### "Fruit-a-tives" Point the Way to Ouick Relief

"I suffered for a number of years with Rheumatism and severe Pains in my Side and Back, caused by strains and heavy lifting.

When I had given up hope of ever being well again, a friend recommended 'Fruit-a-tives' to me and after using the first box I felt so much better that I continued to take them; and now I am enjoying the best of health, thanks to your monderful fruit medicine".

W. M. LAMPSON. "Fruit-a-tives" are sold by all dealers at 50c. a box, 6 for \$2.50, rial size 25c. - or sent postpaid by Fruit-a-tives Limited, Ottawa.

### HANDICAP ON GOLD MINING AT PRESENT

Clyde A. Heller Telis of the Work Being Done at Surf Inlet on Princess Royal Island.

Clyde A. Heller, president of the Belmont Surf Inlet Mines, Ltd., of Surf Inlet, Princess Royal Island, who was in the city at the week end, says that gold mining throughout the world is under a disability in that while the price of everything else has advanced the price of gold is static. The capitalists whom he represents have mines in Nevada, California and Colorado, and they are all gold mines. The Government of the United States is doing all it can to help them and now they are importing Mexican miners because it has been found impossible to get men to keep the work going. Indians are also being itried at one of their mines.

The mine at Surf Inlet is just now averaging about 6,600 tons of ore a month, but the output should be much more. The ore carries mostly gold with a little copper and silver. They have an oil flotation concentrator that saves most of the precious metal and makes it easy to ship to the

At present there are 170 men employed at the mine but Mr. Heller would like to have 250, the difficulty is to get them.

#### STEWART

George A. Clothier, Provincial Mining Engineer, arrived to spend some weeks in the examination of mining properties in this district.

M. R. Jamieson returned from a trip to the south. He will open a hotel at Salmon River shortly.

Linesmen have arrived to put the telegraph line in order from Stewart to Anyox.

Jones and Black, two trappers, arrived from Tacoma in their little launch Success, and left for the upper Naas country, via the Bear River Pass. Some weeks ago Bebeau and Anderson, who have been prospecting and trapping in this neighborhood for several years, started for the interior with nine months' provisions. They will probably meet with considerable success as fur-bearing animals are known to be plentiful.

It is reported here that action is at last being taken in regard to the Stewart wharf which has been without repairs for several years. The increasing business certainly warrants the attention of the Government and it is to be hoped that the work will be proceeded with without delay.

#### ANGLICAN CHURCH AND VICTORY LOAN

Toronto, Oct. 12 .- The Anglican Church proposes to raise a million dollars throughout Canada by asking the Sunday schools to purchase Victory Bonds.

The king of Siam prides himself upon his English. When the king last visited London he met the late Lord Kitchener, whose Egyptian triumphs were still fresh. Desirous of telling Lord Kitchener that he was born to command, he said: "Brave Lord, 'ou were made to order."

We put pep into our printing usiness at The News Print Shop.

LAND ACT - FORM NO. 11

Armed to the teeth

"Troops who travel alongside of them have their work cut out. General Currie seems to carry light railways in his pocket, and if the Canadians have to stop anywhere for a day or two, transportation facilities spring up behind them as if by magic. Germans will go miles out of their way to avoid the Canucks.' CHARLES H. GRASTY, in N.Y. Times, Sept. 2, 1918.

The Canadian Army is fully equipped for War:

Nothing that could help our army in their task is lacking. If this were not so, their great initiative and courage would avail them nothing. For this is "a mechanical war."

The Canadian Army as it stands to-day is a marvel of organization. In guns, in ammunition, in transport, in equipment for the grim work of war-for efficiency of man and beast-it lacks nothing. If a railroad is needed-one is immediately available. When the Canadian Army starts to move-the movement is accomplished with certainty and rapidity. When it attacks-there is no lack of ammunition. It has gas masks and aeroplanes of the latest and most efficient types.

The Canadian Army is a highly disciplined, efficient, thoroughly equipped engine of war. It unquestionably isas the Hun very well knows-"armed to the teeth."

Canada's war loans have made the glory of the Canadian Army possible—they have been Victory Loans in fact, as well as in name.

It is unthinkable, is it not, that our men should lack any implement of war that money will buy!

It would be a greater shame than the mind cares to dwell on, that our men should suffer death or disaster-or just fall short of complete Victory, because we now hold back the money necessary to maintain their full fighting efficiency.

The money for the needs of our army will be provided by Canada's Victory Loan, 1918.

#### Canadians at home will see to that
