

Two Questions

With so many low-priced so-called anti-skids obtainable, would that great host of motorists pay more for Dunlop "Traction" Tread if they could get its merits elsewhere?

Also, would that other large list of car owners buy "SPECIAL" if tires which somewhat resemble it in appearance resembled it in efficiency?

FIRE PREVENTION IS BEING PLANNED

Attorney-General Sent Out Letter Dealing With Question of Conservation From Fire.

Attorney-General Farris is taking steps to try to eliminate some of the losses to the country on account of fires. He has addressed the following letter to parties interested in the movement:

"The Government has inaugurated a movement, the aim of which is to reduce the enormous waste due to preventable fires. The proposal is to establish a Provincial Bureau of Fire Prevention, which will operate through local bureaus; the membership to be composed of persons representative of this Department, the municipalities, the fire departments, the insurance companies, and all bodies or interests able and willing to render aid in this connection. The Bureau will prepare propaganda, furnish information and plan a campaign to diminish the loss by fire.

Annual Loss.

"As you are doubtless aware, there is a tremendous field for an organization of this character. In Canada the annual value of property destroyed by fire approaches the sum of \$3 for every man, woman and child, and surpasses even the figures for the United States, where a campaign is being vigorously waged over the length and breadth of the land. In Europe the average loss per capita is well under fifty per cent., proving that conditions in America call for a cure. This yearly waste of our resources is not inevitable, for countless statistics demonstrate that about sixty per cent. of the fires which occur could be prevented by the exercise of more care. The Commission of Conservation sitting at Ottawa has thoroughly investigated the whole subject throughout the Dominion, and has just published a book emphasizing the need of action.

Risks Increased.

"It is perhaps needless to point out that, engaged as we are in a war, when industries, plant, food and materials of all kinds are of vital importance, there is an additional reason for taking all possible steps to preserve property. It is not sufficient to in-

crease production unless at the same time what exists is safeguarded. Every fire destroys food or material, which, though compensated by insurance money, diminishes the available supply and requires labor to replace.

"It is earnestly desired to enlist in the movement every agency which can render service. Will you therefore be so good as to bring the matter before your executive and request them to select a delegate for the Bureau which I have outlined? A general conference of the parties interested will be held as soon as possible to formulate plans for prompt action."

WATER NOTICE

DIVERSION AND USE.

TAKE NOTICE that John M. MacMillan, whose address is 1857 Nelson Street, Vancouver, will apply for a licence to take and use 50 miners' inches of water out of Daas Creek, which flows north and drains into Lagoon Bay, Moresby Island, about 3 miles from Sewell Inlet.

The water will be diverted from the stream at a point about one-quarter of a mile from its mouth, and will be used for miscellaneous purposes, i.e. for cannery, including incidental thereto, water for domestic power and boiler for cannery purpose upon the land described as application for lease by J. McLarty MacMillan.

This notice was posted on the ground on the 30th day of June, 1918. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert.
