FOOD CONTROL ORDER

To the Editor:—Please give your interpretation of the following order No. 50 of the Canada Food Board, as it deals with the private consumer and the licensed retail grocer.

Under date June 27th, 1918, of the "Canada Gazette," forwarded to us for our guidance (bearing severe penalties for the infraction thereof) the following subsections appeared.

Sub-sec. B.—Every person in Canada who bakes for private consumption bread, rolls, pastry or any other product in which white or standard flour is used shall in making the same use "not less than one pound of substitutes for every nine pounds of white or standard wheat flour."

Sub-sec. D.—No licensed dealer shall sell to any person for private consumption, west of and including Port Arthur any white or standard flour who does not purchase from him substitutes in the proportion of not less than one pound of substitutes to four pounds of white or standard flour.

Penalty—Any person violating any of the provisions of these

regulations is subject to not less than \$100 fine, or imprisonment, or both.

The conditions are rather confounding as the following will explain itself:

A lady in good faith, patriotically inclined, came to our store for a twenty-four-pound sack of flour. With it she wanted three pounds of substitute in rye flour. We told her we could not sell less than six pounds. She demurred, stating that all the law demanded of her was substitutes in the proportion of one pound to nine. We refused to sell and the lady refused to be stampeded, so we lost a good customer.

To say the least in the absence of fuller information the situation is complex.

Yours truly,

PRINCE RUPERT CROCCERY CO.

D. W. Morrissey.

P. S.—The writer is forwarding a copy of this letter to Henry D. Morrison, chairman Canada Food Board, for fuller information.—D.W.M.

(Newspapermen have so many troubles of their own that it is hardly fair to expect them to solve such intricate problems as that propounded by Mr. Morrissey.—Editor.)
