

## SPANISH INFLUENZA RAGES IN CANADA

Thousands of Cases Reported With Many Deaths.

### THOSE WHO ARE MOST SUSCEPTIBLE TO IT

"FRUIT-A-TIVES"—The Wonderful Fruit Medicine—Gives the Power To Resist This Disease.

The epidemic of Spanish Influenza which played such havoc in Europe, has reached this continent. Thousands of cases of the strange malady have appeared and many deaths are already reported; Surgeon-General Blue of the United States Public Health Service having stated that "Spanish Influenza will probably spread all over the country in six weeks."

Practically every ship which touches our shores from abroad, brings those infected with the disease.

Surgeon-General Blue urges that "the individual take all the precautions he can against contracting the disease by care and personal hygiene." Plenty of exercise should be taken; the diet should be regulated, etc.

Spanish Influenza affects most severely elderly persons and others whose powers of resistance are weakened by illness, work or worry, especially those who are "run-down" or "not feeling up to the mark."

The really great danger from the disease is not so much in the disease itself, as that it often develops into pneumonia.

What everyone needs now is a general tonic like "Fruit-a-tives". This wonderful fruit medicine is not a germ-killer. It is a body-builder; a strength-maker; a blood-purifier; a power in protecting against the ravages of disease.

"Fruit-a-tives" regulates the kidneys and bowels, causing these organs to eliminate waste regularly and naturally as nature intended. "Fruit-a-tives" keeps the skin active, and purifies and enriches the blood. "Fruit-a-tives" tones up and strengthens the organs of digestion, insuring food being properly digested and assimilated.

Everyone can take ordinary precautions, avoid crowded places, and use "Fruit-a-tives" regularly to insure sound digestion, to keep the bowels and kidneys regular and the whole system in the best possible condition. Then we are safe from disease.

"Fruit-a-tives" is sold by dealers everywhere at 50c a box, 6 for \$2.50, trial size 25c or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa, Ont.

### You Never Know What A Man Will Do

Mrs. Williams has been using Pacific Milk for cooking a long, long time. Her husband got to using it in his morning coffee, so they never buy fresh milk any more.

The other evening Mrs. W. bought some fresh cream to give him a treat (as she thought) with his porridge and to use with his coffee.

However, Mr. Williams didn't see it that way and when he discovered it was a different cream in the pitcher, he asked for the same as he'd been getting every morning—couldn't drink his coffee with the other "stuff."

### Just Camouflage

The "only cure" for Spanish Flu is said to have gone up to \$18 a treatment and even at that it is hard to get. The result is that many are just dying for a dose.

Some wretchedly inquisitive person with no respect for dignitaries asks, What has the food controller controlled? One man winks and whispers, "coal."

It is almost as difficult to get a third lump of sugar in a restaurant today as a bottle of joy without two ten dollar bills. Possibly the food controller has cornered both.

If the Flu does not clear out of town pretty soon the people here will get the blues.

If the mob had burned down Hindenburg's statue yesterday the only place left in which to drive nails would have been the old man's coffin.

But where is the Crown Prince of late? Is he hiking for home along with the rabble? It must be a terribly undignified thing for the chosen of the Lord to do.

If the Methodists had succeeded in passing that resolution asking for the prohibition of smoking in public places there would have been much merriment at their expense. It has been suggested that the non-smokers being in such a small minority those who do not like the scent of the horrid weed should keep out of public places if they don't themselves enjoy the fragrance.

A would-be wit asks is it right for a Baptist parson to preach in Prince Rupert? Another answers that he is the principal wright of the church. And a third rises and remarks that he certainly is all wright.

How can Prince Rupert people expect to clean up the flue if there is not a chimney sweep in town.

Before the journalist leaves his typewriter he prepares for the next day by commencing a sentence: "An important advance was made, etc."

People are rejoicing over the fact that while they may still have a few cases of influenza in the city, at any rate the streets have been cleaned and the crossings swept.

How to Make Them Wear Longer

There is stringent need of it, as every mother can testify, in these days of mounting prices. Well—did it ever occur to you that harsh, common soaps, and the ordinary rub and scrub of the wash board, break down more clothes than are ever actually worn out in use? Its so. We've studied the question. That's why

## Sunlight Soap

purest and best of soaps, was first evolved, years ago—to wash clothes gently but thoroughly, without rubbing—the special "Sunlight" way. Doubly—trebly useful—now, in war time, when the clothes must last longer.

It's easy to do the washing yourself with Sunlight.
