She Tried "FRUIT-A-TIVES", The Famous Fruit Medicine.

MISS ANNIE WARD
112 Hazen St., St. John, N.B.
It is with pleasure that I write to you of the great benefit I received from the use of your medicine, 'Fruit-a-tives'. I was a great sufferer many years from Nervous Headaches and Constipation. I tried everything, consulted doctors; but nothing seemed to help me until 'Fruit-a-tives'. After I had taken several boxes, I was completely relieved of these troubles and have been unusually well ever since."

MISS ANNIE WARD.

PLEA FOR STEAMER SERVICE TO STEWART

Letter From J. B. Roerig Gives Reasons Why Mining Camps Should Receive Better Treatment.

The following is the text of the letter received by the Board of Trade at its last meeting from J. B. Roerig in regard to a steamship service to Stewart and which led to the appointment of a committee to take the matter into consideration:

"From the general opinion of people qualified to judge and all those that have recently visited the properties on the Salmon river, near Stewart, B. C., it seems to be agreed that one of the largest mineral deposits in the Province is being opened with several other deposits of importance under development in that locality.

"Now while conditions in Prince Rupert are good, in fact better than they ever have been, still we should not sit back and possibly neglect any chance to still better our trade at this port and I believe that by a systematic effort we can enable those who are spending their capital near Stewart to open up that country to have a decent freight, passenger and mail service, and I want to suggest that a vigorous agitation be made to secure that service. Possibly the method following might be of some help:

"1. Get a statement from Mr. Neil and Mr. Fetter; and others interested as to just what they are doing, amount of capital spent, number of men employed and future plans of their respective companies, together with engineer's synoptic report of the possibilities.

"2. Request the Department of

Mines (Provincial) to send engineer to that locality at once to report on the possibilities and secure the department's recommendation through the Minister to the scheme.

"3. Get a request from Mr. Fetter and Mr. Neil for a mail service, supplemented by a petition of all interested Stewart people.

"4. The Granby Company have made extensive investigations up there and are still interested, I understand. Ask them to request the service as well as give us a short history and report of their investigations which I understand are extremely favorable. In fact, their engineer has stated that the Big Missouri is the largest ore body so far known in North America.

"5. After these requests, reports and petitions are obtained present the matter to the G. T. P. with demands for steamer, if satisfactory arrangements are completed with Ottawa, failing which present the plans to the C. P. R.

"It seems to me that the C. P. R. 'Princess May' could make the Stewart trip and still maintain her present schedule of arriving here Fridays and leaving for Vancouver Sunday nights. There is ample time intervening to make the Stewart call.

"There does not seem to be any question in the minds of everyone that are interested or visited the properties that the Salmon river section will develop a very good camp, possibly larger than any that have been opened near Rupert and we are entitled to benefit and are as well entitled to help those people who are spending their capital under bad handicaps.

"I should have mentioned that after the reports, etc., are received that the Board of Trade, citizens at public meeting as well as the City Council endorse our request for mail service and reasonable subsidy to secure adequate service.

"I shall be glad to discuss this proposition with you at any time."

Tom, Tom, the Spearman's son,
Stole a Wrigley box and away he run!

Each stick he chewed his health renewed
And helped his appetite for food!
But his father said "The boy is wise,
Let him do it to advertise!
Since I quit my piping and bought this store
'm selling Wrigley's gum galore!"

SYNOPSIS OF LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 2 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued provided applicant makes improvements to extent of \$300 per annum and records same each year.

Improvements or record same will operate as forfeiture. Title cannot be obtained on these claims for less than 2 years, with improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes, areas exceeding 140 acres may be leased by one person or company.

PRE-EMPTORS' FREE GRANTS ACT.
The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

TOWNSITE PROPERTY ALLOTMENT ACT.
Provision is made for the grant to persons holding uncompleted Agreements to Purchase from the Crown of such proportion of the land, if divisible, as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment jointly. If it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made. These allotments are conditional upon payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchaser from the Crown has agreed to sell are also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments may be made on lots and lands of the Crown sold at public auction.

Say NO!

"You might as well have it," whispers temptation, but your Canadian Patriotism says "No!"

THE tempting suggestions of selfishness meet no response from a patriot.

For he knows that selfishness and self-indulgence are just now the allies of the Hun — they fight on Germany's side against Canada.

When the devil-whisper says "You might as well have it," every true Canadian answers "No!"

Except for the bare necessities of life, we should not be spending five cents a day.

For every expenditure we make on things not absolutely necessary directly affects the fighting strength of Canada and her allies.

The materials that go into the making of things you can do without are needed for our soldiers overseas.

Many of those materials which enter into our unnecessary purchases are brought from other countries and occupy

precious space in ships; space sorely needed for those cargoes which can be used for the winning of the war.

The labor that fashions the things we unnecessarily use is labor which could and would be employed to real advantage in the production of war necessities.

Knowing all this, how dare you divert a single unnecessary dollar from your country's war effort!

The shame that must inevitably follow your every self-indulgence, at so grave a time, will be your fitting punishment — if you persist in buying the things you merely want and do not need.

Resist indulgence, cultivate thrift — for thrift is an evidence of patriotism.

And the money you save by thrift will be yours to lend to your country whenever the call comes.

Two Questions

With so many low-priced so-called anti-skids obtainable, would that great host of motorists pay more for Dunlop "Traction" Tread if they could get its merits elsewhere?

Also, would that other large list of car owners buy "SPECIAL" if tires which somewhat resemble it in appearance resembled it in efficiency?
