commercial varieties. It is said exhaustive tests made by the forest service, followed by experiments in construction, have proved that requisite qualifications of strength and lightness for airplane building are possessed in varying degree by other woods, notably white pine, and that under orders of John D. Ryan, head of the Aircraft Board, use of them was decided upon.

It is not intended, the technical men say, to displace the invaluable but somewhat inaccessible spruce with the other woods except in making the fuselage, finishing the body and building up sections of the structure like the landing struts, where the strains and stresses of progress against air resistance do not centre. Spruce will still constitute the material for wing spars, struts, between planes and similar sections where these stresses do centre.

GOVERNMENT TO TAKE STEPS TO PREVENT STOPPAGE OF WORK

Ottawa, July 22.—It is rumored that the Government, on the recommendation of the Minister of Labor, is about to take such steps as may be found necessary to ensure prompt prosecution of any violations of the Industrial Disputes Investigation Act. This Act makes it an offence punishable with heavy penalties to participate in a lockout or strike, or to incite others to do so, before an investigation by a board of conciliation has taken place and an award made by it. Of late there have been several such hasty interruptions of work without any such investigation or any opportunity given the Department of Labor to adjust the differences between employers and workers.
