**INTENSELY DRAMATIC IS PHOTOPLAY "ON TRIAL"**  
What is described as the most intensely dramatic production in recent years is the photoplay "On Trial," which is to be at the Westholme tonight.  
"On Trial" was one of the most vivid and life-like portrayals of a big murder trial ever put on the stage. It ran a year solid on Broadway, had a run of five months in Chicago and created an equal sensation throughout the country from coast to coast.  
Dramatic critics proclaimed it an innovation in theatrics. The play opened with a court room scene. Robert Strickland was on trial for the murder of his erstwhile friend, Gerald Trask. Ten thousand dollars in bank notes, missing from Trask's home safe, was claimed as the motive for the murder. Strickland acted like a maniac, proclaiming himself to be guilty. He did not want a trial even. It seemed almost certain that the death penalty would be the jury's verdict and Strickland awaited it eagerly. The verdict was "not guilty."

**New Use for Car**—An auto ran over and killed a rattlesnake near Princeton last week. The reptile was thirty-seven inches long and had eight rattles in its orchestra. No doubt but what it advertised when the auto hove in sight, that it had the right of way, but the modern Juggernaut merely made his snakeship chew the dust, and cash in to slow music. New uses for motor cars are being discovered every year.—Greenwood Ledger.
